Importance: High

Dear Sirs,

We attach for your consideration our **site specific** representation/comments relating to the Mid Ulster Council LDP draft Plan Strategy dated 21 February 2019 relating to **Clady Road, Clady** on behalf of a client of this office.

This follows on from a previously submitted representation submitted on 25 January 2017 in respect of same (attached for reference).

I trust this is satisfactory however, should you require any further information or clarification, please do not hesitate to contact me.

Please confirm receipt (Matter 12 of 25).

Kind regards,

Conor Cochrane

Dear Sirs,

We attach for your consideration our **site specific** representation/comments relating to the Mid Ulster Council LDP Preferred Options Paper (PoP) dated November 2016 relating to **lands at Clady Road, Clady** on behalf of a client of this office.

I trust this is satisfactory, but, should you require any further information or clarification, please do not hesitate to contact me.

Please confirm receipt (Matter 12 of 24).

Best regards,

Matthew Doak

Our Ref: Matter 12

E: [REDACTED]

Dear Sir/Madam,

REPRESENTATION TO LOCAL DEVELOPMENT PLAN (LDP) – LANDS AT CLADY ROAD, CLADY

MID ULSTER DISTRICT COUNCIL

MUPOP/206

We write on behalf of our client JFM Construction, in relation to the Council's recently published draft Plan Strategy. This letter relates to the strategic theme of housing, and provides commentary on our client's site located east of No. 29 Glenone Road and south of No. 9 Longlands Road, Clady. We have also for completeness attached a copy of our client's representation to the Preferred Options Paper, which was given the reference number MUPOP/206 by the Council.

Growth Strategy and Spatial Planning Framework

Spatial Planning Framework

We remain of the view that the framework elements SPF1 – SPF6 are in theory in accordance with the strategic direction of the RDS. However, the actual housing allocation figures articulated in Appendix 1 do not reflect a coherent strategy and in practice will not result in growth being focused within the three main towns nor will it result in a sustainable pattern of development in the countryside.

Rather, due to the equitable split of housing across the settlement hierarchy and countryside, and the very substantial over-subscribing of housing identified in large part due to existing committed developments, the proposed allocations will encourage a dispersed pattern of settlement and place undue pressure on the countryside from a landscape, environmental and infrastructure perspective.

The disconnect between the strategy and the figures in Appendix 1 is most stark in relation to the HGI. The HGI for Mid Ulster is identified as 11,000 houses pro-rata over the plan period to 2030. However, when the actual capacity of settlements and equitable split of the HGI as identified in Appendix 1 is tallied with the 40% housing in the countryside it results in a total of 19,074 dwellings. This is over 170% of the HGI.

This creates fundamental tensions between the strategy and the proposed growth/allocation that are not grappled with in the draft Plan Strategy. This substantial over-allocation would not be sustainable as previously articulated as it provides such a generous spread of housing across the settlement hierarchy there is no mechanism to direct growth to the main towns.

Whilst SPF6 states that the countryside will not be subject to an allocation of the District's HGI, this is not the case in reality. Any dwelling constructed within the District boundaries during the Plan period counts towards housing growth, irrespective of how it is characterised. If 4,300 dwellings are built in the countryside during the plan period, this is 40% of the HGI allocation whether or not the Council chooses to call it such.

It is clear that there is a need for the Council to follow through on its strategy and make difficult decisions on where to reduce growth in order to genuinely seek to achieve sustainable patterns of development. In our view this must start with a significant reduction in housing allocated to the countryside, and that this must be delivered through the provision of more restrictive area-specific or district-wide rural housing policies.

Site Specifics

The site located at Glenone Road and Longlands Road currently extends approx. 2.25 Ha to the south-east of Clady with access gained off the Clady Road/Longlands.

The site exhibits the essential characteristics for residential development and offers a clear opportunity to 'round off' the SDL given the surrounding extant residential development.

We note the Council's preferred option is to include additional land within the SDL of Clady (Mid-Ulster Draft Plan Strategy, Appendix 1 p255).

Summary

We would respectfully request that our client's lands at Glenone Road and Longlands Road, Clady are zoned for residential development and included within the SDL in the emerging Local Development Plan for the strategic and site-specific reasons outlined above.

We believe there is a compelling case for the lands to be zoned to assist the Council in increasing the amount of housing delivered within Clady.

I trust the above is helpful to the Council in progressing the draft Plan Strategy and look forward to further input as appropriate as the Plan progresses.

Yours Sincerely,

Conor Cochrane

Preferred Options Paper Representation Form

Ref: _____

Date Received: _____

(For official use only)

This form can be used to submit your representation to the Preferred Options Paper. Representations can also be made in writing or via email to the address detailed at the end of this form.

SECTION A

1. Personal Details 2. Agent Details

Title	JFM Construction Ltd.	Clyde Shanks
First Name	C/O Agent	Matthew
Last Name	-	Doak
Job Title (where relevant)	-	Planner
Organisation (where relevant)	-	Clyde Shanks
Address Line 1	-	5 Oxford Street
Line 2	-	Belfast
Line 3	-	-
Line 4	-	-
Postcode	-	BT1 3LA
Telephone Number	-	[REDACTED]
Email Address	-	[REDACTED]

SECTION B

Your comments should be set out in full. This will help the Council understand the issues you raise to inform the preparation of the Local Development Plan.

2. To which part of the POP does your representation relate?
- (i) Page Number (s) – 20 to 24 and 140
 - (ii) Subject (s) – Housing Growth
 - (iii) Policy Ref (s) – see ‘Appendix 2’ on page 140
 - (iv) Map Name (s) – N/A

A. Introduction

This representation is the made on behalf of our client JFM Construction Ltd. who own land located approximately east of No. 29 Glenone Road and south of No. 9 Longlands Road, Clady of 2.2 hectares.

B. Purpose

Include the lands within the SDL of Clady and zone for residential use.

Please read this site specific representation along with Clyde Shanks strategic representation regarding the preferred housing growth option.

C. Settlement Matters

The landowner acknowledges that this first stage of the LDP relates to 'strategic' issues but that MU Council has welcomed site specific representations now. They further acknowledge that the Council have a stated preferred option for zoning housing land, option 1, which promotes a 'equitable split' between settlements to ensure that towns provide at least 27% of new housing while the rural area should not exceed a maximum of 40% of the dwellings. The conclusion of this preferred option is that no additional land is needed in the hubs given extant commitments/zonings exceed the suggested allocation deriving from the Housing Growth Indicators (2012) prepared by Dfl.

The PoP has identified the village of Clady to be an area of need for additional housing land and has allocated 27 houses to be zoned within the SDL.

D. Site Specific Matters

Clear opportunity to 'round off' the SDL given the surrounding extant residential development. The site has the ability to utilise access at Longlands.

See attached environmental matrix setting out site context/characteristics – Annex 1. In terms of protective designations (built heritage and flood risk) see Annex 2 for exhibits
