

Response to queries raised by the Department for Infrastructure

August 2023

1.0. Introduction

1.1. The Mid Ulster Local Development Plan 2030 — Draft Plan Strategy (February 2019) ('the draft Plan Strategy') was submitted to the Department for Infrastructure for independent examination under section 10 of the Planning Act (Northern Ireland) 2011 ('the 2011 Act') on 28 May 2021. On 23 December 2021, the Department for Infrastructure ('Dfi') wrote to the Council seeking clarification on a number of points. The letter enclosed four appendices, each of which set out a number of questions (**Annex 1**).

- (1) Appendix 1 — Clarification Questions — Housing Section
- (2) Appendix 2 — Clarification Questions — Economic Development / Additional in the Countryside
- (3) Appendix 3 — Clarification Questions — Residential Development in the Countryside
- (4) Appendix 4 — Clarification Questions — Legal / Procedural Compliance

1.2. The Council responded to Dfi on 4 February 2022 (**Annex 2**). Dfi wrote to the Council on 17 June 2022 highlighting a number of outstanding concerns and raising a new concern about the legality of some of the policies in the draft plan strategy in the light of the judgment of the Court of Justice of the European Union in cases C-197/11 and C-203/11 (**Annex 3**).

1.3. This paper provides a comprehensive response to the matters raised by Dfi in its 23 December 2021 and 17 June 2022 letters. In so far as there is any conflict between what is said in this response and what was said by the Council in its earlier 4 February 2022 response, this response should be taken as superseding that response. The Council intends to publish this paper on its website and envisages that it will form part of the material to be examined at the forthcoming independent examination.

1.4. The structure of this paper is as follows.

- (1.0) Introduction
- (2.0) Response to Appendix 1 questions
- (3.0) Response to Appendix 2 questions
- (4.0) Response to Appendix 3 questions
- (5.0) Response to Appendix 4 questions
- (6.0) Response to concerns raised about the judgment of the Court of Justice of the European Union in cases C-197/11 and C-203/11.

2.0. Response to Appendix 1 questions

Question

Updated HGIs were published by the Department in Sep 2019. Based upon more recent 2016-based household projects and other updated data they cover the time period 2016 – 2030. The update indicates 10,300 units for Mid Ulster District Council (MUDC) however the Council has retained the existing draft Plan Strategy housing figure of 11,000. MUDC303, 'Urban Capacity Study', appears to the Department to be the main evidence paper considering the revised HGI. It concludes that the figure of 11,000 (derived from extrapolating the previous HGI of 9,500 for the period 2012 – 2025 remains sound because it is 'not a significant reduction' on the Draft Plan Strategy housing figure.

Q1– Can the Council direct DfI to any submitted evidence clarifying why, despite being based on the now superseded 2012-based HGI, the draft housing requirement of 11,000 represents an equally robust approach to one based upon the more recently prepared 2016-based HGI?

Response

2.1. Paragraph 3.15 of the draft plan strategy, bulletpoint four says:

“To provide for 11,000 new homes by 2030 in a range of housing capable of meeting the needs of families, the elderly and disabled, and single people, at locations accessible to community services, leisure and recreational facilities, for those people with and without a car”

2.2. It may be useful to briefly explain how the 11,000-figure contained in the draft plan strategy was arrived at. [MUDC 209](#) was published at a time when the only Housing Growth Indicators ('HGIs') were those in the Regional Development Strategy ('RDS'). This paper anticipated a likely reduction in the HGI in the then forthcoming update. The [Addendum](#) to this paper, published in June 2016, took into account the most up to date HGIs available at the time, namely the 2012-based HGIs. The table below shows the difference between the HGIs contained in the RDS and the 2012-based HGIs over the plan period.

RDS HGIs	2012-based HGIs	% change
11,700	10,950	- 6%

2.3. The 11,000 figure was a rounding off upwards of the 10,950 HGI figure. Taking into account all of the evidence available to the Council at that time, it was considered to be the most appropriate figure for inclusion in the draft plan

strategy. It would ensure that sufficient houses came forward in the settlements over the plan period, in line with wider regional policy and local plan objectives.

- 2.4. At the time of publication the [Addendum](#) acknowledged that a further HGI was likely to be published in 2018. As the Council observed at that time, *“this timeframe will coincide with the production of the LDP and may conflict with this process”*. The Council was thus mindful that a revised HGI was likely to be published, but was concerned that this would conflict with the proposed timetable for the emerging draft plan strategy. This was a concern shared by several other councils in Northern Ireland who were at similar stages of the plan process at that time.
- 2.5. Revised HGIs, 2016-based, were published on 26 September 2019. A report was presented to the Planning Committee on 30 October 2019 to discuss the implications of the revised HGIs. In that [report](#), members were apprised of the changes in the HGIs, that are summarised in the table below.

2012-based HGIs	2016-based HGIs	% change
10,950	10,300	- 6%

- 2.6. Officers advised members that in accordance with correspondence sent by the Chief Planner, that HGIs were to be used as guidance, and considered alongside all other relevant evidence. They were not to be viewed as a cap on housing development or a target to be achieved. They formed one part of the overall evidence to be considered in setting the housing strategy. Reflecting on the revised HGIs in light of all of the evidence available to them, the judgment of professional planning officers, ultimately supported by elected members, was that the revised HGIs did not justify any modification to the housing strategy. As it was put, *“no action is required in relation to the strategic approach to housing provision as a result of the publication of the revised HGIs”* (Paragraph 4.3).
- 2.7. Ultimately, as a matter of expert planning judgement officers were sceptical about the merit in modifying the housing strategy by reducing it by 700 houses. Over the course of two HGI updates, 12% less growth was predicted in Mid Ulster. Officers were mindful that the HGIs are based on past trends continuing into the future. It was considered that a further 6% reduction of the HGI in addition to the 6% already introduced by the 2012-based HGIs was not necessarily justified in predicting future growth or consistent with local aspirations. Having regard principally to completion rates, existing levels of commitments, policy aspirations, and representations received during the public consultation on the draft plan strategy, officers adjudged that no change was justified. Even if the use of the 2012-HGI resulted in a slight overprovision of housing land, this would only be less than 10% of the HGI, and was not felt

to be significant in sustainability terms. At an individual settlement level, reducing the HGI by 700 was likely to have a negligible impact.

2.8. It is prudent to look at two of these factors in greater detail.

(1) the HGIs; and

(2) completions.

2.9. Starting with the HGIs, in deciding to retain the 11,000 figure the Council paid particular regard to the advice of the Chief Planner in his 25 September 2019 letter. In that letter, the Chief Planner explained that the HGIs “do not forecast exactly what will happen in the future”, but are instead “policy neutral estimates based on recent trends [that] assume recent trends will continue into the future”. Councils were advised not to regard HGIs as “cap on housing or a target to be met”. They were instead to be regarded as a “starting point” to be considered along with “all relevant sources of evidence”. This is the approach which the Council took. Instead of uncritically accepting the revised HGI, the Council reflected on whether a predicted 6% dip in growth over the plan period was justified, and, in the exercise of its planning judgement, decided it was not.

2.10. An analysis of recent data from the Northern Ireland Statistics and Research Agency (‘NISRA’) shows that the scepticism which the Council had about the level of growth predicted as being necessary in the 2016-based HGIs was well placed.

2.11. The 2016-based HGIs were based in large part on household and population projections. Whilst the NISRA 2016-based household population projections for 2021 are slightly higher than the 2021 Census results, the household projections and average household size are lower. The 2016-based projections estimated there would be a household population of 150,656 and 52,504 households in Mid Ulster with an average household size of 2.87. The 2021 Census result confirmed that the household population was in fact 149,118 (-1,538) with 54,005 households (+1,501) and a lower average household size of 2.76 (-0.11).

Data	2016-based projections	2021 Census Result	Difference
Household population in Mid Ulster	150,656	149,118	-1,538
Households in Mid Ulster	52,504	54,005	+ 1,501

Average household size	2.87	2.76	- 0.11
------------------------	------	------	--------

2.12. An increase in the number of households and decrease in the average household size could lead to greater demand for houses than predicted.

2.13. In order to illustrate this further, several alternative scenarios can be tested. The 2016-based HGI paper outlines a household projection of 57,000 homes in Mid Ulster in 2030, which equates to a HGI figure of 10,300. Household projections can be calculated by dividing the total household population by the average household size. Given we cannot know with absolute certainty what the average household size will be in Mid Ulster in 2030, a range across four scenarios can be tested.

(1) Apply the 2021 census average household size to 2030 (assumes no further decline in average household size which we consider is unlikely).

(2) Apply the NISRA 2016-based projections rate of decline in household size between 2021 to 2030 from 2.87 to 2.80 (i.e. a rate of reduction of 0.07). This is applied to the lower baseline figure for 2021 (2.76) and gives a new average household size for 2030 of 2.69 (i.e. $2.76 - 0.07$).

(3) Apply a proven rate of decline in average household size from the 2011 Census (combining the former legacy council areas of Dungannon, Cookstown and Magherafelt (see page 37 of 2011 Census Results Bulletin)) to the 2021 Census for Mid Ulster which fell from 2.88 to 2.76. It reduced by 0.12 in 10 years. When continuing on this trajectory and reapplying this rate of decline between April 2021 and December 2030, a further fall of 0.117. This gives a new average household size for 2030 of 2.64 (i.e. $2.76 - 0.117$).

(4) Apply the Northern Ireland average household size of 2.44.

2.14. The difference in household population identified by the 2021 census is applied to the 2030 household population projections (i.e. -1,538). Revised household projections are subsequently calculated to give a projected number of households in 2030. These household projections are then translated into a HGI figure for the District using the HGI methodology. Full details of the working out are enclosed (**Annex 1A**).

2.15. The revised HGI after running each of the scenarios set out above is as follows.

Scenario	HGI output
(1)	10,718
(2)	12,209
(3)	13,323
(4)	18,234

2.16. The above shows that the HGIs are sensitive to small changes to household size. It has been shown up to 2021 that the HGI has underestimated the decline in household size in Mid Ulster. Applying any of the above three realistic scenarios, where household size continues to decline over the plan period, will only exacerbate the underestimation accumulated to date.

2.17. For the avoidance of any doubt, it is not unrealistic to assume that there will be further decline in household size moving forward. The NISRA 2016-based projections estimated slow decline in household size up to 2021 (from 2.88 in 2016 to 2.87 in 2021), falling more rapidly thereafter (from 2.87 in 2021 to 2.80 in 2030).

2.18. Whilst the Council acknowledges that there is always a degree of uncertainty in demographic trends of this type, the best evidence to date suggests that the 2016-based projections have underestimated the rate of decline in household size. The evidence presented above shows this is capable of having a material impact on the outcome HGI figure. Accordingly, working through the three realistic scenarios outlined above, further decline in household size over the plan period is likely to push the HGI figure up further. This shows that the scepticism which the Council had over the 2016-based HGI figure was sound.

2.19. Turning next to completions and commitments, the need to take account of these was expressly recognised by the Chief Planner in his letter. It is similarly recognised in the SPPS (Paragraph 6.139).

2.20. As of 1 April 2020, there are existing commitments (excluding expired permissions on unzoned land) for 8,837 housing units within the hubs and settlements.

2.21. Of these 8,837 commitments, 4,777 are in the three main hubs. A review of housing monitor sites in the three hubs and an estimation of the status of commitments is outlined in the table below.

	% of Total Commitments in Hubs			Total %
	Cookstown	Dungannon	Magherafelt	
Extant permission on white land	5%	17%	3%	25%
Extant permission on zoned land	16%	13%	14%	43%
Expired permission on zoned land	3%	12%	1%	16%
Zoned land with no permission	2%	5%	10%	17%

2.22. This demonstrates that extant permissions on zoned land form the majority of commitments with 43% across in Cookstown, Dungannon and Magherafelt. Around 16% of commitments were expired permissions on zoned land, while 17% of commitments were from housing zonings with no previous planning permission. It is estimated that 25% of the total commitments in the hubs were extant permissions on white land.

2.23. In addition, there have been 2,285 housing completions during the plan period 2015 to 2020, as set out in the table below.

	Number
Completions	2,285
Commitments	8,837

2.24. Overall, the total number of completions and commitments comes in at just over 11,000, which sits well with the 11,000 figure in the housing strategy.

2.25. Looking further at completions, the table below presents housing completions in hubs and settlements between 2015 and 2020. Whilst some fluctuation is present, it is evident that there is a steady upwards trend. This shows healthy growth which Mid Ulster would like to encourage over the plan period through a robust supply of housing land.

Year	15/16	16/17	17/18	18/19	19/20	Total	Average
Units	160	71	721	231	1102	2285	457

- 2.26. It is also important to acknowledge that completions during this period, particularly in the early stages are likely to have been negatively impacted by the 2008 recession, bearing in mind the 5-year implementation period associated with planning permissions. The steady upward trend would suggest recovery as we begin to move further from the 2008 recession and associated period thereafter.
- 2.27. Additionally, the Council observes that other local councils have been permitted to proceed to independent examination on the basis of the 2012-based HGI without any comparable objection from DfI prior to independent examination. Antrim and Newtownabbey in large part based its housing requirement figure on the 2012-based HGI and opted not to use the 2016-based HGI for the reasons explained in its 'Topic Paper 1: Housing Growth (March 2021)'. Similarly, Mid and East Antrim largely based its housing requirement figure on the 2012-based HGI; and in its 'Further Evidence Report — Housing (March 2021)', it took a similar view to this Council in observing that the 2016-based HGI, "*do[es] not represent a significant variation*" to the 2012-based HGI (even though the variation experienced by that council (-13%) was greater than the variation experienced by this council (-6%)).
- 2.28. Finally, what matters is whether the level of housing which the plan provides for is sound, not what HGI was used. Like other councils, Mid Ulster is content that the level of housing which the plan provides for is sound, taking into account all of the evidence available to it, including the 2012-based and 2016-based HGIs. The Council is concerned that DfI has unquestioningly placed too much weight on the latest HGI, without affording any weight to other evidence or accounting for the fact that, as the Chief Planner put it, the HGIs are only a starting point, and should not be viewed as a cap or target.

Question

Q2—Where in the submitted evidence has the Council considered what residual housing need remains as of the date of submission once completions from 2015 – 2020 are taken into account?

Response

2.29. Completions are subject to continuing change and are kept under review by the Council. An updated position on completions will be required at the local policies plan stage. The number of completions between 2015 and 2020 is set out in the table below for ease of reference.

	Number
Completions (settlements)	2,285
Completions (countryside) (excluding replacements)	712
Completions (total)	2,997
Completions (annual average)	459

Question

The Council's Housing Allocation paper (MUDC209 July 2015) provides allocations for the urban and rural area for 2015-2030. It is said to be based on the most recent household projections available at that time (provided by NISRA March 2015). The paper advises that the position would be revisited and the paper updated when HGIs are revised. (Paragraphs 1.1 & 1.2). There is a reference within the POP to a Housing Allocation position paper addendum dated 2016.

Q3–Can the Council direct Dfl to the 2016 'Housing Allocation' addendum referred to in the POP or any revisions or updates of the information presented in this Housing Allocation Paper?

Response

2.30. A copy of the [Addendum Position Paper — Housing Allocation Revised HGI Figures](#) was enclosed by the Council with its 4 February 2022 response. It was agreed by elected members on 27 September 2016. The [Revised Housing Growth Indicators and Implications](#) paper was agreed by members on 30 October 2019. It was also enclosed by the Council with its 4 February 2022 response.

2.31. In its 17 June 2022 response, Dfl did not raise any further concerns in respect of this question. Accordingly, it is assumed that Dfl requires no further clarification on this matter.

Question

The Council proposes an allowance equivalent to 40% of the 'Council's HGI' to account for development that will take place under countryside policies. This is said by the Council to reflect the existing proportion of households in the countryside of the district which is presently 41% (MUDC237). The Council's proposal is that applications will be monitored and a plan review initiated when approvals reach a level equivalent to 40% of the HGI. In the draft Plan Strategy, the allowance to the countryside is therefore in addition to the planned housing allocation to settlements.

The Department would again highlight the RDS direction (page 43) which states that the HGI figure is for the whole council area.

The Department would also draw attention to the Council's own statement at paragraph 6.16 of its 2014 Housing Paper (MUDC202) that "Within the HGI figure (the Department's emphasis) an allowance will also have to be made for dwellings in the Countryside". It therefore appears that the Council previously accepted that the housing need indicated by the HGI related to the whole district, including the countryside, and not just part of it.

Q4– It would assist the Department's consideration if the Council can refer to the submitted evidence explaining the change in approach between the 2014 Housing Paper and the Draft Plan Strategy with regard to the 40% allowance to the countryside within the context of the HGI figure? An explanation as to why the allowance to the countryside changed from being within the HGI to being outside it?

Response

2.32. The draft plan strategy is clear that the countryside will not be subject to an allocation of the HGI. This is set out explicitly at paragraph 4.34. Instead, the policy approach is to direct growth towards the settlements, in particular the hubs, by ensuring that there is an adequate supply of housing land within the settlements. That is achieved by allocating the HGI across the settlements only as opposed to across the settlements and the countryside. This also ensures that regional and local policy objectives in respect of the countryside are able to be achieved. The policy approach for the countryside is to monitor the level of growth in the countryside to ensure that approvals in the countryside do not exceed the equivalent of 40% of the HGI. The 40% is not a target. The 40% is simply the level at which a policy review would be triggered on grounds of there being a risk of unsustainable levels of growth in the countryside.

2.33. DfI in its question is referring to comments made in documents produced early in the plan preparation process. The plan has evolved during that process in response to public consultation and sustainability appraisal. There is nothing unusual about a plan evolving through that process. The option carried through to the Preferred Options Paper as the recommended option was 'Option 1 – Equitable Split', which saw the countryside allocated 40% of the HGI ([MUDC 115](#)) (Page 23 to 24). However, in the Preferred Options Paper Public Consultation Report, a detailed analysis was undertaken of the various responses, which pushed and pulled in different directions ([MUDC 116](#)) (Pages 16 to 21). DfI in particular wanted to see a greater proportion of the HGI going to the hubs, but this was proposed to be at the expense of the countryside, which was not viewed as justified in a rural district like Mid Ulster. The Council had to grapple with the fact that there was a desire, backed up by

regional policy, to increase the level of housing land available in the hubs on the one hand, whilst on the other hand there was a need to sustain rural communities in Mid Ulster. As set out in that report, *“following further consideration of consultee advice and in undertaking the SA/SEA [the Council] review[ed] [its] approach to [its] growth strategy and spatial planning framework”*, introducing a new option, Option 4, which did not include an allocation to the countryside. This is set out and explained in the Sustainability Appraisal ([MUDC 102](#)) (Pages 63 to 65). As set out at paragraph 5.11 in particular, *“following publication of the POP an additional 4th option has been proposed”*.

- 2.34. The justification for selecting Option 4 as the preferred option for the draft plan strategy was set out in [MUDC 102](#) (Paragraphs 5.12 to 5.17). Detailed rebuttal of concerns raised, including those raised by Dfl in this question, can be found in the Public Consultation Report ([MUDC 114](#)) (Pages 084 to 091).
- 2.35. This was again a balanced judgment taken by the Council in light of all of the available evidence. The Council is well aware of the levels of growth which the draft plan strategy provides for. It has carefully appraised the implications of this growth in its sustainability appraisal. It has reflected carefully on the competing views of stakeholders, including Dfl. In taking the approach that it has, the Council has attempted to reconcile the tension inherent in seeking to grow large urban settlements without doing so at the expense of valued rural communities. It believes that the approach it has taken is sustainable and tailored to the circumstances of this District.
- 2.36. Councils are afforded a significant degree of latitude within the confines of the soundness test to decide how to use the HGI in light of their own local circumstances. This was reflected in the Planning Appeals Commission report into the Fermanagh and Omagh draft Plan Strategy. Fermanagh and Omagh opted not to count completions that pre-dated the current policy context towards the overall HGI allocation to the countryside. Dfl disagreed with this, however the Commission observed that this was *“a matter for the Council”*, and it has demonstrated that its decision was informed by all of the relevant evidence. Similarly, whilst Dfl may disagree with the approach taken by this Council, it is clear that the approach is carefully thought through, sitting comfortably within the range of reasonable policy choices open to it.

Question

Q5– The Council acknowledges the relevance of implementation rates elsewhere in the submitted evidence and indicate that the rate is between 90-95%. As approvals do not equate to completed dwellings can the Council advise why these are

considered to be a robust indicator of whether the 40% 'cap' is reached and a review initiated?

Response

2.37. It is assumed that in this question Dfl is referring to paragraph 4.34 of the draft plan strategy which explains that for review purposes, *"if the number of houses being approved in the countryside exceed 40% of the Districts HGI this will trigger the need to change policy at the Plan Review"* (underlining added).

2.38. There are two reasons why monitoring approvals is more appropriate in the present circumstances than monitoring completions for the purposes of this policy.

(1) It sounds the warning bell sooner. Approvals come before completions. Completions typically lag behind approvals. The Council wants closely to monitor the level of development in the countryside and react quickly if there is a need to review the plan strategy. By monitoring approvals, the Council will have a solid understanding of the pipeline of supply moving forward. It will be able to estimate through completion rates how many houses are likely to be built in the years ahead. If completions were used, there is a risk that by the time the 40% figure is breached, a substantial pipeline of committed approvals would already be in place, with no realistic way to control those. Monitoring approvals allows for earlier and more effective intervention.

(2) Policy is one thing that the Council has control over. It has control over the setting of policy and its application. It does not have any effective control over completions. There may be a wide range of reasons why completion rates fluctuate from time to time. A high rate of completions in one year is not necessarily emblematic of a problem with planning policy, whereas a high rate of approvals could be. It makes much more sense for a plan to monitor that which it can control and is responsible for than for it to monitor that which it cannot fully control and is not responsible for.

Question

Q6– Can the Council highlight where in the submitted evidence explanation is provided of how the Council intends to monitor and implement the 40% allowance in practice and how this may feature in any plan review?

Response

2.39. Monitoring arrangements are set out in the draft plan strategy at pages 249 to 252. A specific outcome is included to ensure that *“sustainable opportunities will have been provided for homes in the countryside to meet the needs of the rural population at a level of not more than 40% of the households in the District”* (Page 250). This will be monitored by looking at the *“number of housing permissions in the countryside”* and the *“pipeline for further housing development”* (Page 250). The Council commits to reporting on these matter in its annual monitoring report (Regulation 25(2) Planning (Local Development Plan) Regulations (Northern Ireland) 2015 (‘the 2015 Regulations’)).

2.40. As for plan review, if the 40% figure is exceeded then the Council will have to carefully to examine the reasons for this and consider whether any remedial action is necessary. This could involve modifying the plan strategy (section 14(1)(a) 2011 Act).

Question

Paragraph 5.5 of the later Policy Review ‘Sustainable Development in the Countryside’ (MUDC228) indicates that ‘there is a requirement’ for 4380 rural houses over the plan period (based on 40% of 10,950). The paragraph draws upon approval data for only the period 2012 – 2014 which shows that existing rural policy permits 220 dwellings per year over this period. The Council apply a 90% ‘implementation rate’ and estimate this would permit 3,300 ‘rural dwellings. The Council conclude that, taking account of the ‘requirement’ of 4380, there is therefore scope for 1000 additional ‘rural dwellings’ over the plan period. The Council state that while these figures are indicative ‘they provide justification for relaxation of the rural policy in the new LDP’.

Also noted is page 225 of the consultation report (MUDC 114) which contains more recent data on approvals indicating an average approval rate for 2016 – 2019 of 259 per annum. If applied over the plan period the Council state this would result in 3,885 rural dwellings, 585 more than the amount previously estimated by the council in the rural policy review paper (MUDC228) 1. As a result, the scope for 1000 additional ‘rural’ dwellings previously identified by the Council is reduced by more than half to 485. It is therefore clear that the number of approvals varies from year to year in response to a range of factors, not just policy.

Q7– From the above-mentioned figures it appears that the scope to further increase countryside approvals in order to achieve the Council’s ambition of 40% of future housing growth is substantially less than the 1000 previously estimated by the Council. In view of this, has the Council provided evidence of why the proposed

countryside policy relaxations remain an appropriate response to the gathered evidence?

Response

2.41. There are two points which need to be clarified at the outset.

(1) It is wrong to say that the Council has an *“ambition of 40% of future housing growth”* in the countryside. Nothing in the draft plan strategy says this. SPF6 does not set a 40% growth ambition; it says simply that the aim is to *“accommodate development within the countryside that supports the vitality and viability of rural communities without compromising the landscape or environmental quality and whilst safeguarding our natural and built heritage”* (Draft Plan Strategy) (Page 41). The policy approach to housing in the countryside is an outworking of this principle. It is therefore wrong to read paragraph 4.34 of the draft plan strategy as setting a target; in fact, to the contrary, the 40% figure is a number which, if reached and exceeded, would trigger a plan review.

(2) The premise of this question appears to be that the countryside policy relaxations are principally justified by the Council on the basis of a perceived ability to accommodate additional growth in light of historic approval rates. If so, that would be wrong. Whilst in the documents referred to by Dfl in the question the Council considered approvals and completions when deciding what level, if any, of countryside relaxation would be sustainable, that was not the sole or determining factor in introducing the relaxations in question. In response to questions contained in Appendix 3, the Council has explained the rationale for the relaxations to the countryside policy below (see paragraphs 4.13 to 4.29).

2.42. At this juncture it may also be useful to provide an update on countryside yield. The table below sets out countryside approvals between 2015 and 2020 (including replacements).

Year	15/16	16/17	17/18	18/19	19/20	Total	Average
Units	184	239	218	275	255	1,171	234

2.43. A review of full and reserved matters housing permissions granted in the countryside between 2015 and 2020 was undertaken. Results are enclosed (**Annex 1B**). Further analysis of the countryside housing granted during the period 2015 to 2016 and 2016 to 2017 was completed and their status established as of 1 April 2021 and 1 April 2022 (i.e. the latest five-year expiry of the permission). This provides an indication of new housing in

the countryside that has been implemented. It produces a verifiable implementation rate of 86%.

	2015 - 2016		2016 - 2017	
Total number of housing units approved (Including replacements)	184		239	
STATUS	Number of housing units	Total Number Implemented	Number of housing units	Total Number Implemented
Built	132	168	161	193
In Progress	36		32	
Not started	16	-	46	-
% Implementation rate	168/184 = 91%		193/239 = 81%	
Average Implementation Rate	86%			

2.44. If the average annual approval rate is extrapolated over the plan period, the total yield from countryside housing based on existing policy provisions is 3,510. Applying the 86% implementation rate, this leads to 3,018 implementations. In response to questions in Appendix 3, set out below at paragraph 4.28. the average annual approval rate based on the new opportunities is 43, which translates to 37 implementations using the 86% rate.

2.45. Accordingly, the total yield is as follows.

(A)	Total average annual yield from existing development opportunities	234	
(B)	Total estimated average annual completions and commencements from existing development opportunities (applying 86% rate)	201	(A) *0.86
(C)	Total average annual yield from additional development opportunities	43	
(D)	Total estimated average annual completions and commencements from additional development opportunities (applying an 86% rate)	37	(C) * 0.86
(E)	Total estimated overall approvals combined	3,768	(A * 15) + (C* 6)
(F)	Total estimated overall completions and commencements combined	3,237	(B *15) + (D *6)

2.46. It is worth pointing out that the total yield excluding replacements is estimated as 2,367. This is important since not all replacement dwellings will result in a new dwelling. Both figures for housing in the countryside, (including and excluding replacements) sit comfortably below 40% of the HGI.

Question

Q8– The evidence shows that existing countryside policies in PPS21 and the SPPS provide flexibility for approval rates to increase over time without the need for a relaxation of policies, could the Council direct DfI to the justification for the further relaxations proposed?

Response

2.47. It has already been shown above that the level of additionality introduced by the new opportunities in CT2 will make only a very small contribution to the overall countryside housing yield. This is dealt with in further detail below in response to questions in Appendix 3, at paragraph 4.28. The Council would again repeat that the justification for the policy relaxations is not justified solely or principally on the basis of a perceived ability to accommodate additional growth in light of historic approval rates. In response to questions contained in Appendix 3, the Council has explained the rationale for the relaxations to the countryside policy below (see paragraphs 4.13 to 4.29).

2.48. Additionally, whilst the Council acknowledges a degree of fluctuation in countryside approvals over time, it does not believe that this can necessarily be chalked down to *“policies in PPS21 and the SPPS provid[ing] flexibility”*. As DfI itself earlier observes, *“the number of approvals varies from year to year in response to a range of factors, not just policy”*. It does not follow from the fact that there has been some fluctuation in approval rates under existing policy, that existing policy is therefore sufficiently flexible.

Question

Q9– As the number of countryside approvals can vary year-on-year, can the Council advise why its original estimate of a ‘requirement’ for 1000 additional dwellings was based upon only 2 years of approval data?

Response

2.49. In light of the passage of time, a further analysis of countryside approvals has been undertaken above. This relies on more than two years of approval data.

Question

Q10– Did the Council attempt to obtain information in relation to the number of single and replacement dwelling completions in the countryside of the district? If this is provided in the submitted evidence can the Council direct the Department to this?

Response

2.50. Evidence on rural completions, including estimated completion rates, was contained in [MUDC 202](#). Updated data has been provided above and is enclosed (**Annex 1B**).

Question

The Council state that at present 27% of their district's households are located within the three main towns (identified as Hubs/Local Hubs in the RDS). The Council propose to focus growth in these settlements by providing opportunities in the Local Policies Plan for 'up to 60%' of the HGI to be accommodated there. The minimum threshold beneath which the Council will act to release more land is 30%.

It is unclear what has informed the upper ambition of 'up to 60%'. It appears it may have been intended to reflect the regional RDS target of 60% of new housing to be located on appropriate brownfield sites within the urban footprint of settlements greater than 5000 population, although this relates to brownfield and includes more than just Hub/Local Hub settlements (MUDC102SA). It may also have been informed by the Council's evidence that unimplemented approvals and zonings within the main towns are sufficient to achieve 54% of the housing need of 11,000 identified by the plan (MUDC116 POP Consultation Report).

The Council's POP originally identified Option 1 'equitable split' as the preferred option, indicating 40% of the HGI to the rural area, 33% to settlements and 27% to the main towns. The POP consultation report also indicates a recommendation to retain the preferred 'equitable split' approach to housing allocation. The SA report (MUDC102) makes reference to a 4th option 'based on the RDS 60% target but without a specific allocation to the countryside' however this is the first point in the plan preparation process where such an option is introduced and selected.

The council state that the Housing Local Indicators (HLI) are not a table of allocations but instead an 'indicator of growth to ensure there is adequate land in each settlement to meet targets set by the RDS'.

The Department also notes the Council approach in the HLI of identifying a range of growth scenarios for each of the main towns of between 30 – 60% of the housing requirement of 11,000. The indicated housing growth is therefore between a range

3,285 and 6589 units which is a difference of 3284 dwellings or approximately a third of the overall housing allocation A further 33% of the allocation to the remaining settlements of the district.

Taking account of the fact that the allowance to the Countryside is entirely outside the HGI (equivalent to 40% of that indicator) there appears to be 7% of the HLI to settlements that is unaccounted for.

It appears that the HLI is informed solely by the proportion of the districts population that currently reside within a given settlement. In their consultation report document (MUDC114) the Council however indicate that the strategic settlement evaluation has identified the services contained within settlements and has informed the approach to the allocation of housing.

In relation to the local towns of Maghera and Coalisland the Consultation Report (MUDC114, April 2021 page 053) indicates these settlements 'will end up accommodating more growth than their percentage share'. The Council state this will be a matter for the Local Policies Plan. Council have not indicated how much development over and above the indicated allocation they expect these settlements to accommodate.

Q11– Can Council clarify from within the submitted evidence the basis for identifying a range of housing growth between 30% - 60% of the HGI in respect of the main Hub and Local Hub settlements of Cookstown, Dungannon and Magherafelt?

Response

2.51. The evolution of the evidence base over time has already been set out above and is not repeated here. DfI is referred back to the answer given to question 4 (see paragraphs 2.32 to 2.36). The justification for adopting the approach taken is set out in the underlying evidence base referred to in that answer.

2.52. In broad terms, the Council wished to ensure that its spatial growth strategy accorded with wider regional policy objectives, in particular SFG12 of the RDS which seeks to "grow the population in the Hubs". This is reflected in SPF2 of the draft plan strategy, which seeks to "focus growth within the three main towns/hubs of Cookstown, Dungannon and Magherafelt". One of the objectives of the draft plan strategy is to "provide for 11,000 new homes by 2030 [...] at locations accessible to community services, leisure and recreational facilities, for those people with and without a car".

2.53. The Council was aware that the existing population levels in the Hubs was relatively low. The draft plan strategy records that less than 30% of households are currently located in the Hubs (paragraph 4.16). The Council recognised

that if wider regional and local policy objectives in respect of growing the Hubs was to be achieved, housing land capable of attracting households to the Hubs would need to be provided, at a suitable level. Council was mindful from the comments received from the Preferred Options Paper consultation, including from DfI, that the previous preferred option of allocating 27% of the HGI to the Hubs was unlikely to achieve the necessary growth in the Hubs.

2.54. The selection of 30% as the lower range of growth for the Hubs was justified on the basis that it broadly reflects the existing level of households located in the Hubs. If growth was to occur below the existing level, then instead of contributing to growth in the Hubs the draft plan strategy would be contributing to a decline in the Hubs. This would plainly not be in line with wider regional or local policy objectives. 30% represents the minimum level of suitable growth in the Hubs. It represents a trigger for the potential release of land.

2.55. The selection of 60% as the upper range of growth for the Hubs took account of a range of factors. Council was first mindful of the wider regional and local policy objectives to grow the Hubs. This necessitated the selection of an upper allocation figure capable of accommodating growth. Council also took into account the evidence suggesting that unimplemented approvals and zonings within the main towns are sufficient to achieve 54% of the housing need of 11,000 identified by the plan ([MUDC 116](#)) (Page 19). The need to take account of existing commitments when making decisions about allocations is specifically recognised by the SPPS (Paragraph 6.139). Council was mindful, therefore, that as matters stand, the Hubs could accommodate up to 54% the HGI. The Council saw no good reason to revise that ambition downwards in light of wider regional and local policy objectives. The potential for an extra 6% on top allows for additional land to be zoned to encourage growth if necessary. And finally, the Council was mindful of the 60% target in the RDS. The Council was aware that the target is for *“60% of new housing to be located in appropriate ‘brownfield sites’ within the urban footprints of settlements greater than 5,000 population”* (underlining added). Whilst not all of the 60% will necessarily be on appropriate brownfield sites within the urban footprints, the 60% will nevertheless *“take the allocation in the hubs close to the 60% mark referenced in the RDS”* ([MUDC 116](#)) (Page 19).

2.56. For all of these reasons, the Council is content that the 30% – 60% growth band for the Hubs is sound. It will ensure that wider local and regional policy objectives are met.

Question

Q12– Can the Council direct DfI to where, in the submitted evidence, the reasoning for the apparent change of approach to distributing the housing requirement is set

out? (i.e. from the 'equitable split' favoured at POP stage to the approach eventually adopted in the draft Plan Strategy)

Response

2.57. This question overlaps significantly with question 4. Dfl is referred back to the answer given to that question (see paragraphs 2.32 to 2.36).

Question

Q13–Does the range of growth indicated to the hub settlements provide sufficient clarity and certainty on the amount of housing that will take place over the life time of the plan.

Response

2.58. The Council is of the view that it does. The range of growth is set out with clarity in Appendix 1 of the draft plan strategy (Page 235). As explained above, taking into account all of the evidence, the Council has set a strategy which is capable of accommodating up to 60% of the HGI in the Hubs. Whether that level of growth will in fact occur will of course depend on a wide range of factors, many of which are outside of the control of a planning authority. Suitable mechanisms are in place, however, to ensure that if growth is below 30%, then robust steps can be taken.

2.59. The detail of working out precisely what should be zoned and where in order to give effect to the spatial strategy is a matter for the local policies plan. However, the strategy provides a clear framework for decisions on zoning land to be made. The local policies plan will when it comes forward have to be consistent with the plan strategy and this can be tested during the independent examination of that document (section 9(5) 2011 Act).

2.60. Accordingly, as demonstrated above, any suggestion that banded growth rates are impermissible as a matter of principle, this is not accepted. There is no basis for that in law or policy. A sound and lawful strategy is capable of being promoted whilst relying on banded growth rates.

Question

Q14– In order to assist in the Department's assessment of the submission can MUDC provide clarification as regards the 7% of the Housing Local Indicator not accounted for in allocation to settlements?

Response

- 2.61. Appendix 1 of the draft plan strategy specifically allocates up to 93% of the housing allocation across the settlements. 7% of the housing allocation is not allocated to a specific settlement but is allocated to the settlements more generally. The reason for this is principally to introduce a degree of flexibility in recognition of the fact that unexpected windfall opportunities will likely come forward across the settlements over the plan period. Instead of rigidly making an allowance for windfall in each individual settlement, the Council has chosen to make an overall allowance for windfall. The Urban Capacity Study suggests that up to 667 units (representing approximately 6% of the housing allocation) could come forward as windfall development in the towns ([MUDC 303](#)) (Paragraphs 7.1 – 7.3).
- 2.62. Whilst in accordance with the methodology set out in PPS 12, 'Housing in Settlements', Appendix 1, 'Urban Capacity Studies', the lower tier settlements were not included in the urban capacity study, the Council considers it to be highly likely that at least some unexpected opportunities will come forward in the lower tier settlements over the plan period, sufficient to take up the remaining 1% of the allocation (i.e. around 100 houses).
- 2.63. The Council considers that this approach is consistent with regional policy, in particular paragraph 6.139 (bullet 5) which allows for an allowance to be made for windfall. It warns that whatever methodology is used must take care to avoid underestimating windfall allowance. The Council considers that its approach of reserving 7% of the housing allocation for windfall and choosing not to allocate this to a specific settlement is cautious and will ensure that there is sufficient flexibility for residential units to come forward where there is demand for them over the plan period.

Question

Q15– Can the Council clarify the status of the Housing Local Indicators and further explain how existing commitments have been taken into account in the allocation of growth to settlements?

Response

- 2.64. The Housing Local Indicator (HLI) table is a point in time assessment of the allocation of housing across the settlements based on the spatial growth strategy set out in the draft plan strategy. It is intended to be utilised at the local policies plan to guide the allocation of housing across settlements. The reason why it is referred to as an indicator is because decisions about the precise quantum of housing in each settlement will be decided at the local

policies plan stage when decisions are being made about land zoning. The HLI table sets the strategic framework within which those decisions will be made.

2.65. DfI is reminded that a similar approach was taken by Fermanagh and Omagh in their adopted plan strategy which was found sound by the Planning Appeals Commission. At paragraph 6.26 of their plan strategy, it was observed that the table in question was an *“indicative strategic allocation for our settlements. At the LPP stage more detailed analysis of current growth rates and any short-term infrastructure capacity limitations [...] will be accounted for and adjustments may be made to the allocation”*. The same logic applies here.

2.66. It is to be recalled that Derry City and Strabane District Council has been permitted to proceed to independent examination with a plan strategy that takes a materially identical approach. The split of the housing allocation across each settlement tier is set out by Derry City and Strabane in Table 8 of their plan strategy. Table 8 is entitled, 'Indicative Allocation of Housing in DC&SDC by Settlement Tier 2017–32' (underlining added). The text which precedes that table at paragraph 16.8 refers to the table setting out *“the indicative allocation proposed for the LDP period”* (underlining added). The same logic again applies here.

Question

Q16– Can the Council clarify what evidence, other than a settlements existing share of the district’s population, informed the HLI to settlements. In particular, can clarification be provided on whether the Strategic Settlement Evaluation, including assessment of environmental capacity, has influenced these choices?

Response

2.67. The starting point was to grow the hubs in accordance with the spatial planning framework set out in Part 4 of the draft plan strategy, which is itself informed by regional policy, in particular the RDS. This approach suggests, at a basic level, a higher allocation of growth to be given to the higher tier settlements.

2.68. The focus in respect of the smaller settlements is upon consolidating their position. Consolidation was adjudged to mean strengthening. A policy approach which sought to accommodate a level of growth in proportion to the number of existing households will, in the judgement of Council, secure this.

2.69. The evidence for the setting of the overall settlement hierarchy, which clearly influenced the allocation to each settlement, is set out in [MUDC 201](#). Reference was made in that paper to the Infrastructure Wheel in the RDS

(Table 21). Additionally, information on each settlement, including relevant constraints, was gathered in the Strategic Settlement Evaluation ([MUDC 215](#)).

2.70. In Appendix 1 it can be seen that the Hubs received a bias of growth, consistent with their place in the settlement hierarchy. The level of growth apportioned to each Hub took into account existing population share and the evidence contained within the background papers referred to above.

2.71. In respect of the smaller settlements, a decision was taken to initially allocate each settlement a share of the HGI consistent with its current share of households. After doing so, the Council considered whether there was any good reason to depart from this, taking into account the evidence gathered in the background papers referred to above. Ultimately the Council decided that there was no good reason, and that the plan objectives were well served by allocating each small settlement a level of growth consistent with its share of the existing households.

Question

Q17– Can the Council explain the statements within the public consultation report that the LPP may facilitate a different level of growth from that indicated by the Housing Local Indicator in the draft PS? In light of the Planning Act 2011 which requires that the LPP is consistent with the PS (Section 9)

Response

2.72. The Council does not consider it to be useful to speculate on the specifics of section 9(5) of the 2011 Act at this stage as that obligation relates to the local policies plan and not the plan strategy. Whether or not section 9(5) of the 2011 Act is complied with will be a judgement to be reached as part of the independent examination into the local policies plan. At this stage, the Council would simply observe that, read as a whole and fairly, the draft plan strategy acknowledges that the housing growth indicator is indicative, thereby leaving scope for some changes at the local policies plan stage. Accordingly, no issue would arise under section 9(5) of the 2011 Act if, consistently with the language of the plan strategy, changes were made at the local policies plan stage. The Council would, however, stress that any changes are likely to be relatively minor, and will not conflict with the overall spatial growth strategy.

2.73. Dfl is referred back to the answer in response to question 13 (see paragraphs 2.58 to 2.60).

Question

The Council, in their consultation report on representations and counter-representations (MUDC14, p61; p65), state they are not allocating 30% of the HGI to these settlements but instead making provision to accommodate up to 60% of growth while ensuring that land supply does not fall below 30%. The Council also indicate in their consultation report that more land will be released should the supply fall below that necessary to accommodate 30% of the HGI.

In its consultation report on reps and counter-reps (MUDC114) the Council state that by providing opportunities for 60% of the districts HGI to be located in the three main towns there will “inevitably be a growth in their population over the plan period” (page 29).

The most recent housing monitor report for MUDC indicates that at 1 April 2020 there was a remaining potential of 1514 units in Cookstown, 2597 units in Dungannon and 1496 units in Magherafelt. This gives a total of 5607 units. Based on the average build rate for the last 5 years there would therefore appear to be approximately 29 years supply in Cookstown; 41 years in Dungannon and 18 years in Magherafelt. There is therefore approximately 29 years supply based on the current supply and average build rate across all 3 hubs.

The table below contains data extracted from the Council’s Housing Monitor evidence. It shows the number of completions in Hubs settlements over a 5 year period. The Council may wish to conduct its own assessment to confirm these figures.

	2015 - 2016	2016- 2017	2017 – 2018	2018 – 2019	2019 – 2020	Average
Cookstown	18	6	105	65	66	52
Dungannon	47	9	61	17	179	63
Magherafelt	13	14	231	32	125	83
Total	78	19	397	114	370	196

The Council’s minimum target of maintaining housing land availability sufficient to achieving 30% of the Council’s housing requirement means that over the lifetime of the plan, as a minimum, sufficient housing land should always be available in hubs to accommodate at least 3,300 units. According to the latest Housing Monitor at 1 April 2020 there was housing land sufficient to accommodate 5607 units. Therefore the additional capacity available over and above the 30% minimum suggested by the Council is 2307. Based upon the average completion rates within the hubs over the

last 5 years (see table above) it would therefore appear that there is approximately 12 years additional supply before the 30% threshold might be triggered (if current completions rates are sustained). This would most likely take the plan beyond its stated end date.

By extrapolating the average figure of 196 units per annum over the remaining 10 years of the plan the anticipated number of completions over the remaining period can be estimated at approximately 1960 units. This is less than the approximately 2,300 unit margin (April 2020) that currently exists over and above the 30% 'trigger' point. This also indicates that if current completion rates are sustained the 30% threshold appears unlikely, within this plan period, to trigger the need for a review and/or the release of additional land in the hubs. Furthermore, when existing completions in the years 2015 – 2020 are added to this projection the total number of dwellings that can be expected to be completed over the plan period is approximately 2940. Expressed as a percentage of 11,000 this is equivalent to approximately 27% which aligns with the existing proportion of households in hubs as a percentage of the total number across the district. The current evidence therefore appears to indicate that, based on current completion rates, the Council will likely not achieve the objective of strengthening the hubs by increasing the proportion of households located there.

Based upon current data it appears that the draft Plan Strategy is unlikely to deliver the minimum objectives in respect of the Hubs and will likely still result in a proportionally higher share of future growth being directed to the countryside of the district. This appears not to support of a strengthening of the Hubs in comparison to other parts of the district, including the countryside.

Q18– Completions in the main towns (based on recent completion rates) appear likely to be approximately equivalent to 27% of the planned housing requirement of 11,000. Therefore, are there any other measures, in addition to the possible release of more land, that's the Council considered to increase the % share of the district wide housing need accommodated in the hubs?

Response

2.74. As the figures presented by Dfl in the table above show, urban housing completions will be subject to fluctuation on an annual basis. It is not necessarily safe to assume that past trends will continue into the future. A wide range of factors, most of which are outside of the control of a planning authority, will influence the rate of completions in urban areas.

2.75. The Council as planning authority can only pull the levers which it has at its disposal to attempt to grow the Hubs. As explained above, one of the levers which the Council has pulled, through the draft plan strategy, is ensuring that

there is adequate land to accommodate at least 30% of the necessary growth in the Hubs and up to 60%. Any greater an allocation would be at the expense of the smaller settlements which would conflict with other plan objectives.

2.76. In respect of other measures, the plan strategy must be read as a whole. It seeks to make the hubs attractive places to live and work. This will be achieved through the provision of economic, leisure, recreation, retail and sustainable transport opportunities in the Hubs. Combined with an adequate supply of available housing land, the Council is confident that the draft plan strategy will deliver on the objective of growing the Hubs.

Question

Q19– Can the Council please explain the reason for the contrasting approach between Hubs and the Countryside where a ‘shortfall’ in approvals below 40% ‘cap’ of the HGI is presented as justifying numerous further policy relaxations there?

Response

2.77. It is apparent that this question is based on a misunderstanding of the position in respect of the countryside. It would be wrong to say that a shortfall in approvals below a 40% cap has justified the policy relaxations introduced in the countryside. In response to questions contained in Appendix 3, the Council has explained the rationale for the relaxations to the countryside policy below (see paragraphs 4.13 to 4.29).

2.78. The approach to be taken to the countryside and to the hubs is obviously different. The Council has explained above how it considers that the strategy supports growth in the Hubs, especially through the provision of adequate amounts of housing land capable of accommodating up to 60% of the HGI.

Question

Q20– Can Council direct DfI to submitted evidence that further explains how the approach to the allocation of growth to the three main towns is in line with RDS regional policy objective of growing the population of the Hubs within the council area?

Response

2.79. The question significantly overlaps with previous questions. DfI is referred back to the comments made above at paragraphs 2.51 to 2.56 and 2.74 to 2.78.

Question

Q21– Can the Council explain the phased approach to the release of housing zonings and how the high level of commitments outlined within the Draft Plan Strategy is consistent with the Councils approach?

Response

2.80. The existence of commitments is not inconsistent with the phased approach set out within the draft plan strategy; to the contrary, the phased approach of housing land is part of the way in which the Council proposes to sustainably manage supply over the plan period and into the future. The existence of a large number of commitments at present does not mean that moving forward the Council should not seek to sustainably manage supply. This is explained in the plan strategy itself in the accompanying text to HOU1, at paragraph 7.13 and 7.14 in particular (underlining added):

“7.13 Land has been zoned as either Phase 1 or phase 2 housing land in Cookstown, Dungannon and Magherafelt. Phase 1 housing land is available for development, while Phase 2 land is held in land bank to meet future need. We recognise the benefits of a phased approach in providing a vision for long term expansion of the towns, whilst avoiding over-provision of land at the current time. By zoning Phase 2 land, government bodies will be able to take this into account when planning infrastructure and service delivery.”

7.14. By avoiding over-provision it is possible to avoid urban sprawl and ensure development takes places in a more sequential manner with priority given to accessibility to services, public transport and to the town centres”.

2.81. Dfl is also directed to the remainder of the justificatory and amplificatory text supporting policy HOU 1 which explains further the justification for and operation of the phased approach to housing land. Additionally, the underlying evidence base sets out further justification for the approach taken, in particular in the Preferred Options Paper ([MUDC 115](#)) (Pages 24 and 33), the Sustainability Appraisal ([MUDC 102](#)) (Pages 436 to 441), and in the Public Consultation Report (MUDC 114) (Pages 48, 61, and 160).

2.82. As for how the level of commitments is consistent generally with the approach to the allocation of housing land, the impact which the level of commitments had on the overall spatial growth strategy is explained above at paragraphs 2.19 to 2.24. Dfl is referred to that answer.

Question

Q22– *The Council identify the need for housing land to be identified as Phase 1 and Phase 2 respectively, however did the Council consider the need for a strategic policy relating to both housing and employment land that would align the release of both in accordance with need/infrastructure availability?*

Response

2.83. The Council has responded below at paragraph 3.40 why a phased approach to the release of employment land is not justified. Dfl is referred to that answer.

2.84. As for the release of land in accordance with need and infrastructure availability, decisions around the phasing and release of land will take account of these factors. This is clear in the draft plan strategy itself in several places.

(1) Paragraph 4.16, under SPF 2, says that a phased approach to housing land will be taken. Paragraph 4.17 then goes on to say that in selecting land to be zoned for housing priority will be given to locations which, amongst other things, *“can avail of existing infrastructure such as water, waste and sewerage”*. This clearly envisages a need to assess infrastructure availability as part of the zoning of land.

(2) Paragraph 7.16 of the draft plan strategy, under HOU 1, sets out some of the key factors which will be taken into account when deciding whether to release Phase 2 land. This includes *“the latest Housing Growth Indicators, the allocations contained in our Growth Strategy, current housing land availability and the rate of house building”*. All of these are matters which go to need. The paragraph then goes on to explain that in determining which land should be released to Phase 1, account will be taken of, amongst other things, *“the availability of infrastructure”*.

2.85. Decisions around the identification of land into phases and the release of land over the plan period are matters which will be addressed at subsequent stages of the plan process and over the course of the lifetime of the plan. The plan strategy already acknowledges the importance of need and infrastructure capacity in making those decisions. Those are matters which the Council will take account of when making those decisions along with other relevant factors.

2.86. There is no need for any more specific reference to these matters in the draft plan strategy. A blanket approach which simply aligned the release of land solely with the availability of infrastructure would not be reasonably flexible which is a requirement of soundness test CE4. It would mean that decisions

about the future strategic growth of the district would be tied solely to infrastructure delivery which is not a sustainable way to plan growth.

3.0. Response to Appendix 2 questions

Question

Further opportunities for new economic development in the countryside despite significant quantity of undeveloped economic development land in main Settlements / Hubs.

The Council's own evidence indicates a significant amount of land zoned for economic development purposes within extant area plans remains undeveloped. The Council's latest information is contained in their 'Industrial Monitor October 2018' (MUDC302) which indicated that, of the land zoned for 'industry' in the Cookstown Area Plan 2010 some 71.5% remains undeveloped. Of the land zoned in the Dungannon and South Tyrone Area Plan 2010, 62% remains undeveloped. Finally of the land zoned in the Magherafelt Area Plan 2015 the vast majority, 94%, remains undeveloped.

MUDC have adopted a more permissive approach to new economic development in the countryside, in particular draft Policy ECON2 (Economic Development in the Countryside). This policy sets out an extensive list of opportunities (criteria a–j). Some of these are based on regional policy set out in the SPPS and PPS4 PED 3 – 6, however Council indicate in their Economic Development Policy Review Paper (MUDC219) that current policy does not reflect the local circumstances in Mid Ulster and greater flexibility (e.g. PED5 and 6) would allow proposals to be determined on their own merits. Council also indicate (MUDC219 paragraph 4.27) that in areas where there is a high concentration of existing rural industry, 'it could be argued' that rural character had already been altered or in some cases undermined. Council also state that regional policy does not recognise 'home grown industries and businesses' are an important aspect of employment and economic prosperity in the area.

Q1–RDS (RG1) and the regional strategic objectives and policy of the SPPS (para 6.66 and 6.88) support economic development of an appropriate nature and scale however the aim is to direct new economic development opportunities to the Hubs or higher performing town / city and to limit, for rural amenity and wider sustainability objectives, the level of new building for economic development purposes outside of settlements. Can the Council direct the Department to evidence within the submission which outlines how draft policy ECON2, is supportive of strategic guidance contained within the RDS and SPPS?

Response

3.1. The implied premise of the above analysis and question is that policy ECON2 conflicts with regional policy. That premise is not accepted. The Council has taken account of regional policy in accordance with its legal duty to do so under

section 8(5) of the 2011 Act. The draft plan strategy accords with the overall direction of regional policy in this area which is to direct economic development towards the hubs whilst still providing sustainable opportunities for economic development in the countryside. The draft plan strategy needs to be read as a whole. It is wrong to focus solely on ECON2 when considering whether the aims and objectives of regional policy are met in respect of focusing economic development in the higher tier settlements. When the draft plan strategy is read as a whole, it is clear that it accords with regional policy in this respect.

(1) SPF2 recognises the need to *“focus growth within the three main towns / hubs of Cookstown, Dungannon and Magherafelt and strengthen their roles as the main administrative, trade, employment, and residential centres within the District”* (underlining added). This is reinforced in paragraph 4.15 which explains that the role of these settlements *“is to be strengthened as economic hubs”*, which it says will be done by *“protecting existing economic zonings and providing economic zonings within them to ensure the creation of 8,500 new jobs over the plan period”* (underlining added).

(2) Paragraph 4.12 of the draft plan strategy explains that at least 170 hectares of economic development land will be distributed equitably across the three towns at a variety of locations suitable for a mixture of economic uses. The lower tier settlements do not receive any specific allocation (Appendix 1 of the draft plan strategy). The supply of adequate employment land within the main towns will support their growth.

(3) ECON1 directs economic development towards zoned land and land within the settlements. ECON3 protects against the loss of zoned land and existing economic development sites save in specified circumstances in order to ensure a healthy supply exists. ECON4 protects against potentially incompatible neighbouring developments. ECON2 provides a circumscribed set of sustainable opportunities for economic development in the countryside in order to sustain the rural economy.

3.2. ECON2 supports a number of higher tier regional policy objectives as well. Most notably, paragraph 6.66, bullet three of the SPSS supports development in the countryside that *“contributes to a sustainable rural economy”*. Paragraph 6.82, bullet three of the SPSS says that the planning system should *“sustain a vibrant rural community by supporting economic development of an appropriate nature and scale”*. SFG13 of the RDS affirms the need to *“sustain rural communities living in smaller settlements and the open countryside”*, and at paragraph 3.101, bullet four reference is made to the need to *“facilitate the development of rural industries, businesses and enterprises in appropriate locations”*. The ability of ECON2 to contribute to the achievement of these

objectives is set out explicitly in the accompanying justification and amplification text, at paragraph 12.15:

“The guiding principle of this policy is to facilitate proposals that are likely to protect the rural economy and support rural communities, while protecting or enhancing the rural character”.

- 3.3. ECON2 also supports the local plan objectives, especially the objective to *“recognise and accommodate entrepreneurship, innovation for large, medium, and small firms by attracting new firms and accommodating expanding businesses”* and the objective to *“recognise the importance of self-employment and home working, particularly in rural locations”*. This is all part of the objective to sustain rural communities in Mid Ulster. ECON2 also performed well in the sustainability appraisal against relevant objectives ([MUDC 102](#)).
- 3.4. The Council accepts that in some respects ECON2 goes beyond existing regional policy. However, it is not prohibited from doing so. Two points are worth noting in that respect.
 - (1) Local development plans are not required to replicate regional policy word for word. They are expected to reflect local circumstances. Provided that a council has taken account of regional policy in accordance with section 8(5) of the 2011 Act and has provided a sound justification for the policy choices which it has made, there is nothing to stop it from going beyond what regional policy allows at present. This lies at the very heart of the local development plan regime introduced under the 2011 Act.
 - (2) That principle is expressly recognised in regional policy. Notably, at paragraph 6.68, the SPPS places the onus on the council to bring forward a strategy for sustainable development in the countryside which is *“tailored to the specific circumstances of the plan area”*. Similarly, at paragraph 1.9 the need to bring forward *“operational policies tailored to local circumstances within new LDPs”* is recognised. The RDS also recognises that there *“are wide variations across Northern Ireland in terms of economic, social and environmental characteristics of rural areas”*, resulting in a *“need for local development to reflect these regional differences”* (RDS (Paragraph 3.100)).
- 3.5. ECON2 reflects the local circumstances of the Council area. Throughout the draft Plan Strategy and in the underlying evidence base the Council has explained that the overwhelmingly rural character of Mid Ulster justifies the approach taken in the draft plan strategy. The local circumstances in the district justify the approach to economic development in ECON2.

- (1) The rural nature of the district is recognised in Position Paper One – Population and Growth ([MUDC 201](#)). As recognised in that paper, *“the needs of those people living in the rural area cannot be forgotten and if those populations are to be sustained they will also require their share of housing and employment opportunities”*. The draft plan strategy itself picks up on this theme, noting that *“we are a very rural District with 72% [...] of the population living in a rural area”*. The draft plan strategy recognises that critical to the vision of maintaining Mid Ulster as a key industrial centre outside of Belfast with a strong engineering, agri-food and minerals base is *“ensuring our farms and other rural business remain strong and continue to attract investment”*. The draft plan strategy speaks of the *“recognition [...] given to the special characteristics of Mid Ulster by recognising the needs of [...] rural businesses”*.
- (2) The Economic Development Policy Review ([MUDC 219](#)) sets out the justification for the policy choices made in considerable detail. DfI is directed in particular to paragraphs 3.1 to 3.54 which explain why the policy approach adopted in ECON2 is justified.

- 3.6. This analysis has also been supported by a recent briefing prepared for the Council by Invest Northern Ireland in October 2021 (**Annex 2A**). It is of particular note that agricultural businesses in the district account for a much higher proportion of the overall business makeup than in Northern Ireland (the average in Northern Ireland is 23% whereas in Mid Ulster the figure is 35%). Mid Ulster also has a very high proportion of micro businesses (making up 92% of the business base). It has the fifth highest proportion of self-employed individuals in Northern Ireland. Mid Ulster also ranks second in Northern Ireland in respect of the percentage of adult population aged 18 – 64 years engaged in total early-stage entrepreneurial activity. All of this underscores the importance of planning policies which support small businesses and enterprises in Mid Ulster.
- 3.7. In its analysis, DfI refers to ECON2 as being *“more permissive”* than extant regional policy. The Council accepts that ECON2 is in some respects more permissive than extant regional policy. However, this is a deliberate policy decision which has a sound evidential basis. It is also important not to overstate the degree of divergence between ECON2 and existing regional policy opportunities. A close analysis of ECON2 shows that the majority of the opportunities it provides for are carried forward from extant regional policy, with only a few additional opportunities provided. The introductory text to ECON2 along with the justificatory text and the operation of other general policies in the plan will ensure that the development which comes forward under ECON2 is controlled in the interests of sustainable development. The Council considers that ECON2 strikes the right balance between the need to protect the

countryside from unsustainable development on the one hand and the need to sustain rural communities by providing opportunities for economic development in the countryside on the other hand. The justification for the policy changes introduced is set out in considerable detail in [MUDC 219](#) (Policy Review – Economic Development) (February 2016) and is not repeated here.

3.8. In order to assist in the consideration of this issue, the table below compares the opportunities provided under ECON2 with the opportunities provided under regional policy. Additional opportunities are shaded in blue.

ECON 2	Regional Policy	Comment
(a) Provision of small workshop accommodation of no more than 100 sq. metres floor space for self-employment, forming part of the existing curtilage of a dwelling which is inhabited by the operator of the workshop	No explicitly comparable opportunity under extant regional policy, however falls under and respects the approach in paragraph 6.87 of the SPPS	This provides a limited opportunity for small workshop accommodation to cluster with an existing dwelling inhabited by the operator of the workshop. The usual objections to rural economic development would not apply to this opportunity. The opportunity is limited by the fact that no more than 100 sq. metres of floor space will be allowed which will also have to be located within the curtilage of an existing dwelling occupied by the operator of the workshop. The justification for this policy is principally set out in MUDC219 at paragraphs 3.7 and 3.27 and in the draft plan strategy itself at paragraph 12.19.
(b) Development of a small gap site with an appropriate economic development proposal such as light industry	Opportunity already exists under paragraph 6.73 of the SPPS and CTY8 of PPS 21	No material change to existing regional policy. The general planning considerations which appear in CTY8 are covered by other more

	<p><u>CTY8</u>: <i>“In certain circumstances it may also be acceptable to consider the infilling of such a small gap site with an appropriate economic development proposal including light industry where this is of a scale in keeping with adjoining development, is of a high standard of design, would not impact adversely on the amenities of neighbouring residents and meets other planning and environmental requirements”.</i></p>	<p>general policies in the draft plan strategy.</p>
<p>(c) Development within Tullyvannon and Desertcreat Rural Industrial Policy Areas or a designated Rural Industrial Policy Area in the Local Policies Plan provided it accords with any uses and requirements identified in the Local Development Plan</p>	<p>No explicitly comparable opportunity, however considered to be a reflection of local circumstances justified by the evidence.</p>	<p>The justification for Rural Industrial Policy Areas (‘RIPAs’) can be found principally in <u>MUDC204</u>. Paragraphs 4.35 to 4.40 of the draft plan strategy contain additional justification for RIPAs.</p> <p>The purpose of a RIPA designation is to protect and consolidate existing strategic areas of rural industrial uses and contain them within set limits whereby large-scale expansion would not be permitted. The principle of RIPAs as well as the specific RIPAs proposed at Tullyvannon and Desertcreat scored well in the sustainability appraisal (<u>MUDC102</u>).</p>

		RIPAs are dealt with in further detail below in response to further questions.
<p>(d) Expansion within the existing curtilage of an established economic development use which is of an appropriate scale and nature</p>	<p>Opportunity already exists under paragraph 6.87 of the SPPS and PED3 of PPS 4.</p> <p><u>SPPS</u>: <i>“Appropriate redevelopment and expansion proposals for industrial and business purposes will normally offer the greatest scope for sustainable economic development in the countryside. Such proposals may occasionally involve the construction of new buildings, where they can be integrated in a satisfactory manner”.</i></p> <p><u>PED3</u>: <i>“Expansion of an Established Economic Development Use in the Countryside. The expansion of an established economic development use in the countryside will be permitted where the scale and nature of the proposal does not harm the rural character or appearance of the local area and there is no major increase in the site area of the enterprise”</i></p>	<p>No material change to existing regional policy. The general planning considerations relating for example to rural character are dealt with under other general planning policies in the draft plan strategy.</p>

<p>(e) Expansion outside of the existing curtilage of an economic development use where it has been demonstrated that relocation is not possible for operational or employment reasons and where the economic use makes a significant contribution to the local economy</p>	<p>Opportunity already exists under paragraph 6.87 of the SPPS and PED3 of PPS4.</p> <p><u>SPPS:</u> <i>“Appropriate redevelopment and expansion proposals for industrial and business purposes will normally offer the greatest scope for sustainable economic development in the countryside. Such proposals may occasionally involve the construction of new buildings, where they can be integrated in a satisfactory manner”</i></p> <p><u>PED3:</u> <i>“Proposals for expansion will normally be expected to be accommodated through the reuse or extension of existing buildings on site. Where it is demonstrated that this is not possible, new buildings may be approved provided they are in proportion to the existing building(s) and will integrate as part of the overall development. Any extension or new building should respect the scale, design and materials of the original building(s) on the site and any historic or architectural interest the</i></p>	<p>No material change to existing regional policy. The general planning considerations relating for example to design and the historic environment are dealt with under other general planning policies in the draft plan strategy. The policy reflects the view of the Council as to the circumstances when expansion outside of an existing curtilage should be permitted.</p>
---	---	--

	<p><i>original property may have.”</i></p>	
<p>(f) Redevelopment of an established economic development use or reuse of an existing redundant non-residential rural dwelling</p>	<p>Opportunity already exists under paragraph 6.87 of the SPPS, ED4 of PPS4, and CTY4 of PPS21.</p> <p><u>SPPS:</u> <i>“Appropriate redevelopment and expansion proposals for industrial and business purposes will normally offer the greatest scope for sustainable economic development in the countryside. Such proposals may occasionally involve the construction of new buildings, where they can be integrated in a satisfactory manner”</i></p> <p><u>PED4:</u> <i>“A proposal for the redevelopment of an established economic development use in the countryside for industrial or business purposes (or a sui generis employment use) will be permitted where it is demonstrated that all the following criteria can be met: (a) the scale and nature of the proposal does not harm the rural character or appearance of the local area and there is only a proportionate increase in the site area; (b) there would be environmental benefits as a result of the</i></p>	<p>Regional policy provides suitable opportunities for the redevelopment of an established economic development use or reuse of an existing redundant non-residential rural dwelling. These opportunities are spread across several policies. This development opportunity consolidates these opportunities into a single opportunity. General planning considerations are again dealt with in other policies in the draft plan strategy.</p>

redevelopment; (c) the redevelopment scheme deals comprehensively with the full extent of the existing site or in the case of partial redevelopment addresses the implications for the remainder of the site; and (d) the overall visual impact of replacement buildings is not significantly greater than that of the buildings to be replaced.”

CTY4: *“Planning permission will be granted to proposals for the sympathetic conversion with adaption, if necessary, of a suitable building for a variety of alternative uses, including use as a single dwelling, where this would secure its upkeep and retention. Such proposals will be required to be of a high design quality and to meet all of the following criteria: (a) the building is of permanent construction; (b) the reuse or conversion would maintain or enhance the form, character and architectural features, design and setting of the existing building and not have an adverse effect on the character or appearance of the*

	<p><i>locality; (c) any new extensions are sympathetic to the scale, massing and architectural style and finishes of the existing building; (d) the reuse or conversion would not unduly affect the amenities of nearby residents or adversely affect the continued agricultural use of adjoining land or buildings; (e) the nature and scale of any proposed non-residential use is appropriate to a countryside location; (f) all necessary services are available or can be provided without significant adverse impact on the environmental character of the locality; and (g) access to the public road will not prejudice road safety or significantly inconvenience the flow of traffic.”</i></p>	
<p>(g) A new building as part of a farm diversification scheme where a redundant farm building is not available or there is no suitable building available on the farm</p>	<p>Opportunity already exists under paragraph 6.73 of the SPPS and CTY 11 of PPS 21.</p> <p><u>SPPS:</u> <i>“Farm diversification: provision should be made for a farm diversification scheme where the farm business is currently active and established</i></p>	<p>Regional policy provides suitable opportunities in exceptional circumstances for a new building as part of a diversification proposal. This development opportunity carries this part of regional policy forward. General planning considerations are again dealt with in</p>

	<p><i>(for a minimum of 6 years) and, the proposal is to be run in conjunction with the agricultural operations of the farm. Proposals must involve the re-use or adaption of existing buildings, with new buildings only being acceptable in exceptional circumstances”.</i></p> <p><u>CTY11:</u> <i>“Planning permission will be granted for a farm or forestry diversification proposal where it has been demonstrated that it is to be run in conjunction with the agricultural operations on the farm. The following criteria will apply: (a) the farm or forestry business is currently active and established; (b) in terms of character and scale it is appropriate to its location; (c) it will not have an adverse impact on the natural or built heritage; and (d) it will not result in detrimental impact on the amenity of nearby residential dwellings including potential problems arising from noise, smell and pollution. Proposals will only be acceptable where they involve the re-use or adaption of existing farm buildings. Exceptionally,</i></p>	<p>other policies in the draft plan strategy.</p>
--	--	---

	<p><i>a new building may be permitted where there is no existing building available to accommodate the proposed use, either because they are essential for the maintenance of the existing farm enterprise, are clearly unsuitable for adaption and re-use or cannot be adapted to meeting the requirements of other statutory agencies. Where a new building is justified it should be satisfactorily integrated with an existing group of buildings”</i></p>	
<p>(h) Major industrial proposals where it is demonstrated that the development will make a significant contribution to the regional economy and where it is demonstrated that due to its size or site-specific requirements it needs a countryside location. Where there are no site-specific reasons, an edge of town location will be preferred.</p>	<p>Opportunity already exists under paragraph 6.88 of the SPPS and PED5 of PPS 4.</p> <p><u>SPPS</u>: <i>“A proposal for a major or regionally significant economic development, where a countryside location is necessary because of size or site specific requirements. Such proposals should be able to demonstrate a significant contribution to the regional economy and be otherwise acceptable, particularly in terms of their environmental and transport impacts. An edge of town location should normally be</i></p>	<p>No material change to existing regional policy. The general planning considerations which appear in regional policy are covered by other more general policies in the draft plan strategy.</p>

	<p><i>favoured over a location elsewhere in the rural area.”</i></p> <p><u>PED5:</u> <i>“A major industrial proposal which makes a significant contribution to the regional economy will be permitted in the countryside where it is demonstrated that the proposal due to its size or site specific requirements needs a countryside location. Such proposals will be assessed taking account of: (a) the long-term sustainable economic benefits; (b) the availability of alternative sites; and (c) the environmental or transport impacts. Where an industrial development proposal is judged acceptable in principle in the countryside under the above, an edge of town location will be favoured over a location elsewhere in the rural area”.</i></p>	
<p>(i) Development of a small community enterprise park / centre or a small rural industrial enterprise outside of a village or small settlement where the use will be associated with the settlement. Where practical, an edge of settlement location will be favoured.</p>	<p>Opportunity already exists under paragraph 6.88 of the SPPS and PED6 of PPS 4.</p> <p><u>SPPS:</u> <i>“A small scale new build economic development project may be permissible outside a village or small settlement where there is no suitable</i></p>	<p>No material change to existing regional policy. The general planning considerations which appear in regional policy are covered by other more general policies in the draft plan strategy.</p>

site within the settlement. An edge of settlement location will be favoured over a location elsewhere in the rural area, subject to normal planning considerations”.

PED6: *“A firm proposal to develop a small community enterprise park / centre or a small rural industrial enterprise on land outside a village or smaller rural settlement will be permitted where it is demonstrated that all the following criteria are met: (a) there is no suitable site within the settlement; (b) the proposal would benefit the local economy or contribute to community regeneration; and (c) the development is clearly associated with the settlement, but will not dominate it, adversely affect landscape setting or otherwise contribute to urban sprawl. In assessing the acceptability of sites, preference will be given to sites in the following order: (1) land adjacent to the existing settlement limit, subject to amenity and environmental considerations; (2) a site close to the existing settlement limit which*

	<p><i>currently contains buildings or where the site is already in a degraded or derelict state and there is an opportunity to improve the environment; and (3) an undeveloped site in close proximity to the settlement where the development could be visually integrated into the landscape. Where an economic development proposal is permitted under this policy, any subsequent proposal should preferably be sited to cluster or visually link to this, subject to amenity and environmental considerations”.</i></p>	
<p>(j) Where there are existing quarries outside of areas designated for their nature conservation, heritage or landscape value, favourable consideration will be given to a directly related industry e.g. cement/ concrete works or glass manufacture.</p>	<p>No explicitly comparable opportunity, however considered to be a reflection of local circumstances justified by the evidence.</p>	<p>Mining and quarrying is a significant employer in the District as set out in <u>MUDC203</u> (paragraph 4.4). There is a sustainable opportunity for Mid Ulster to build upon this strong base and to encourage indigenous construction and manufacturing enterprises to locate in Mid Ulster in sustainable locations close to existing quarries. There are sustainability benefits associated with locating such industries close to existing quarries. The justification for this policy is set out in the</p>

		<p>draft plan strategy itself at paragraph 12.24.</p> <p>This development opportunity is limited. In order to give an idea of the limited number of development opportunities available under this policy, the Council has considered potentially applicable sites. There are 63 existing quarries, but only 51% of these (32) are located outside of areas designated for their nature conservation, heritage or landscape value. Not all of these are likely to take up the development opportunity offered either.</p>
--	--	---

Question

Q2–Furthermore, in providing clarification, can the Council direct the Department to evidence within the submission outlining how the approach to new economic development in the countryside (ECON2) is supportive of the Council’s own plan objectives including SPF2 (to focus growth within the three main towns/Hubs of Cookstown, Dungannon and Magherafelt) and SPF3 (to consolidate the role of Coalisland and Maghera as part of the draft Plan Strategy)?

Response

- 3.9. The implied premise of this question is that ECON2 conflicts with the objectives of the draft plan strategy. This is not accepted. Much of this has already been explained above in response to the previous question, but several points are worth highlighting in response to this question.
- 3.10. A preliminary point is worth noting. Dfl in its question has mistakenly referred to SPF2 and SPF3 as objectives, however as paragraph 4.6 of the draft plan strategy makes clear, these are the principles of the Strategic Planning Framework which are designed to achieve the objectives of the plan. They are

not objectives in and of themselves. The objectives are set out at paragraph 3.15 of the draft plan strategy.

3.11. The plan objectives need to be read as a whole. Some policies will serve some objectives more than others. ECON2 is concerned with economic development in the countryside. The most relevant objectives are therefore those that seek to sustain rural communities and provide sustainable opportunities for economic development in the countryside. The table below identifies the most relevant plan objectives for ECON2 and briefly explains how ECON2 contributes to the achievement of those objectives.

Plan objective	Contribution made by ECON2
<p><i>“To provide for vital and vibrant rural communities whilst protecting the countryside in which they live by accommodating sustainable growth within the countryside proportionate to the extent of existing rural communities”</i></p>	<p>ECON2 provides for sustainable economic development opportunities in the countryside which will contribute to vital and vibrant rural communities. ECON2 strikes a balance between the need to provide economic development opportunities in the countryside and the need to protect the countryside from inappropriate development. It does so by providing for carefully circumscribed and proportionate opportunities for sustainable development in the countryside.</p>
<p><i>“To promote diversity in the range of jobs on offer recognising the importance of employment in the primary sector (agriculture, forestry and mining), secondary sector (industry and manufacturing), and tertiary sector (administration, commerce, retailing, leisure and tourism).</i></p>	<p>ECON2 promotes diversity in the range of jobs on offer by providing opportunities for jobs to come forward in rural areas. ECON2 has the potential to support jobs in all of the sectors mentioned in the countryside.</p>
<p><i>“To recognise and accommodate entrepreneurship, innovation for large, medium and small firms by attracting new firms and accommodating expanding businesses”</i></p>	<p>ECON2 provides opportunities for entrepreneurial start-ups and innovation, especially with the new development opportunity for small workshops. It contains limited opportunities for new firms to locate their business in the countryside where that is appropriate and it encourages the sustainable expansion of existing businesses.</p>

<p><i>“To recognise the importance of self-employment and home working, particularly in rural locations”</i></p>	<p>ECON2 performs particularly well in respect of this objective, providing opportunities for self-employed individuals and home workers to locate in the countryside in certain circumstances.</p>
--	---

- 3.12. In respect of the principles in the Strategic Planning Framework of the draft plan strategy, whilst DfI have cited SPF2 and SPF3, the most relevant principle is in fact SPF6. It seeks to *“accommodate development within the countryside that supports the vitality and viability of rural communities without compromising the landscape or environmental quality and whilst safeguarding our natural and built heritage”*. The accompanying text in paragraphs 4.35 to 4.41 of the draft plan strategy explain how opportunities for economic development in the draft plan strategy will contribute to this principle. The justificatory and amplificatory text to ECON2 at paragraph 12.15 of the draft plan strategy also explains the contribution that the plan makes to wider plan objectives identified and discussed above.
- 3.13. The Sustainability Appraisal assesses relevant policies against twenty-two sustainability objectives. Appendix 7 shows the general compatibility of these twenty-two objectives against the seventeen objectives in the draft plan strategy. This is explained at paragraph 2.13 of the Sustainability Appraisal. The matrix for ECON2 shows particularly good performance against social and economic objectives, as would be expected for an economic policy ([MUDC 102](#)) (Pages 575 – 577). It explains that the policy scores significantly positive in respect of most economic indicators in particular, as it is *“tailored to suit the bespoke needs of Mid Ulster which is characterised by self-employment, entrepreneurship and homeworking or workshop style development”* ([MUDC 102](#)) (Paragraph 5.309).
- 3.14. The question from DfI highlights SPF2 and SPF3 in particular. Two points are worth observing in response
- (1) As explained, SPF6 is in fact the most relevant principle for ECON2. It is unclear why DfI have singled out principles which are focused on the hubs when dealing with a policy which is concerned with the countryside. Different policies will align with different principles and objectives in the plan in different ways. The objectives must be viewed in the round.
 - (2) The implication seems to be that economic growth in the countryside is inconsistent with a desire to grow the towns. This is incorrect. The Council views the two objectives as complementary. It is possible to both grow the towns and to sustain vibrant rural communities. It is not a zero-

sum game where growth in the countryside takes away from growth in the towns. That much appears to be recognised by the Department in its own policy documents, for example the SPPS and RDS, as they too support growing higher tier settlements, whilst at the same time sustaining rural communities. That is all that the Council is doing here with ECON2.

3.15. ECON2 is consistent with the plan objectives, in particular those relating to sustaining rural communities and providing opportunities for sustainable economic growth in the countryside. There is no conflict between the aims which ECON2 seeks to support and the aim to grow the towns.

Question

Q3–The Council state that there is already a proliferation of existing rural enterprises meaning that in some locations ‘it could be argued’ that rural character has already been altered / undermined. Can the Council please highlight what evidence within the updated Landscape Character Assessment Review has informed its view in this regard which provides part of the justification for the RIPA designation?

Response

3.16. It is necessary to clarify a few points at the outset.

- (1) The justification for RIPAs is set out principally in [MUDC240](#). The draft plan strategy at paragraph 4.37 in particular sets out further justification. As set out there, RIPAs will “*protect and consolidate existing areas of rural industrial uses and contain them within limits whereby large-scale expansion would not be permitted*”. It can be seen, therefore, that a large part of the justification for RIPAs is to protect and consolidate existing areas, not to create new areas, of rural industrial use.
- (2) The potential for introducing a policy mechanism to protect and consolidate areas of existing rural industry was explored by members in early workshops, as recorded in [MUDC219](#), at paragraph 4.2. Members and officers drew on their local experience and knowledge in identifying this as an area of policy deserving of further consideration. This was carried through to the Preferred Options Paper ([MUDC115](#)) where the public were asked for their views on RIPAs generally, and on a list of potential RIPAs (Pages 59 and 61). DfI raised some concerns at this stage, but the prevailing public view was in support of RIPAs ([MUDC116](#)) (Pages 83 to 84). The recommendation was to identify a small number of strategic RIPAs at this stage and then to defer the identification of any further RIPAs to the local policies plan, with criteria for selection set out in the plan strategy.

(3) [MUDC240](#) identified two strategic RIPAs, known in the draft plan strategy as the Tullyvannon RIPA and the Desertcreat RIPA. One other location was ruled out on flooding grounds. The justification for the identification of those two RIPAs, including the analysis of the existing and proposed enterprises in those areas and the subsequent impact on rural character, is contained principally in [MUDC240](#). Additional commentary is also available in the Sustainability Appraisal ([MUDC102](#)) (Pages 113 – 116). Ultimately, these sites were considered to be appropriate for designation by professional planning officers and elected members with knowledge of the sites, drawing upon desktop and site observations.

(4) As for any remaining RIPAs, their identification will be a matter for the local policies plan stage. Judgements will have to be reached as to whether the criteria is met for designation for any sites promoted as part of the local policies plan. It would be premature to comment on any possible sites at this stage.

3.17. The Council was aware of the emerging findings of the updated Landscape Character Assessment Review in making judgements about RIPAs, but it would be wrong to assume that this document was the only, or even the principal, basis on which judgements about RIPAs were made. A wide range of evidence was taken into account by officers in reaching these judgements.

3.18. As for the Landscape Character Assessment Review ([MUDC401](#)) and associated documents (notably the Review and Audit of the Landscape Character Assessment Review ([MUDC 304](#))), it is important to stress that these are strategic assessments of landscape character. They do not reference particular localities, sites, or RIPA designations. Whilst useful in understanding the landscape character of certain areas, they may not provide a straightforward answer as to whether rural character within a particular area has been undermined by industrial development. Such an assessment may require a more granular analysis. Nevertheless, in so far as the proposed RIPAs are concerned.

(1) The Tullyvannon RIPA is located within the Dungannon Drumlins and Hills LCA45 and partially within the Slievemore LCA44. As stated in the review, LCA45 is unspoilt by overt human influence, however the outskirts of Dungannon have been affected by industrial, commercial and housing development. It says in respect of LCA44 that there are some localised impacts of expanding rural industrial operations, including for example the area around Sandvik between Ballygawley and Cabragh. Quarries and derelict sand and gravel workings are relatively common elements, and upstanding transmission masts are very prominent in views from the

surrounding lowlands. The area proposed as a RIPA encompasses a large area of existing industrial use. It is clear from this extensive area of existing enterprises that rural character has been undermined. Further photographs and a map indicating the extent of existing operations are enclosed (**Annex 2B**). As the Sustainability Appraisal notes at paragraph 5.156 ([MUDC102](#)), *“the site is dominated by existing industry in Sandvik who make quarrying equipment, Acheson and Glover making concrete products and a Northstone depot. Work is ongoing on the northern portion of the site on an in-vessel composting facility for Northway”*.

- (2) The Desertcreat RIPA is located within the Cookstown Farmlands LCA42 and has been designated due to the opportunity which exists from the extant, commenced planning approval on the site, as well as the investment undertaken in providing essential infrastructure. As the Sustainability Appraisal notes at paragraph 5.162 ([MUDC102](#)), *“it is considered a potential strategic RIPA due to the recent planning permission on the site for major development and the construction works on site have now commenced”*. Details of the relevant planning approvals, and a map are enclosed (**Annex 2C**). The site has been identified and has been included for public funding as part of the SW Growth Deal. The Council is currently in the process of acquiring the lands and it is anticipated that this will form a long-term project well beyond the life of the plan and work is currently being undertaken to devise a development brief which would protect the river corridor and provide for outdoor recreational uses. The RIPA designation is consistent with central and local government plans for this land.

3.19. The Council is satisfied that the evidence base in support of the RIPA designations is sound. The justification for the RIPA designations is clearly documented in the evidence base. Clarification has been provided above.

Question

Q4–Can the Council clarify how the proposed extension of the industrial footprint within the proposed Tullyvannon RIPA is consistent with the stated purpose of RIPAs to consolidate existing industry?

Response

3.20. The Tullyvannon RIPA has been proposed given the extensive, well-established and on-going large-scale industry on the site. The site includes Sandvik, who make quarrying equipment, Acheson and Glover, who produce concrete products, and work ongoing on the northern portion of the site for Northway (M/2014/0567/F). The enclosed map shows a limited opportunity for

further expansion of industrial uses on the site on a 6.83 ha plot of land to the east and on a smaller 1.06 ha plot of land to the west (**Annex 2B**).

- 3.21. As illustrated on this map, the vast majority of the proposed RIPA covers land already in industrial use. A very limited proportion of the RIPA is capable of being further developed on. It is considered that the boundaries of the RIPA are justified. As set out in the draft plan strategy, the role of RIPAs is to consolidate areas of industrial use in the countryside. Consolidate means to strengthen. It is not inconsistent with the aim to consolidate RIPAs to provide a limited opportunity for further development where it is sustainable to do so. Such an approach supports wider plan principles and objectives. The proposed Tullyvannon RIPA recognises the extent of existing industry and permissions and provides for limited scope for sustainable consolidation. Boundaries have been defined based on geographical features and the possibility of any further extension is physically limited by the rising topography of the land, thereby protecting against any sprawl. This is a rounding off opportunity which will contribute to wider plan principles and objectives.
- 3.22. The Council ultimately does not accept the implied premise of this question which is that consolidate means no further growth. That is not what consolidate means. RIPAs would serve little to no purpose if they simply sought to freeze existing uses with no possibility of sustainable consolidating growth. The opportunities for further growth in the Tullyvannon RIPA are sustainable and do not conflict with the stated purpose of RIPAs.

Question

Q5–Is the Council aware of how many other locations within the MUDC district would meet the criteria for RIPA designation set out within the draft Plan Strategy at paragraph 4.37? Furthermore, do the findings of the updated Landscape Character Assessment Review support the designation of RIPAs generally?

Response

- 3.23. The first part of the question deals with the number of areas likely to be designated as RIPAs in due course.
- 3.24. It is not possible to say definitively at this stage how many RIPAs will be designated at the local policies plan stage. The identification of RIPAs will be a matter for the local policies plan and decisions will have to be made on the basis of the most up to date evidence available at that time.
- 3.25. Without prejudice to the above, it appears that the underlying concern of Dfl in asking this question is the concern that a large, unsustainable number of

RIPAs will come forward at the local policies plan stage. That concern is not justified for three reasons.

- (1) The criteria for the designation of RIPAs is set out at paragraph 4.37 of the draft plan strategy. There are a large number of conditions which must be met before a RIPA can be designated and many of these conditions are quite restrictive. Drawing on their extensive local and background knowledge of land use in the district, officers are confident that the criteria set out at paragraph 4.37 of the draft plan strategy are strict enough to ensure there will not be a proliferation of RIPAs across the district.
- (2) A broad indication of the number of sites which may be designated as RIPAs can be obtained by tracing the development of RIPAs through the evidence base. When initially discussing the potential for RIPAs at a workshop, nine potential sites were identified ([MUDC 219](#)) (Paragraph 4.2) (Ballygawley was listed twice). The Preferred Options Paper sought views on these sites and any other sites ([MUDC115](#)) (Pages 59 to 61). [MUDC240](#) identified two strategic RIPAs, known in the draft plan strategy as the Tullyvannon RIPA and the Desertcreat RIPA. One other location was ruled out on flooding grounds. Whilst the list of potential RIPAs considered as part of the preparation of the plan strategy is not an exhaustive list, the list was drawn up by professional planning officers and elected members with extensive local and background knowledge in the district. The fact that a relatively small list was initially identified indicates that the Council does not consider that there is likely to be a large number of sites which are likely to meet the criteria for designation as RIPAs.
- (3) Additional sites were suggested by members of the public during the public consultation on the Preferred Options Paper RIPAs ([MUDC116](#)) (Pages 83 to 84). Fifteen site specific representations suggesting RIPA designations were received. There were nine site specific representations received to the draft plan strategy consultation, although six of these had previously been suggested during the Preferred Options Paper consultation. Officers have undertaken an initial high-level analysis of the representations received and consider that only one would be likely to meet the criteria for designation as a RIPA. This supports the view expressed above that there is not likely to be a large number of sites which meet the criteria for designation as RIPAs.

3.26. Therefore, without prejudice to the outcome of the local policies plan process and the consideration of all of the evidence at that stage, the Council is confident at this stage that the criteria for designation as a RIPA are sufficiently strict so as to ensure that there will not be an unsustainable proliferation of RIPAs in the countryside.

3.27. The second part of the question asks whether the findings of the Landscape Character Assessment Review ([MUDC401](#)) support the designation of RIPAs.

3.28. As explained above in response to the previous question, it would be wrong to assume that the Landscape Character Assessment Review was the only, or even the principal, basis for justifying the designation of RIPAs. RIPAs are not a landscape designation. They are principally an economic designation, as explained in [MUDC240](#). RIPAs are partially justified on the basis that there are areas of established industrial use in the countryside where rural character has already been eroded. The Landscape Character Assessment Review provides some evidence of where such erosion has occurred, but because it is undertaken at a strategic level, it does not necessarily capture changes in rural character at a more granular, site level. Ultimately in deciding whether to designate RIPAs at the local policies plan stage, the Council will take account of a wide range of evidence, including further landscape evidence. The Council is content that its judgment that there are areas within the district where existing industrial uses have eroded rural character is sound. It is a view which received widespread support at the Preferred Options Paper stage ([MUDC116](#)).

Question

In arriving at a minimum requirement of 8,500 jobs the Council has developed their own methodology which draws upon data from the 2011 Census as well as NISRA 2014-based population projects. The methodology also includes an adjustment to account for the aim of reducing the portion of the working age population classified as 'economically active' (document 'Enabling Success: Supporting the transition from economic activity to employment' sets a target of 70% of the working age population being economically active by 2030). While the addendum took account of the 2014 population projections, 2016-based and 2018-based projections have been published by NISTRRA in April 2018 and 2020 respectively.

The Council state at paragraph 5.10 of Position Paper 3 "the calculated jobs figure is sensitive to economic changes and population projections changes". Accordingly, the Council state that any target should be kept under review.

Q6–In providing clarification, can MUDC direct the Department to any evidence within the submission which shows consideration by Council of the impact of any later projections?

Response

3.29. At the outset, it is important to stress that population projections are released annually. The figures contained in the draft plan strategy and the underlying

evidence base should be viewed as point in time assessments which used the evidence available at the time. The evidence base must be proportionate. The Council continues to monitor recent data published by NISRA. It would, however, be an unrealistic counsel of perfection to expect the Council to publish additional topic papers each and every time that NISRA published new data. This would unnecessarily delay the progression of local development plans. The Council remains confident that the employment land figure contained in the draft plan strategy is sound. The Council will keep the emerging data under review and if it considers that there is any need to modify the plan in light of emerging data, it may do so post-adoption, in accordance with section 14(1)(a) of the 2011 Act.

3.30. Nevertheless, given that DfI have requested further information in respect of the 2016-based and 2016-based population projections, the Council is willing to provide these. They do not alter the conclusions reached by the Council.

3.31. The table below provides data extrapolated from the NISRA population projections for the year 2015 (plan base date) and 2030 (plan end date) for the working age population aged 16 to 64. Whilst 2012 and 2014 based population projections predicted a rise, the 2016 and 2018 based population projections anticipate a fall of around 2,000 people by 2030. These falling population trends are reflective of UK-wide trends, arising from a number of factors, particularly Brexit, and the associated decline in immigration.

	2015 (Age 16 to 64)	2030 (Age 16 to 64)
2012-based population projections	91,368	99,571
2014-based population projections	91,564	99,322
2016-based population projections	N/A	97,394
2018-based population projections	N/A	97,275

3.32. The first phase of main statistics from the Census 2021 were published in September 2022. They provide a profile of the Northern Ireland population. Census 2021 recorded the adult age population (age 15 to 64) for Mid Ulster at 95,200. This is broadly similar to the NISRA 2016 and 2018 projections which were 95,443 and 95,085 respectively for that age bracket, by 2021.

3.33. Applying the methodology previously adopted to the 2016-based and 2018-based population projections leads to the following.

		Population Projections		
		2016-based (published April 2018)	2018-based (published April 2020)	Source
(A)	<u>Assumption 1</u> Population aged 16 to 64 in 2015	91,564	91,564	NISRA
(B)	<u>Assumption 2</u> Economic activity rate of 67% (Census 2011) for population ages 16 to 64 in 2015	61,348	61,348	(A) * 0.67
(C)	<u>Assumption 3</u> The 70% DETI DEL target is applied to the population ages 16 to 64 in 2015	64,095	64,095	(A) * 0.70
(D)	<u>Consequently</u> The number of jobs needed in 2015 (additional jobs needed to meet 70% target)	2,747	2,747	(C) – (B)
(E)	<u>Assumption 4</u> Populated aged 16 to 64 in 2030	97,394	97,275	NISRA
(F)	<u>Consequently</u> Resulting in an increase in the population aged 16 to 64 by 2030 of	5,830	5,711	(D) – (A)
(G)	<u>Assumption 5</u> 70% of the rise of those aged 16 to 64 will be economically active	4,081	3,998	(F) * 0.70
(F)	<u>Consequently</u>	6,828	6,745	(D) + (G)

	Resulting in jobs required over the plan period of			
--	--	--	--	--

3.34. It can be seen from the above that using the 2016 or 2018 based population projections leads to a lower jobs figure than that planned for. The percentage reduction for both is around 20%. However, these figures do not account for the raising state pension age. The effect of doing so is to introduce an additional two-year age bracket into the pool of economically active individuals.

3.35. The effect of changing the state pension age has been considered against the 2018-based population projections below.

	2018-based (published April 2020)	Source
<u>Assumption 1</u> Population aged 16 to 64 in 2015	91,564	NISRA
<u>Assumption 2</u> Economic activity rate of 67% (Census 2011) for population ages 16 to 64 in 2015	61,348	(A) * 0.67
<u>Assumption 3</u> The 70% DETI DEL target is applied to the population ages 16 to 64 in 2015	64,095	(A) * 0.70
<u>Consequently</u> The number of jobs needed in 2015 (additional jobs needed to meet 70% target)	2,747	(C) – (B)
<u>Assumption 4</u> Populated aged 16 to 66 in 2030	100,813	NISRA
<u>Consequently</u> Resulting in an increase in the	9,249	(D) – (A)

population aged 16 to 66 by 2030 of		
<u>Assumption 5</u> 70% of the rise of those aged 16 to 64 will be economically active	6,474	(F) * 0.70
<u>Consequently</u> Resulting in jobs required over the plan period of	9,221	(D) + (G)

3.36 It can be seen from the above that the effect of adding additional two-year age bracket into the pool of economically active individuals at the end of the plan period is to increase the number of jobs necessary by the end of the plan period. The percentage increase based on the figure in the draft plan strategy is approximately 8%. It is considered to be overly conservative to assume that 70% of the population aged 64 to 66 will be working by 2030. A lower proportion is assessed to be more likely.

3.37 A 1 hectare per 50 jobs conversion factor was used in [MUDC203](#). Applying that conversion rate to the various calculations undertaken, yields the following.

Scenario	Jobs needed over the plan period	Indicative land requirement
2012-based (working population of 16 to 64)	8,484	170 hectares
2014-based (working population of	8,178	163 hectares
2016-based (working population of 16 to 64)	6,828	137 hectares
2018-based (working population of 16 to 64)	6,745	135 hectares
2018-based (working population of 16 to 66)	9,221	184 hectares

3.38 Ultimately, the Council has to reach a balanced judgement taking into account all of the data before it. Population trends are subject to fluctuations, as the above analysis shows. Economic factors are also likely to impact on the number of jobs required over the plan period. Planning policy has little control over these factors. The Council is mindful that regional policy calls for an “*ample supply of suitable land*” promoting a “*a range and choice of sites in terms of size and location*” (SPPS) (Paragraph 6.92). RG1 of the RDS speaks

of an “adequate supply of land”. The Council is also mindful of the draft plan strategy objectives and the wider objectives of the Council set out in the Community Plan to promote economic growth in Mid Ulster. Taking all of this into account, the Council remains of the view that the 170 hectares planned for in the draft plan strategy is sound. It will ensure that there is an ample supply of economic development sites, promoting a range of choice across the main towns. It sits broadly within the mid-range of the estimates set out above. It will not lead to an unsustainable level of growth, but it will ensure that Mid Ulster is able to remain competitive and take advantage of any uptake in economic growth over the plan period. This reflects the carefully considered view of the Council in light of all of the available data.

3.39 As stated at the outset of the answer to this question, that the Council will keep this matter under review throughout the plan period and has the ability to modify the plan should it consider it necessary to do so. There are specific monitoring indicators and measures in the draft plan strategy which will ensure that the Council keeps this matter under review.

Question

The objective of the plan states that it aims to facilitate the creation of at least 8,500 new jobs by 2030 at a variety of locations accessible to all members of the community, including those without a private car. The Council estimate 170 hectares of land is required, based on a ration of 50 jobs per hectare. The council acknowledge this assumes all new jobs will be supported on zoned employment / industrial land (paragraph 6.3 of position Paper 3). Accordingly, 170 hectares results in what the Council describe as a “degree of over zoning” allowing the plan to provide a choice of sites in different locations to encourage economic growth.

It appears that the figure of 50 jobs per hectare is based upon a survey of employment on industrial estates in Omagh and Fermanagh carried out by Planning Service in 2006

Q7–Noting that the methodology will result in a degree of over-zoning did the council consider the application of a phased approach to the release of economic development land similar to the approach taken in respect of housing land?

Response

3.40 As explained above, in accordance with regional policy requirements, the draft plan strategy seeks to make provision for an ample supply of suitable land, with a range and choice of sites in terms of size and location. This will be achieved by ensuring that there is an ample supply of available land across the district throughout the plan period. Introducing a phased approach would

inhibit this, as instead of there being an ample choice across the district over the plan period, a phased approach would limit the pool of available sites at any one time. It would also have the potential to hold up economic investment whilst decisions on rephasing lands were made. Such an approach is not justified and does not sit comfortably with local or regional policy objectives. The Sustainability Appraisal did not identify any particular concerns in respect of the sustainability of the approach proposed which would warrant a phased approach ([MUDC 102](#)) (Pages 75 to 76). There are evidently different considerations at play when considering housing land and economic development land. The importance of choice, flexibility, and availability is underscored in the economic development context, and points strongly against a phased approach to the release of land.

Question

In terms of the distribution, the Council indicate that the 170ha should be focused in the main settlements with the plan indicating that 60ha will be zoned in Dungannon, 55ha in Cookstown and 55ha in Magherafelt. The Council indicate that this approach is supportive of the Draft Plan Strategy SPF2 which seeks to strengthen the role of the Hubs as main centres of employment. Council indicate that this approach supports RDS RG1 (to ensure an adequate supply of land to facilitate economic growth) and SFG11 (promote economic development opportunities at the Hubs).

Q8–In providing clarification, can MUDC direct the Department to evidence within the submission showing consideration by the Council of how its approach to economic development in the countryside will promote development at the hubs, in line with SFG11 of the Regional Development Strategy?

Response

3.41 This question overlaps significantly with the first and second questions. DfI is referred back to the answers to those questions which explain how the approach to economic development in the countryside under ECON2 accords with regional policy and wider plan objectives and principles.

Question

The Council do not propose to make a specific allocation of economic development land to Coalisland and Maghera as it is considered in the main that these would be privately led. The Settlement Appraisals prepared by the Council for Coalisland and Maghera identify extant industry and business zonings. Maghera currently has 7.6 hectares of land zoned for industry and economic uses, while Coalisland has 19 hectares of land zoned for this purpose.

In response to the public consultation, it appears that the MUDC consider this to be in accordance with the objective of focusing economic growth in the main settlements./ Hubs. The Council state that economic development land will not be zoned in the local towns for flexibility reasons.

MUDC however indicate, within its consultation report, that economic development land may be zoned at LPP stage to protect existing economic activity from competing uses or provide opportunities to meet local need. If the council were to make an allocation to the local towns this would likely be in addition to the 170 hectares already allocated across the three hubs.

Overall, this approach appears to differ from that of the draft plan strategy which indicates (paragraph 4.21) that no specific allocation will be made to the two local towns.

Q9–In providing clarification, can MUDC direct the Department to evidence within the submission which shows consideration by Council as to the reason for the change of approach between publication of the Draft Plan Strategy and subsequent Public Consultation Report for Coalisland and Maghera?

Response

3.42 It appears that the premise of this question is that there has been a change of approach between the publication of the draft plan strategy and the subsequent public consultation report. If that is so, then it is based on a misunderstanding of the position. It should be clear that there is no change in approach given that no modifications are proposed to the draft plan strategy in the public consultation report in respect of this issue. The report specifically says that no action was required in response to the representations raised. The public consultation report was simply responding to specific queries raised in some representations about economic development land in Coalisland and Maghera ([MUDC 114](#)) (Pages 072 to 073).

3.43 Paragraph 4.21 of the draft plan strategy plainly sets out the position in respect of Coalisland and Maghera.

“Accordingly in zoning economic development land the primary aim is to provide opportunity for expansion clustered around existing provision or to provide economic activities on publicly owned land. However no specific allocation of economic land is made to the two local towns as schemes in the main would be privately led”

3.44 Contrary to the reading placed on this paragraph by Dfl, this paragraph does not rule out zoning economic development land in the small towns; to the

contrary, the first sentence explicitly envisages zoning where the primary aim is to provide opportunity for expansion clustered around existing provision or to provide economic activities on publicly owned land. The second sentence makes it clear, however, that the local towns will not receive a share of the 170 hectares of economic land identified as being necessary to meet need. This accords with what is said in the draft plan strategy at paragraph 4.12. Any limited zoning of economic development land in the small towns would be additional to the zoning in the main towns, serving the specific purposes set out in the draft plan strategy at paragraph 4.21 and expanded on in the Public Consultation Report ([MUDC 114](#)) (Pages 072 to 073).

3.45 Not only does paragraph 4.21 of the draft plan strategy make it quite clear in principle that limited opportunities for zoning economic development land may be taken in the local towns, but paragraph 4.22 then goes further and actually refers to an example, the former High School site in Maghera. On this basis, the reading advanced by DfI, that there would be no economic zoning at all in the local towns, is clearly mistaken.

3.46 None of this is unsustainable or in conflict with wider plan objectives either.

(1) As explained in paragraph 4.21 of the draft plan strategy and expanded on in detail above in response to earlier questions, the 170 hectares of economic development land considered to be necessary to meet need is allocated across the three main towns. The reason why the three main towns receive all of the allocation is because the Council wants to promote growth in the main towns in accordance with regional and local policy objectives. The principal way in which the planning system can promote growth within the main towns is by providing an ample supply of land in those towns. Allocating the whole of the share of the required economic development land across the main towns will direct growth towards them.

(2) However, the desire to grow the hubs and focus economic development therein does not mean that the local towns should be left behind. As SPF 3 explains, the aim is to “*consolidate the role of the local towns as service centres [...] providing appropriate development opportunities for [...] employment [...] activities, in keeping with the scale and character of these settlements*”. Some economic development land will be necessary to achieve this aim, however it will evidently be of a much smaller scale than that available in the main towns, and will be limited so as to be in “*keeping with the scale and character*” of the settlement. The types of opportunities envisaged in the draft plan strategy at paragraph 4.21 and in the Public Consultation Report ([MUDC 114](#)) (Pages 072 to 073) are quite limited in comparison to the main towns.

- (3) Because of the nature of these opportunities, it is not possible nor indeed is it desirable to try to give the local towns a share of the allocation of economic development land at this strategic level. As explained, the opportunities which will be identified in the local towns will be site specific, consolidating existing enterprises and taking opportunities to meet local need. These are matters which are best assessed at the local policies plan stage as opposed to at a strategic level. At that stage, consistently with the plan strategy, the Council will identify sustainable opportunities for economic development land in the local towns. It is not envisaged that the amount of economic development land zoned in the local towns will increase beyond its current levels, and it may well decrease. Ultimately, these will be matters for the local policies plan, guided by the plan strategy (section 9(5) of the 2011 Act).

Question

The main evidence papers supporting the Council's proposed approach to Economic Development include Position Paper 3, Employment and Economic Development (February 2015); Economic Development Policy Review (February 2016); Position Paper 3–Addendum, Employment and Economic Development (in response to NISRA May 2016 pop projects); and Industrial Monitor October 2018 – Report on Summary of Findings (as at Oct 2018). Other evidence papers are also relevant.

Other than an additional short paper to consider the implications of Covid-19 on the draft Plan Strategy – March 2021 (MUDC 403) there appears to have been no review or update to the policy paper / addendum highlighted above.

The Covid paper addresses the impact of the pandemic on the economic development and town centre growth. The paper does not draw upon any updated data sources and still refers to the NISRA census of employment 2014. It concludes that the figure of 8500 jobs remains relevant and that the figure of 50 jobs per hectare used to determine the land requirement, although lower than the existing average density for jobs in Mid Ulster of 65- 75 jobs per hectare, is more suited to the continuing requirement for social distancing.

The Council has continued to use the NISRA census of employment 2014 despite other sources of evidence being available regarding employee jobs and the profile of employment for the district (e.g. up-to-date Business Register and Employment Survey prepared by NISRA).

Q10– In order to aid the Department's consideration of the MUDC submission can Council, through directing DfI to evidence within the submission, demonstrate how it has taken account of any updated data sources to support its approach to

employment and economic development, to that presented in the papers of 2015, 2016, 2018 and 2021 (as referred above)?

Response

- 3.47 It has already been explained above that the evidence base and the draft plan strategy represents a point in time assessment. The Council has kept relevant data under review and is content that the draft plan strategy remains sound. It would not be proportionate for the Council to release new evidence each and every time new evidence comes to light. If the evidence base had to be updated each and every time new information came to light, regardless of its materiality, then the local development plan process would be paralysed in a constant state of evidence gathering. The Council wishes to avoid this.
- 3.48 The draft plan strategy was submitted to DfI for independent examination well over a year ago. Further data has been released during that period, but the Council has refrained from releasing any further evidence during this period of consideration in order to avoid further delays. This paper updates the evidence in light of the requests made by DfI. Any further requests to update information should be explored as part of the independent examination.
- 3.49 Ultimately, the Council is required to bring forward a plan strategy which is sound and legally compliant based on the information available to it at the time. The Council is content that it has done so and that any necessary updates can be addressed either as part of the independent examination or through the plan review mechanism.

4 Response to Appendix 3 questions

Question

Evidence presented by MUDC indicated that rural dwellings approved between April 2008 and March 2014 in Cookstown were 793, in Dungannon were 1,385, and in Magherafelt were 993. It appears that Reserved Matters applications relating to an Outline application decided within the study period are not included, applications seeking to renew an existing approval previously decided within the study period are not included, and where there is more than one application / appeal decision relating to the same site within the study period, only one decision is included.

Q1–In order to assist Departmental consideration of the MUDC submission, can Council please direct the Department to evidence which would provide clarification of the adopted methodology in using full and reserved matters approvals in 2 years (2012 – 2014) only?

Answer

- 4.1 The figures quoted by DfI in this question are from [MUDC202](#) which was published in November 2014. Full and reserved matters approvals were used principally in order to avoid double counting with outline permissions. As to why the focus was on 2012 to 2014 approval rates, Table 23 of [MUDC202](#) shows that the introduction of PPS had a constraining influence. It was considered that the approval rates for 2012 to 2014 were a more accurate representation of rural housing approvals under PPS 21. By this time PPS21 had bedded in. Approval rates between 2010 and 2012 were not felt to be representative given the backlog of applications which were being processed at the time.
- 4.2 Figures for additional years were included in Appendix 1 of the Public Consultation Report ([MUDC114](#)). In light of queries raised by DfI, the Council has taken the opportunity to update these figures. These show that the average rural approval rate over the last five year period for which data is available (2015 to 2020) is 234 which broadly aligns with the average rural approval rate of 245 between 2012 to 2014, contained in [MUDC202](#). A truncated version of the table is reproduced below for ease of reference.

	2015/16	2016/17	2017/18	2018/19	2019/20
Total approvals	184	239	218	275	255
Total approvals	131	164	145	198	192

(excluding replacements)					
--------------------------	--	--	--	--	--

4.3 Whilst there will always be a degree of fluctuation in rural approval rates, the Council is confident, based on its analysis of the figures and experience of rural approvals since the transfer of planning functions to it under the 2011 Act, that the evidence base has not underestimated the yield from rural approvals.

Question

Q2–In order to facilitate Departmental consideration of the MUDC submission, can Council please direct the Department to evidence providing quantification of housing completions for this period?

Response

4.4 Paragraph 6.18 of [MUDC202](#) indicates that the Council estimated around 90% to 95% of rural approvals translated into completions or starts. This was based on rural permissions and completions from a sample rural housing monitor 2003, 2005 and 2006. Applying the banded estimate would lead to between 220 to 232 completions a year (using the 2012 to 2014 data).

4.5 In light of queries raised by Dfl, the Council has taken the opportunity to update the figures, as referenced in the answers above, paragraph 4.2. A study of approvals between 2015 and 2017 was carried out to establish completion rates for this period and the figure arrived at was 86%.

Question

The Development Pressure Analysis paper (MUDC212 – September 2015) provides an analysis based on all outline, reserved matters, and full applications. Paragraph 2.12 states specifically that:

“The trends highlighted above are largely based on a desktop assessment only. It is suggested that a more detailed assessment, including complementary field survey work would be required in order to justify the introduction of a stricter policy regime in certain areas, or relaxation in others as the case may be”

Q3–In order to aid the Department’s consideration of the MUDC submission can Council, through directing Dfl to evidence, demonstrate how the results of further field survey work undertaken by the council has helped support the proposed policy approach?

Response

- 4.6 The Landscape Character Assessment Review ([MUDC 401](#)) at paragraph 2.0 explained that it built upon work carried out in earlier papers, including the Development Pressure Analysis ([MUDC 212](#)). Paragraph 34.0 of the Landscape Character Assessment Review explains that *“on the ground there is particular evidence of [development pressure from single houses] in parts of Slievemore LCA, West Lough Neagh Shores LCA, Lough Neagh Peatland LCA and the north-eastern part of Dungannon Drumlin and Hills LCA”*. This observation was informed by field survey work undertaken as part of the Landscape Character Assessment Review, as explained at paragraph 29.0. The field study helped to verify, add and refine information gathered through the desk study.
- 4.7 For each LCA, a specific section on intervening changes recorded any changes in the LCA since the last assessment. Where relevant, these assessments picked up on pressure from single dwellings. By way of example, in LCA 64, it is observed that *“the key force for change in recent years has been one-off dwellings. Many areas, such as the Washing Bay Road and Aughamullan, have experienced a high degree of development pressure from one off single dwellings, expressed in the form of clusters and ribbons of development”* ([MUDC 401](#)) (Page 21).
- 4.8 Table 2 Appendix 1 of MUDC 401 contains a summary of the changes and includes a column on action points. These action points arise as a result of identified changes. They are the outcome and product of the detailed work undertaken as part of the Landscape Character Assessment Review. These action points were taken into account in the development of the draft plan strategy. They informed the policy approach, especially CT1.
- 4.9 Additionally, and by way of further example, the introduction of a Special Countryside Area along the Lough shore was formulated partly in response to the high degree of development pressure from one off single dwellings, evident in the form of clusters and ribbons of development in the Aughamullan and Washing Bay Road area as identified in the Landscape Character Assessment Review. This is evident in the action points for LCA 64 ([MUDC 401](#)) (Page 25).

Question

Policy CT1 of MUDC Draft Plan Strategy contains what appears to be a broad exception to the regional strategic policy direction to cluster / consolidate where there are environmental or operational reasons why this is “impracticable”

Q4–To aid the Department’s consideration of the MUDC submission can Council, through directing to the submitted evidence, demonstrate how this approach takes account of the regional strategic policy approach of the SPPS, which applies the general principle of clustering, consolidating and grouping to all development in the countryside (with limited exceptions in relation to Dwellings on Farms)?

Response

- 4.10 The characterisation of CT1 as containing a “*broad exception to the regional policy direction to cluster / consolidate*” is not correct. Paragraph 6.69 of the SPPS says that the policy approach must be to “*cluster, consolidate, and group new development with existing established buildings*”. CT1 respects this, requiring proposals to “*cluster, consolidate and group with existing buildings*”. CT1 goes on to introduce a narrow exception, where there are “*environmental or operational reasons*” why it would be impracticable. The Council does not envisage that this exception will be lightly engaged. The characterisation by Dfl as this being a “*broad exception*” is speculative assertion. The Council, through its experience of dealing with rural applications since 2015, is confident that this exception will not often be engaged. The amplificatory text in paragraph 8.15, which refers to the need to provide evidence if the exception is being engaged, shows that the Council will not lightly be satisfied that this exception is met.
- 4.11 This exception is justified on its merits. There is no sound reason why, in an appropriate case, an evidenced operational or environmental reason may not be capable of constituting an exception to the general approach. The inclusion of this narrow exception in the policy affords it a degree of flexibility that is currently lacking in regional policy. It is also in the interests of certainty that exceptions are set out clearly on the face of the policy. There may be very good operational or environmental reasons which justify a departure from the general approach. Clustering may, for example, present health and safety concerns or may lead to more harmful natural heritage impacts which could be avoided if development was sited elsewhere.
- 4.12 Additionally, as Dfl acknowledge in their question, regional policy at present contains exceptions to the general principle of clustering, especially in respect of farm dwellings under CTY10(c). It is not apparent to the Council what the logic for singling out farm dwellings as an exception in regional policy is. The Council considers that it is more coherent for the exception to be available for all residential dwelling opportunities in the countryside where justified. The Council is entitled in its local development plan to take a different approach to regional policy where it considers that it is justified to do so in the interests of good planning, as it does here.

Question

As a general policy, CT1 applies to all applications for residential development in the countryside. On this basis it represents a significantly different approach to the examples set out by the Council. The SPPS sets out a range of specific opportunities within the countryside, consistent with regional strategic objectives. Justification for additional opportunities outlined by MUDC in the Draft Plan Strategy must be based on evidence presented by the Council. The SPPS states that other types of development in the countryside can be considered in line with the other policies set out within the SPPS.

The Department notes the MUDC Statement:

"The SPPS clearly provides for housing in the countryside, (our emphasis) *along the lines of which the Council has adopted new policies. We have however provided for additional exceptions. Mid Ulster has a high rural population — 40% of our households live in the countryside. Prior to the introduction of PPS 16, growth in the countryside was approximately 1,100 per year. Now we are currently experiencing figures of approximately 270 per year, based on current policy".*

Q5—In order to aid the Department's consideration of the MUDC submission can Council, through directing DfI to submitted evidence, demonstrate how the above Council statement is reflective of the SPPS regional approach?

Response

- 4.13 It is not clear what specific concerns DfI has over the conformity of CT1 and CT2 with the SPPS.
- 4.14 The general approach of regional policy is to set out a series of specific development opportunities in the countryside. This is evident in paragraph 6.73 of the SPPS. It is also evident in CTY1 of PPS 21. The draft plan strategy follows the same general approach. The specific opportunities for residential development in the countryside, the majority of which are based on existing opportunities under regional policy, are set out in CT2(a)–(j). These are the only opportunities for residential development in the countryside. As CT2 says, *"proposals for dwellings which do not meet the above criteria will be in conflict with the plan"*. CT1 is not a development opportunity in itself. It is simply a general policy dealing with siting, rural integration, design etc. Any proposal for residential development will have to fit within one of the opportunities listed in CT2(a)–(j) and comply with the criteria set out in CT1.

- 4.15 The Council acknowledges that in some respects it has departed from regional policy by relaxing existing development opportunities or providing for new ones. However, as explained above in paragraph 3.4, the Council is entitled to do so provided that it has a sound evidential basis — which it does. There is a quite extensive evidence base in support of the policy approach outlined, set out most clearly in the Sustainable Development in the Countryside — Policy Review ([MUDC 228](#)). A detailed rebuttal of concerns raised in respect of each of the CT2 opportunities can be found in the Public Consultation Report ([MUDC 114](#)) (Pages 194 to 217). The Sustainability Appraisal considered all of the development opportunities in CT2 in detail ([MUDC 102](#)) (Pages 465 to 521).
- 4.16 It is unclear precisely what the concerns of DfI are given the extensive evidence base in support of the rural housing policies in the draft plan strategy, none of which DfI specifically challenges. To the extent that DfI take the view that any relaxation of rural dwelling policy is impermissible, this is an overly dogmatic approach which conflicts with wider regional policy objectives and fails to pay due regard to the local circumstances of Mid Ulster. Many local councils have chosen to depart slightly from regional policy when it comes to rural housing in their local development plans. This is a matter which elected members in Mid Ulster feel strongly about. It should be explored at independent examination.

Question

Q6—In order to facilitate Departmental consideration of the MUDC submission, can Council please direct the Department to evidence estimating the likely impact of additional opportunities proposed under policy CT2 in terms of the potential number of additional development opportunities in the countryside? Has the Council considered the impact of these measures in the context of the HGI 40% allowance in respect of residential development?

Response

- 4.17 The estimation of potential yield of the additional opportunities proposed under CT2 calls for an exercise of planning judgement, with officers drawing upon their local and background knowledge. Any estimate will necessarily involve an element of uncertainty; however, officers are confident that the figures set out below are realistic, demonstrating that the yield from the additional proposed opportunities will be low. The additional proposed opportunities will not lead to an unsustainable level of growth over the plan period. This is explained in the Public Consultation Report ([MUDC 114](#)) (Pages 195 to 196).
- 4.18 It is assumed that in referring to the “*additional opportunities proposed*” DfI is referring to the following.

- (1) CT2(b) (Dwelling infilling a small gap site (only in respect of the additional exception introduced)).
- (2) CT2(f) (Dwelling in a farm cluster)
- (3) CT2(h) (Dwelling for a carer or someone availing of care)
- (4) CT2(j) (Dwelling for holder of commercial fishing licence)

4.19 Each will be taken in turn.

4.20 The opportunity for infill in a small gap site is in line with CTY 8 of PPS 21, however it does include an additional exception where a dwelling can be located between two dwellings. This is the only additional opportunity provided by CT2(b). Following discussions with development management officers who have intimate working knowledge of CTY 8 and the prevailing pattern of development in the countryside in this district, the plan team has concluded that the anticipated yield from this opportunity would be low. A conservative estimate is that it will lead to 10% more infill approvals.

4.21 Infill approvals under CTY 8 between 2015 and 2020 are included in the table below.

2015/16	2016/17	2017/18	2018/19	2019/20	Average (2015/16 to 2019/20)
33	50	47	78	67	55

4.22 Applying a conservative 10% rate of additionality to the average approval rate, approximately 6 new dwellings a year would come forward under the exception in CT2(b).

4.23 Turning next to the dwelling in a farm cluster opportunity under CT2(f), this is intended to apply to both active farms with a registered farm ID issued by the Department for Agriculture, Environment and Rural Affairs in the circumstances set out in the policy and non-active farms, with no registered farm ID. There were 24,200 active farms in Mid Ulster in 2014 ([MUDC 228](#)) (Paragraph 5.89). There are around 19,200 houses in the countryside in 2015 ([MUDC 209](#)) (Appendix 1). This means that there are more farms registered in Mid Ulster than there are houses in the countryside. The practice of registering a farm holding in Mid Ulster appears to be common. Given this, and the financial incentives associated with having an active farm ID, it is not considered likely

that there are a large number of unregistered farms in Mid Ulster that will seek to avail of this policy. It has been conservatively assumed that there are approximately 1,200 unregistered farms (5% of the registered farm figure (24,200)).

4.24 On average, a total of 24,200 registered farms has led to an annual approval rate between 2015 to 2020 under CTY 10 of around 100. The average approval rate between 2015 and 2020 under CTY2A is around 6. It is reasonable to assume that the demand for additional dwellings within a farm cluster will not exceed these levels and will in fact be relatively low given the stringent policy criteria in CT2(f) in respect of existing buildings on two sides and 3 substantial buildings (excluding garages). It is assumed that if 15% of all registered farms who have approval under criterion (e) already and want an additional dwelling for their family were to apply for permission, that would lead to around 15 dwellings per year. This is considered to be a reasonable estimate.

4.25 In respect of the dwelling for a carer or someone receiving care opportunity under CT2(h), it is anticipated that the uptake of this policy will be similar to that under existing policy for personal and domestic circumstances under CTY 6. The rationale for this policy is similar in that the applicant will have special circumstances and will be required to demonstrate the level of care needed to be provided. This opportunity also has strict controls attached to it which is likely to limit its uptake. For context, approvals under CTY6 between 2015 and 2020 are included in the table below.

2015/16	2016/17	2017/18	2018/19	2019/20	Average (2015/16 to 2019/20)
2	2	4	2	2	2

4.26 Some of the approvals which previously would have been approved under CTY6 are now likely to be approved under CT2(h) instead, such that there may negate some additionality. However, considering policy CT 2 (h) makes provision for both a carer or person receiving care, we therefore anticipate the quantum of houses coming forward to be similar to CTY 6 albeit marginally greater. Assuming 10 per year over 6 years will lead to an additional 60 dwellings receiving permission.

4.27 Turning finally to dwellings for holders of commercial fishing licenses under CT2(j), the Lough Neagh Fishermen’s Cp-operative have advised in a recent email that a total number of 133 commercial permits were granted in 2022. Of the permits issued in 2022, 55% of those recipients (73) lived in Mid Ulster.

There were also a number of assistant licences granted, but these would not qualify under CT2(j), as the policy only applies to “boat owners”. On a worst-case scenario, therefore, this policy will yield 73 dwellings over the plan period, which, assuming a 2024 adoption date, leads to an average annual yield from CT2(j) of 12. This is again considered to be a conservative analysis as it is not likely that all of those capable of benefitting from this policy will choose to avail of the development opportunity which it offers.

4.28 The annual average level of additionality from each of these additional development opportunities is set out in the table below. The expected level of completions from approvals under these additional development opportunities applying an 86% rate of approval is also included for context.

Development opportunity	Average annual yield
CT2(b) (Dwelling infilling a small gap site (only in respect of the additional exception introduced)).	6
CT2(f) (Dwelling in a farm cluster)	15
CT2(h) (Dwelling for a carer or someone availing of care)	10
CT2(j) (Dwelling for holder of commercial fishing licence)	12
Total average annual yield from additional development opportunities	43
Total estimated average annual completions and commencements from additional development opportunities (applying an 86% rate)	37

4.29 It should be emphasised that the Council considers this to be an overly conservative estimate for the reasons explained above. The likely yield is likely to be smaller in practice. However, even on the basis of the conservative figure set out above, it is clear that the additional development opportunities will not contribute to unsustainable levels of growth in the countryside.

4.30 The second part of the question asks whether the Council considered the impact of these additional development opportunities in the context of the HGI 40% allowance in respect of residential development in the countryside. The

Council has already explained above in paragraphs 4.17 to 4.29 what the correct position is in terms of the 40% allowance mentioned by DfI in this question. The Council was at all times mindful of the level of additionality which the development opportunities in CT2 would likely yield. The level of additionality does not affect the overall plan strategy.

- 4.31 It is important finally to note that robust monitoring mechanisms are proposed to ensure that the effect of these policies and others will be kept under review by the Council (Draft Plan Strategy (Pages 248 to 251)). If it becomes clear that these policies are leading to an unsustainable level of growth in the countryside, the Council has the power to modify the plan strategy at any time (section 14(1)(a) of the 2011 Act).

Question

Q7–In order to facilitate Departmental consideration of the MUDC submission, can Council please direct the Department to evidence explaining the basis for the policy wording and in particular if it has considered the extent to which policy criteria CT2(f) may compromise criteria CT2(e)?

Response

- 4.32 The rationale for the approach taken generally in CT2 is set out in various documents, the contents of which are not repeated here. DfI is directed in particular to the Sustainable Development in the Countryside — Policy Review ([MUDC 228](#)), the Public Consultation Report ([MUDC 114](#)) (Pages 194 to 217), and the Sustainability Appraisal ([MUDC 102](#)) (Pages 465 to 521).
- 4.33 The Council already responded to this specific point in the Public Consultation Report ([MUDC 114](#)) (Pages 207 to 208). The Council does not accept that (f) in any way “*compromises*” (e). The two are separate development opportunities. Criterion (e) will be engaged where the farm is established for six years and is currently active with no permissions obtained in the last ten years. Criterion (f) will apply “*exceptionally*”, on farms that are not active or established or where permission has been obtained in the past ten years, in the circumstances set out. Criterion (f) is intended to provide a limited development opportunity in circumstances where (e) is not engaged. The two opportunities are considered to complement each other. They should be read holistically. As explained elsewhere, the level of flexibility introduced by (f) was felt to be justified in response to local circumstances, namely the desire for families with a farming background to live close to each other. Criterion (e), based as it is on regional policy, was felt to be too restrictive on its own.

Question

CT2(h) of the Plan Strategy document provides draft policy for provision of a dwelling for a carer or someone availing of care. MUDC states that 10+% of the population rely on a degree of care / social benefits of extended families and within the Consultation Report advise that “the Department has failed to recognise the serious structural changes occurring in society”.

In addition to the principle of this policy, it is noted that the approach relies on the use of occupancy conditions that the council have acknowledged elsewhere within their consultation report are “against the ethos of existing rural policy which is based on minimum use of occupancy conditions”.

Q8—in order to facilitate Departmental consideration of the MUDC submission, can Council please direct the Department to evidence underpinning the inclusion of Policy CT2(h) of the Draft Plan Strategy and how Council envisage the implementation, assessment and enforceability of this proposed policy?

Response

4.34 The evidence in support of this policy is set out in several documents, most notably the Sustainable Development in the Countryside — Policy Review ([MUDC 228](#)) (Paragraphs 3.1, 5.56, 5.57, 5.60, and 5.65). Further justification can be found in the Public Consultation Report, where the Council responded to similar criticisms from DfI about the rationale for this policy ([MUDC 114](#)) (Pages 209 to 210). The Sustainability Appraisal sets out additional justification ([MUDC 102](#)) (Pages 507 to 512).

4.35 In very broad terms, around 10% of the population in Mid Ulster currently provide some care ([MUDC 116](#)) (Page 8). The challenges which society faces as a result of an ageing population and increasing pressures on the health and social care system are well documented. As [MUDC 201](#) observes, “*if care in the community is to succeed, value needs to be attached to carers*”. The planning system has a role to play. The local development plan in its objectives seeks to “*recognise the needs of both growing families and carers of the elderly and disabled by accommodating development which allows people to remain within their own communities*” (Paragraph 3.15). The approach which Mid Ulster is taking accords with broader regional policy objectives in respect of health and well-being. The SPPS itself recognises the need to “*understand and take account of health issues and the need of local communities*” and says that this may include “*bring[ing] forward local policies that contribute to improving health and well-being*” (Paragraph 4.6). The Council strongly believes that the limited development opportunity provided by

CT2(h) will have a positive effect on health and well-being (a point borne out by the Sustainability Appraisal ([MUDC 102](#)) (Page 507)).

- 4.36 The Council considers that the wording of the policy is clear on its face and will be capable of implementation without difficulty. Justificatory and amplificatory text at paragraphs 8.53 to 8.56 of the draft plan strategy provide further detail on the types of evidence which applicants will be required to provide and the matters which will be taken into account by the Council. The Council experienced in dealing with similar issues in its implementation of CTY6.
- 4.37 It is assumed that the concern about enforcement relates to the proposed occupancy condition. Whilst not frequently used, the use of occupancy conditions is well established as a matter of law and practice. The Council will use the full range of enforcement powers available to it under Part 5 of the 2011 Act to ensure that relevant occupancy conditions are complied with. For example, the Council has the power to issue an enforcement notice for a breach of planning control consisting of the failure to comply with a condition (section 131(b) 2011 Act). The Enforcement Team will be responsible for this matter following the adoption of the draft plan strategy.
- 4.38 Additionally, occupancy conditions attached to developments generally serve as a deterrent for any subsequent sale of a property. The Council understands that banks and lenders will often not lend money for the purchase of any site with an occupancy condition attached.
- 4.39 Whilst the use of occupancy conditions generally is discouraged, their use is of course justified in some circumstances. For instance, under existing regional policy in CTY 6 of PPS 21, DfI advocates the use of occupancy conditions. The use of occupancy conditions under CT2(h) would in no way be novel. And given the relatively small number of permissions likely to come forward under CT2(h), there is no conflict with the prevailing ethos of regional policy and practice, which is to keep the use of such conditions to a minimum. Occupancy conditions are justified in the particular circumstances of CT2(h) so as to ensure that dwellings authorised are in fact used by those in need.

Question

CT2(j) of the Plan Strategy document provides draft policy provision of a dwelling for the holder of a commercial fishing licence. It appears that there are 79 licensed permit holders currently residing in MUDC, which amounts to 0.77% of the revised HGI figure of 10,300. It also appears that these dwellings will be restricted for MUDC residents.

Q9–In order to facilitate Departmental consideration of the MUDC submission, can Council please direct the Department to evidence underpinning the need for the inclusion of Policy CT2(h) of the draft plan strategy and how Council envisage the implementation, assessment and enforceability of this proposed policy?

Question

- 4.40 On the face of it, this question is a duplicate of the previous question. However, given the text preceding it, it is assumed that Dfl meant to refer to CT2(j) and not CT2(h).
- 4.41 The evidence in support of this policy can principally be found in the Preferred Options Paper Public Consultation Report ([MUDC 116](#)) (Pages 59 to 63) and in the Public Consultation Report, where the Council responded to similar criticisms from Dfl about the rationale for this policy ([MUDC 114](#)) (Pages 212 to 215). The Sustainability Appraisal sets out additional justification ([MUDC 102](#)) (Pages 518 to 521). The draft plan strategy also explains the importance of this industry to Mid Ulster (Paragraphs 4.33, 8.3, 8.11, and 8.60).
- 4.42 The Council again envisages no issues with the implementation of this policy. The wording of the policy is clear. The justificatory and amplificatory text set out further information on the implementation of the policy at paragraphs 8.59 to 8.61 of the draft plan strategy. There are not considered to be any unique challenges with the enforceability of this policy which warrant further comment.
- 4.43 The monitoring indicators in the draft plan strategy make specific provision for monitoring this development opportunity. The draft plan strategy at page 250 says that the number of housing permissions by policy justification will be monitored as well as the total number of commercial fishing licences. This is also covered in the Preferred Options Paper Public Consultation Report ([MUDC 116](#)) (Page 63). If the total number of commercial fishing licences was to drastically increase, this would, therefore, be picked up by monitoring and the plan could be modified if necessary (section 14(1)(a) 2011 Act).

Question

Q10–In order to facilitate Departmental consideration of the MUDC submission, can Council please direct the Department to evidence which outlines the operational requirements of the job that necessitate being located in the countryside adjacent to the Lough, as opposed to a nearby settlement for example?

Response

4.44 The holder of a commercial fishing licence generally requires safe and secure storage of boats and nets, as well as space for the ongoing maintenance of both. This makes urban living, where outside amenity space is typically limited and shared, more difficult. There are other operational and cultural reasons why a countryside location close to the Lough is necessary. Locating fisherman close to their place of work also has sustainability benefits. The Lough Neagh Fishermen's Co-operative have provided further details of the operational requirements which necessitate a dwelling in the countryside, close to the Lough. A copy of their email is enclosed (**Annex 3A**).

“On your other query regarding the case for policy opportunity for a dwelling in the countryside as opposed to in a village or town – you have captured most of these already;

- 1. Fishing quays around Lough Neagh are not in any way centralised but rather fisherman launch from and moor at primitive quays close to their homes and are therefore relatively isolated locations — this has been the tradition for generations.*
- 2. Fishing boats and the required fishing gear, even on Lough Neagh, can be worth in excess of £60k – 70k and by necessity must be protected from damage, adverse weather, etc. — it is clearly easier to look after things when you live close-by and can check things regularly.*
- 3. Similarly, fishermen will need to store live fish on occasions, and this must be done on the shoreline, in the water. There have been many incidents of unattended storage tanks being ‘robbed’ — that can amount to the loss of one or two days’ pay for both the boat owner and his helper.*
- 4. Living close to the lough also creates the capacity to provide suitable shelter / accommodation for boats and tackle in the off-season as well as facilities to carry out essential repair / maintenance work as the need arises.*
- 5. The fishing industry involves long hours, often beginning at 3am and extending long into the evening. It can also involve what others might consider ‘split shifts’ depending on the nature of the fishing being undertaken — for example, at particular points in the season night-time work might prove more rewarding than daytime fishing and so on. Additional travel to and from a more distant place of residence adds to inconvenience and costs.*

6. *Clearly any insurance cover which fishermen have to protect their livelihood will be easier obtained where they reside 'on-site'.*

[...] we have a unique natural resource in Lough Neagh [...] the traditions, culture and heritage of the industry have attracted global recognition and accreditation — it is vital that we all understand that ultimately it is the fishing industry who are the custodians of this unique industry, and we must help them secure a sustainable and viable future or we all lose something valuable”.

Question

The draft policy supports strategic policy SPF7 'Support Rural Regeneration in Remoter Areas through the Designation of Dispersed Rural Communities (DRCs). The SPPS makes no provision for DRCs to be designated however it is acknowledged that the district already has 3 existing DRCs. The J&A states that some rural areas display symptoms of economic and social disadvantage and that in the interests of promoting rural regeneration the Council has designated DRCs.

Q11—In order to facilitate Departmental consideration of the MUDC submission, can Council please direct the Department to evidence in relation to the economic and social disadvantage that underpins their continued designation, and the identification of any new DRC designations that may be brought forward?

Response

- 4.45 The indicators for levels of deprivation are taken from the Northern Ireland Multiple Deprivation Measure 2017. A copy of relevant extracts is enclosed (**Annex 3B**). The Measure ranks the 890 Super Output Areas ('SOAs') from the most deprived (rank 1) to the least deprived (rank 890). The data in the Measure in part supports the continuing designation of the existing Dispersed Rural Communities ('DRCs').
- 4.46 Dunnamore SOA which contains the majority of the Broughderg DRC is ranked 271 most deprived SOA in Northern Ireland. Draperstown SOA which contains the proposed Sixtowns DRC is listed as the 389 most deprived SOA in Northern Ireland. Swatragh SOA which contains the Carntogher DRC is ranked 562 most deprived in Northern Ireland. Levels of income in each of these SOAs is also well below the mid-point. This data clearly supports the view that the areas which the DRCs are located in, are suffering from economic and social disadvantage.
- 4.47 It is also important, however, not to focus unduly on the statistics in respect of social and economic disadvantage. Whilst these are a factor in the designation

of DRCs, as the criteria set out at paragraph 4.44 of the draft plan strategy shows, there are other factors at play when considering whether to designate a DRC. This accords with the position in PPS 21, paragraph 4.6 in particular.

4.48 In terms of the evidence to be taken into account for any future designation of DRCs, the Council will apply the criteria set out in paragraph 4.44 of the draft plan strategy. In doing so, it will take account of the most relevant evidence at the time. The Council does not wish to predetermine or prejudice that process by attempting to specify what evidence it will take into account now when that is a decision which will have to be taken at the time.

5 Response to Appendix 4 questions

Question

Erroneous references

MUDC405 (Soundness Self-Assessment Checklist) appear to make inaccurate references to documents.

For example:

- Page 2 of MUDC 405 (re Soundness Test P1 regarding the LDP Timetable) signposts to MUDC 409 for details of compliance with the LDP Regulations. However, MUDC 409 does not appear within the Council's document library. It is noted that MUDC 407 presents the Council's assessment of compliance with the LDP Regulations.*
- Page 4 of MUDC 405 (re Soundness Tests P1 and P2 and the Statement of Community Involvement) signposts to MUDC408 for details of compliance with the SCI. However, MUDC 408 presents a report on the dPS and linkages to the Marine Plan. It is acknowledged that the Council's assessment of compliance with the SCI is contained within MUDC 406.*
- Page 5 of MUDC 405 (re Soundness Test 2 and POP Consultation) signposts to MUDC 409 for details of the Council's compliance with the LDP Regulations. As stated above, there is no such reference, and that MUDC 407 appears to present the Council's intended assessment. It is noted that the same incorrect reference is made on page 7 of the document in relation to the conservation of representation to the POP*

Q1—It appears that these documents may have been renumbered / reorganised after the Soundness Self-Assessment has been completed — can the Council clarify?

Response

- 5.1 In light of this question, the Council has checked all of the references in [MUDC 405](#) and has identified a number of typographical errors with the references. For ease of reference, the Council has enclosed a tracked changes version of [MUDC 405](#) which corrects the typographical errors identified (**Annex 4A**).
- 5.2 Additionally, the Council in preparing this response has also identified a number of minor errors in [MUDC 406](#). Again for ease of reference, the Council has enclosed a tracked changes version of [MUDC 406](#) which corrects the minor errors identified (**Annex 4B**).

5.3 These documents should be taken as replacing the previous versions of these documents. The updated versions of these documents will be uploaded onto the online document library in due course.

Question

Notification to consultation bodies throughout LDP preparation — Reg 10(c), Reg 15(c), and Reg 17(e)(f)

Councils are required to demonstrate that they have notified consultation bodies, and whilst sample correspondence is included (and noted within MUDC407), no distribution lists have been provided for who this was issued to (i.e. consultation bodies for each of these regulations).

Q2—Can the Council provide a copy of distribution lists to satisfy these regulations?

Response

5.4 Information was provided to Dfl by the Council in its 4 February 2022 response. In its 17 June 2022 response, Dfl did not raise any further concerns in respect of this question. Accordingly, it is assumed that Dfl requires no further clarification on this matter.

Question

Council approval of LDP Timetable – Reg7(1)

The Council advises that the original draft of the LDP Timetable was approved by the Council and subsequently submitted to the Department for its agreement. Following advice from the Department, a number of amendments were made to the Timetable, which was resubmitted to and agreed with the Department.

It is unclear from the evidence included within the submission documents, whether the Council was made aware of the amendments made to the document, or if the amended document was approved by resolution of the Council prior to resubmission to the Department.

Q3—Can the Council provide clarification regarding this matter?

Response

5.5 Clarification on this point is provided to Dfl by the Council in its 4 February 2022 response. In its 17 June 2022 response, Dfl did not raise any further concerns

in respect of this question. Accordingly, it is assumed that Dfl requires no further clarification on this matter.

Question

Local Advertisements – Regs. 8b, 10d, 15d, 17d

The Council has provided copies of public notices placed in local newspapers and the Belfast Gazette. However, it is noted that the publications appear to vary (at different stages of the process).

It is noted that the Council's publicity arrangements for the LDP documents have changed each time the SCI has been amended. Generally, the adverts provided are from publications as specifically stated in the Council's SCI. However, not all adverts (from all publications) have been provided.

In order to confirm that the Council has complied with its SCI(s) in the context of the requirements for LDP publicity in accordance with the LDP Regulations, could the Council provide copies of all advertisements placed in local newspapers.

Further information is set out below in relation to the local advertisements requirement.

Availability of timetable – Reg8(b)

The Council's SCI (May 2016) sets out public notices were to be published in the Mid Ulster Mail and Tyrone Courier re the LDP Timetable. However, the advertisements provided by the Council originate from neither of these publications.

Q4–Can the Council confirm which publications the public notices were placed, and provide copies of those advertisements?

Response

5.6 Despite the Council in its 4 February 2022 response inviting Dfl to specify precisely what its concerns were in respect of this point, Dfl have failed to do so. It appears, however, from the 17 June 2022 response from Dfl that there are outstanding concerns in respect of this point. In broad terms, the Council is confident that it has complied with the 2015 Regulations. No specific allegation of non-compliance has been made by Dfl. And in any event, it is clear that the draft plan strategy, and all relevant documents, have been the subject of extensive public consultation, with all parties having had a full and

fair opportunity to express their views. The evidence is comprehensively set out in [MUDC 406](#), [MUDC 407](#), and in the February 2022 submission to Dfl.

- 5.7 In an effort to assist Dfl, the following paragraphs summarise compliance with the legal obligations that Dfl has referred to in the question.
- 5.8 A Statement of Community Involvement and Local Development Plan Timetable was agreed by Dfl on 6 May 2016 and was published on the Council website ([MUDC 406](#)) (Appendix 4). The Statement of Community Involvement required a public notice to be issued in the Mid Ulster Mail and the Tyrone Courier. Regulation 8(1)(b) of the 2015 Regulation required notice by way of “*local advertisement*”. “*Local advertisement*” is defined in regulation 2(1) as “*an advertisement for two successive weeks in at least one newspaper circulating in the district of the council*”. Compliance with this obligation is evidenced in appendices 28 to 30 of [MUDC 406](#). For ease of reference, the adverts are enclosed (**Annex 4C**).
- 5.9 The Preferred Options Paper was published in November 2016. The Statement of Community Involvement required public notices to be placed in the Mid Ulster Mail, the Tyrone Courier, and the Belfast Gazette. Regulation 10(d) required notice by way of “*local advertisement*”. This has the same meaning as previously stated. Compliance with these obligations is evidenced in Appendix 32 of [MUDC 406](#) (see also paragraphs 3.2 and 3.7 of the same). For ease of reference, the adverts are enclosed (**Annex 4D**).
- 5.10 Following the publication of the Preferred Options Paper and prior to the publication of the draft plan strategy, both the Timetable and the Statement of Community Involvement were revised. This took place in November 2018 ([MUDC 406](#)) (Appendix 7). The revised Statement of Community Involvement required notice to be placed in the Mid Ulster Mail and the Tyrone Courier. Regulation 8(1)(b) of the 2015 Regulation required notice by way of “*local advertisement*”. This has the same meaning as previously stated. In the event, advertisements were placed in the Mid Ulster Mail and the Derry Post ([MUDC 406](#)) (Appendix 29) as well as in the Tyrone Courier (evidence of which was sent to Dfl in February 2022). For ease of reference, all of the relevant evidence is enclosed (**Annex 4E**).
- 5.11 The draft plan strategy was then published in February 2019. The revised Statement of Community Involvement required notices to be placed in the Mid Ulster Mail, the Tyrone Courier, Tyrone Times, Derry Post, Impartial Reporter, and the Belfast Gazette. Regulation 15(d) of the 2015 Regulations required notice to be given in the Belfast Gazette and by way of “*local advertisement*”. This has the same meaning as previously stated. Evidence of the adverts placed in the Mid Ulster Mail, Tyrone Courier and Belfast Gazette can be found

in appendix 40 of [MUDC 406](#). Evidence of publication in the Tyrone Times, Derry Post, and Impartial Reporter was sent to DfI in February 2022. For ease of reference, all of the relevant evidence is enclosed (**Annex 4F**).

5.12 Representations received on the draft plan strategy were published in June 2019. The revised Statement of Community Involvement required notices to be placed in the Mid Ulster Mail, Tyrone Courier, Tyrone Times, Derry Post, Impartial Reporter, and Belfast gazette. Regulation 17(1)(d) required notice to be given in the Belfast Gazette and by way of “*local advertisement*”. This has the same meaning as previously stated. Evidence of the adverts placed in the Tyrone Courier, Derry Post, and Belfast Gazette can be found in appendix 37 of [MUDC 407](#). Evidence of publication in the Tyrone Times, Mid Ulster Mail, and Impartial Reporter was sent to DfI in February 2022. For ease of reference, all of the relevant evidence is enclosed (**Annex 4G**).

5.13 Following the identification of a procedural error in the advertisement of the draft plan strategy, the public were reconsulted in March 2020. The same advertisement requirements as those specified in the previous paragraph applied. Evidence of the adverts placed in the Mid Ulster Mail, the Tyrone Courier, and the Belfast Gazette can be found in appendix 48 of [MUDC 406](#). Evidence of publication in the Derry Post and Impartial Reporter was sent to DfI in February 2022. As explained in the February 2022 submission to DfI, the Tyrone Times ceased operations on 18 June 2019. As a result, the decision was taken to consult in the Dungannon Herald instead. Evidence of this was provided to DfI in February 2022. For ease of reference, all of the relevant evidence is enclosed (**Annex 4H**).

5.14 As set out in [MUDC 406](#) at paragraph 5.4, because of the impacts of the Covid-19 pandemic, the Council considered it appropriate to extend the reconsultation period. Public notices were placed in the Mid Ulster Mail, Derry Post, Dungannon Herald, Tyrone Courier, Impartial Reporter, and Belfast Gazette. Evidence of the publication in the Derry Post can be found in appendix 50 of [MUDC 406](#). This, along with proof of publication in the other papers, is enclosed for ease of reference (**Annex 4I**).

5.15 The Statement of Community Involvement was further revised in June 2020 ([MUDC 406](#)) (Appendices 12 and 13). It was agreed that given it was unknown how long government would be encouraging individuals not to congregate that a public notice of the reconsultation closing date would be published in local newspapers circulating in the Mid Ulster District and the Belfast Gazette once known. Notices were placed in the mid Ulster Mail, Derry Post, Dungannon Herald, Tyrone Courier, Impartial Reporter, and Belfast Gazette. Evidence of publication in the Belfast Gazette and Derry Post can be found in appendices

52 and 53 of [MUDC 406](#) respectively. Proof of publication in other papers is enclosed for ease of reference (**Annex 4J**).

5.16 Representations received on the draft plan strategy during the reconsultation period were then published in October 2020. The revised Statement of Community Involvement required notices to be placed in at least one local newspaper circulating in Mid Ulster District and the Belfast Gazette for two weeks. Regulation 17(1)(d) required notice to be given in the Belfast Gazette and by way of “*local advertisement*”. This has the same meaning as previously stated. Evidence of publication in the Derry Post and Belfast Gazette can be found in appendix 56 of [MUDC 406](#). For ease of reference, all of the relevant evidence is enclosed (**Annex 4K**).

5.17 The timetable was revised further in November 2020 ([MUDC 406](#)) (Appendix 31). The revised Statement of Community Involvement required notice to be placed in at least one newspaper circulating in Mid Ulster District. Regulation 8(1)(b) of the 2015 Regulation required notice by way of “*local advertisement*”. This has the same meaning as previously stated. Evidence of the notice placed in the Derry Post can be found in appendix 30 of [MUDC 406](#). For ease of reference, all of the relevant evidence is enclosed (**Annex 4L**).

Question

The Council’s SCI (October 2018) sets out public notices were again to be published in the Mid Ulster Mail and Tyrone Courier. Appendix 16 of MUDC 407 provides advertisements were placed in the Derry Post (4/11 Dec 2018), and in the Mid Ulster Mail (6/13 Dec 2018). No notice has been provided to show advertisement specifically in the Tyrone Courier.

Q5–Can the Council confirm those publications within which public notices were placed, and provide copies of those advertisements that have not already been submitted?

Response

5.18 Clarification on this point as provided to Dfl by the Council in its 4 February 2022 response. In its 17 June 2022 response, Dfl did not raise any further concerns in respect of this question. Accordingly, it is assumed that Dfl requires no further clarification on this matter.

Question

Availability of the preferred options paper - Reg. 10d

The Council's SCI (May 2016) states public notices were to be published in the Mid Ulster Mail, the Tyrone Courier and the Belfast Gazette. No notice has been provided to show advertisement specifically in the Mid Ulster Mail, however copies of public notices placed in the Mid Ulster Observer have been submitted. The Department understands the Mid Ulster Observer and Mid Ulster Mail are two separate publications.

Q6– Would the Council be able to provide a copy of this advert from Mid Ulster Mail or provide clarification on this point?

Response

5.19 Clarification on this point as provided to Dfl by the Council in its 4 February 2022 response. In its 17 June 2022 response, Dfl did not raise any further concerns in respect of this question. Accordingly, it is assumed that Dfl requires no further clarification on this matter.

Question

Availability of DPS - Reg 15d

The Council's SCI (October 2018) states that public notices were to be placed in the Mid Ulster Mail, Tyrone Courier, Tyrone Times, Derry Post, Impartial Reporter and the Belfast Gazette. However, only those notices placed in the Tyrone Courier and Belfast Gazette have been provided as evidence.

Q7– Is the Council able to confirm that public notices were placed in the remaining publications in accordance with the SCI in effect at that time?

Response

5.20 Clarification on this point as provided to Dfl by the Council in its 4 February 2022 response. In its 17 June 2022 response, Dfl did not raise any further concerns in respect of this question. Accordingly, it is assumed that Dfl requires no further clarification on this matter.

Question

When the re-consultation was undertaken, it is noted that the Council's SCI (Oct 2018) states that public notices were to be placed 'in the Mid Ulster Mail, Tyrone Courier, Tyrone Times, Derry Post, Impartial Reporter and Belfast Gazette.'. Only those notices placed in the Mid Ulster Mail and Belfast Gazette have been provided by the Council in its submission documents.

Q8– Can the Council confirm if there were notices placed in any other publications, and if so, could copies of those advertisements be provided?

Response

5.21 Clarification on this point as provided to Dfl by the Council in its 4 February 2022 response. In its 17 June 2022 response, Dfl did not raise any further concerns in respect of this question. Accordingly, it is assumed that Dfl requires no further clarification on this matter.

Question

Availability of representations on a DPD - Reg 17d

Appendix 37 of MUDC407 and MUDC603 includes the public notices placed in the Belfast Gazette (14 & 21 June 2019), Tyrone Courier (12 & 19 June 2019), and County Derry Post (11 & 18 June 2019). These notices detail the availability of representations for inspection, and the places and times that they can be inspected.

The Council's SCI (October 2018) states that public notices were to be placed in the Mid Ulster Mail, Tyrone Courier, Tyrone Times, Derry Post, Impartial Reporter and the Belfast Gazette. However, only those notices placed in the Tyrone Courier and Belfast Gazette have been provided as evidence.

Q9– Is the Council able to confirm that public notices were placed in the remaining publications in accordance with the SCI in effect at that time?

Response

5.22 Clarification on this point as provided to Dfl by the Council in its 4 February 2022 response. In its 17 June 2022 response, Dfl did not raise any further concerns in respect of this question. Accordingly, it is assumed that Dfl requires no further clarification on this matter.

Question

Provision of Relevant Evidence or adequate 'signposting' Non-Supportive/Insufficient Evidence It is noted on a number of occasions the Council provides evidence that may not be sufficient to support its own self-assessment.

For Example: Reg. 8c requires the Council to publish its timetable on the Council website. For 'Revision 1' of the LDP Timetable (Nov 2018), the Council presents an email trail which effectively outlines the intention to publish the document online, and confirmation in writing that it had been uploaded.

Q10–Can the council provide a screenshot from the Council’s website (as has been provided for the other iterations of the document) to demonstrate this?

Response

5.23 Clarification on this point as provided to Dfl by the Council in its 4 February 2022 response. In its 17 June 2022 response, Dfl did not raise any further concerns in respect of this question. Accordingly, it is assumed that Dfl requires no further clarification on this matter.

Question

Lack of supporting evidence.

Under Reg. 19, as soon as reasonably practicable after the expiry of the period of consultation on site specific policy representations, the Council is required to make a copy of counter-representations available for inspection at its principal offices (and/or such other places) and online. However, the Council has not provided any evidence to support their self-assessment (particularly in relation to online availability). This is the case with regard to the original dPS consultation and the re-consultation.

The provision of screenshots from the Council’s website at the respective time would be sufficient proof of compliance with this aspect of Reg. 19.

Q11–Can the Council provide this evidence?

Response

5.24 Clarification on this point as provided to Dfl by the Council in its 4 February 2022 response. In its 17 June 2022 response, Dfl did not raise any further concerns in respect of this question. Accordingly, it is assumed that Dfl requires no further clarification on this matter.

6 Response to concerns raised about the judgment of the Court of Justice of the European Union in cases C-197/11 and C-203/11

- 6.1 It is understood that Dfl is concerned about whether CT2(h) and (j) are compatible with the judgment of the Court of Justice of the European Union in cases C-197/11 and C-203/11 ('the Flemish Case').
- 6.2 It is first of note that this is not a point which has been raised in any representations to the draft plan strategy. This is a point which Dfl has introduced late in the day. Additionally, Dfl, whilst raising the Flemish Case, has not specified what its concerns are in terms of legal compliance. What follows, therefore, is a brief discussion of the relevance of the Flemish Case to the draft plan strategy.
- 6.3 The Flemish Case concerned, amongst other things, Article 5.2.1 of Book 5 of the Decree of the Flemish Region of 27 March 2009 on land and real estate policy ('the Flemish Decree') which in certain communes made the transfer of land and any buildings constructed thereon subject to the buyer or tenant being able to demonstrate a sufficient connection with those communes. Sufficient connection was defined in Article 5.2.1(2) as follows.

“a person shall have a sufficient connection with the commune if he or she satisfies one or more of the following conditions:

- 1. he has been continuously resident in the commune or in a neighbouring commune for at least six years, provided that that commune is also included in the list prescribed in Article 5.1.1;*
 - 2. on the date of transfer, he carries out activities in the commune, provided that those activities occupy on average at least half a working week;*
 - 3. he has established a professional, family, social or economic connection to the commune as a result of a significant circumstance of long duration”.*
- 6.4. The Court of Justice of the European Union was asked to consider whether this restriction was contrary to Articles 21 TFEU, 45 TFEU, 49 TFEU and 63 TFEU and Articles 22 and 24 of Directive 2004/38. Ultimately, the Court concluded that these provisions were breached on the facts of that case.

- 6.5. It is understood that the principal concern here is whether CT2(h) and CT2(j) fall foul of the same requirements. For ease of reference, those requirements, so far as they are relevant, are as follows.

“provided the care is delivered by or received from an immediate family member and the dwelling is in the form of an extension to an existing dwelling to form a separate but attached residential unit, or change of use of an existing building within the curtilage to form a separate residential unit.

the applicant must [...] at the time of the submission of a planning application [...] have been living and conducting their fishing operations from Mid Ulster for a minimum of the last 6 years”

- 6.6. It is not at all obvious how the Flemish Case is relevant to CT2(h) which does not contain any residency requirement.
- 6.7. The Court of Justice of the European Union in the Flemish Case concluded that the restriction imposed by Book 5 constituted a restriction on the fundamental freedoms and rights enjoyed by citizens of the Union (see the analysis at paragraphs 38 to 41). That conclusion is readily understandable in circumstances where national law imposes a blanket ban on the transfer of land except where an individual is able to demonstrate a sufficient connection. However, no comparable restriction is imposed by CT2(h) or (j). Unlike the law at issue in the Flemish Case, these development opportunities do not prohibit individuals who do not fall within the tests set out in the policy from applying for or obtaining planning permission for dwellings. Individuals who do not fall within the scope of CT2(h) or (j) are still free to apply for planning permission unlike in the Flemish Case where individuals were prohibited from transferring property. Properly understood, all that CT2(h) and (j) do are provide additional development opportunities for carers and resident fishermen in the district. It does not prohibit others from applying for planning permission. Accordingly, unlike in the Flemish Case, there is no restriction or interference with any fundamental rights or freedoms continued to be guaranteed post-Brexit.
- 6.8. Even if there were such an interference, it would be slight and capable of justification. As recognised by the Court of Justice of the European Union in the Flemish Case (see paragraphs 49 to 60), any interference is lawful if it pursues an objective in the public interest, is appropriate for attaining that objective, and does not go beyond what is necessary for obtaining that objective (see in particular paragraph 49). The justification for CT2(h) has been set out above at paragraphs 4.34 to 4.35. The justification for CT2(j) has been set out above at paragraph 4.44. These development opportunities

clearly serve legitimate aims in the public interest and are appropriate for attaining those aims. They also go no further than is necessary for obtaining those aims, as they provide development opportunities subject to the satisfaction of strict criteria which are necessary to ensure that the development opportunity provided for is sustainable and does not lead to a proliferation of dwellings in the countryside.

23 December 2021

Dear Dr Boomer

MUDC draft Plan Strategy Submission

I am writing in relation to the Council's draft Plan Strategy submission which was made to the Department on 29th May 2021. I also wish to acknowledge your recent correspondence of 5th November in which you queried the Department's progression of the Council's submission.

Following the Department's consideration of the Council's submission, there are a number of aspects of the submission which the Department is seeking further clarification on. It may be helpful if I broadly set out how the Department considers submissions made by Councils' at this point in the process.

The Council submitted its development plan document and other associated documentation to the Department under section 10(1) and 10(3) of the Planning Act. In doing so the Council has confirmed under Section 10(2) that it has complied with requirements contained in the Regulations and it considers that the development plan document is ready for Independent Examination.

In more recent correspondence on the 29th November the Council stated that the Department's representation has been taken into account as part of the submission. It is however, in the Department's oversight role that clarification is being sought at this time.

Under s. 10(4) the Department must, unless it intends to make a direction under section 11(2) or 15(1) of the 2011 Act, cause an IE to be carried out. To establish whether an IE should be caused, an overview of the submission material is undertaken.

There are broadly three aspects to the overview; whether the development plan document has been prepared in accordance with relevant procedures; whether there are any fundamental issues which appear to undermine the implementation of the RDS/SPPS; and whether there are obvious gaps in the evidence base.

The Department must ensure that on balance there is sufficient and satisfactory information to enable the PAC to undertake an IE, in matters of process and procedure.

It is important to note that this overview is not a first sift of an assessment of soundness which is the remit of the PAC/Independent Examiner. Furthermore in the event that the Department causes an IE, it is made clear that this is not a determination on the soundness of the DPD.

The Department seeks this clarification to confirm how the Council have considered certain aspects of the Plan with reference to the evidence provided in the submission. In reviewing the documentation submitted by the Council, the Department seeks clarification in relation to a number of aspects as set out in the Appendices to this letter under the following areas; Legal/Procedural; Housing/HGI; Economic Development and Development in the Countryside as it is acknowledged that these are important strategic elements of the draft Plan Strategy.

The Department is mindful however that on receipt of any submission or clarification - any further consideration of these aspects at this stage of the process would not be appropriate as this is the purpose of the IE under Section 10 (6) of the Act.

I appreciate that carrying out this overview of the Council's submission has taken longer than initially anticipated, however, pending your response the Department will progress with consideration promptly.

This letter has been copied to Katrina Godfrey and Adrian McCreesh for information.

Yours sincerely

ALISTAIR BEGGS
Director of Strategic Planning

APPENDIX 1 – CLARIFICATION QUESTIONS - HOUSING SECTION

APPENDIX 2 – CLARIFICATION QUESTIONS - ECONOMIC DEVELOPMENT/ADDITIONAL IN THE COUNTRYSIDE

APPENDIX 3 – CLARIFICATION QUESTIONS ON RESIDENTIAL DEVELOPMENT IN THE COUNTRYSIDE

APPENDIX 4 – CLARIFICATION QUESTIONS ON LEGAL/PROCEDURAL COMPLIANCE

APPENDIX 1 – CLARIFICATION QUESTIONS - HOUSING SECTION

HGI Application and Housing Need

Updated HGIs were published by the Department in Sep 2019. Based upon more recent 2016-based household projections and other updated data they cover the time period 2016-2030. The update indicates 10,300 units for Mid Ulster District Council (MUDC) however Council has retained the existing draft Plan Strategy housing figure of 11,000. MUDC303' Urban Capacity Study' appears to the Department to be the main evidence paper considering the revised HGI. It concludes that the figure of 11,000 (derived from extrapolating the previous HGI of 9500 for the period 2012 – 2025) remains sound because it is 'not a significant reduction' on the Draft Plan Strategy housing figure.

Q1- Can the Council direct DfI to any submitted evidence clarifying why, despite being based on the now superseded 2012-based HGI, the draft housing requirement of 11,000 represents an equally robust approach to one based upon the more recently prepared 2016-based HGI.

Q2 - Where in the submitted evidence has the Council considered what residual housing need remains as of the date of submission once completions from 2015 – 2020 are taken into account?

Distribution of Housing to countryside

The Council's Housing Allocation paper (MUDC209 July 2015) provides allocations for the urban and rural area for 2015-2030. It is said to be based on the most recent household projections available at that time (provided by NISRA March 2015). The paper advises that the position would be revisited and the paper updated when HGIs are revised. (Paragraphs 1.1 & 1.2). There is a reference within the POP to a Housing Allocation position paper addendum dated 2016.

Q3. Can Council direct DfI to the 2016 'Housing Allocation' addendum referred to in the POP or any revisions or updates of the information presented in this Housing Allocation Paper?

The Council proposes an allowance equivalent to 40% of the 'Council's HGI' to account for development that will take place under countryside policies. This is said by the Council to reflect the existing proportion of households in the countryside of the district which is presently 41% (MUDC237). The Council's proposal is that applications will be monitored and a plan review initiated when approvals reach a level equivalent to 40% of the HGI. In the draft Plan Strategy the allowance to the countryside is therefore in addition to the planned housing allocation to settlements. The Department would again highlight the RDS direction (page 43) which states that the HGI figure is for the whole council area.

The Department would also draw attention to the Council's own statement at paragraph 6.16 of its 2014 Housing Paper (MUDC202) that "**Within** the HGI figure (the Department's emphasis) *an allowance will also have to be made for dwellings in the Countryside*". It therefore appears that the Council previously accepted that the housing need indicated by the HGI related to the whole district, including the countryside, and not just part of it.

Q4 - It would assist the Department's consideration if the Council can refer to the submitted evidence explaining the change in approach between the 2014 Housing Paper and the Draft Plan Strategy with regard to the 40% allowance to the countryside within the context of the HGI figure? An explanation as to why the allowance to the countryside changed from being within the HGI to being outside it?

Q5 – The Council acknowledges the relevance of implementation rates elsewhere in the submitted evidence and indicate that the rate is between 90-95%. As approvals do not equate to completed dwellings can the Council advise why these are considered to be a robust indicator of whether the 40% ‘cap’ is reached and a review initiated?

Q6 - Can the Council highlight where in the submitted evidence explanation is provided of how the Council intends to monitor and implement the 40% allowance in practice and how this may feature in any plan review?

Paragraph 5.5 of the later Policy Review ‘Sustainable Development in the Countryside’ (MUDC228) indicates that ‘there is a requirement’ for 4380 rural houses over the plan period (based on 40% of 10,950). The paragraph draws upon approval data for only the period 2012 – 2014 which shows that existing rural policy permits 220 dwellings per year over this period. The Council apply a 90% ‘implementation rate’ and estimate this would permit 3,300 ‘rural dwellings’. The Council conclude that, taking account of the ‘requirement’ of 4380, there is therefore scope for 1000 additional ‘rural dwellings’ over the plan period. The Council state that while these figures are indicative ‘they provide justification for relaxation of the rural policy in the new LDP’.

Also noted is page 225 of the consultation report (MUDC 114) which contains more recent data on approvals indicating an average approval rate for 2016 – 2019 of 259 per annum. If applied over the plan period the Council state this would result in 3,885 rural dwellings, 585 more than the amount previously estimated by the council in the rural policy review paper (MUDC228)¹. As a result the scope for 1000 additional ‘rural’ dwellings previously identified by the Council is reduced by more than half to 485. It is therefore clear that the number of approvals varies from year to year in response to a range of factors, not just policy.

Q7 –From the above-mentioned figures it appears that the scope to further increase countryside approvals in order to achieve the Council’s ambition of 40% of future housing growth is substantially less than the 1000 previously estimated by the Council. In view of this, has the Council provided evidence of why the proposed countryside policy relaxations remain an appropriate response to the gathered evidence?

Q8 - The evidence shows that existing countryside policies in PPS21 and the SPPS provide flexibility for approval rates to increase over time without the need for a relaxation of policies, could the Council direct DfI to the justification for the further relaxations proposed?

Q9 – As the number of countryside approvals can vary year-on-year, can the Council advise why its original estimate of a ‘requirement’ for 1000 additional dwellings was based upon only 2 years of approval data?

Q10 – Did the Council attempt to obtain information in relation to the number of single and replacement dwelling completions in the countryside of the district? If this is provided in the submitted evidence can the Council direct the Department to this?

Allocation to settlements.

The Council state that at present 27% of their district’s households are located within the three main towns (identified as Hubs/Local Hubs in the RDS). The Council propose to focus growth in these settlements by providing opportunities in the Local Policies Plan for ‘up to 60%’ of the HGI

¹ To note: There appears to be inconsistency in application of implementation allowance.

to be accommodated there. The minimum threshold beneath which the Council will act to release more land is 30%.

It is unclear what has informed the upper ambition of 'up to 60%'. It appears it may have been intended to reflect the regional RDS target of 60% of new housing to be located on appropriate brownfield sites within the urban footprint of settlements greater than 5000 population, although this relates to brownfield and includes more than just Hub/Local Hub settlements (MUDC102SA). It may also be informed by the Council's evidence that unimplemented approvals and zonings within the main towns are sufficient to achieve 54% of the housing need of 11,000 identified by the plan (MUDC116 POP Consultation Report).

The Council's POP originally identified Option 1 'equitable split' as the preferred option, indicating 40% of the HGI to the rural area, 33% to settlements and 27% to the main towns. The POP consultation report also indicates a recommendation to retain the preferred 'equitable split' approach to housing allocation. The SA report (MUDC102) makes reference to a 4th option 'based on the RDS 60% target but without a specific allocation to the countryside' however this is the first point in the plan preparation process where such an option is introduced and selected.

The council state that the Housing Local Indicators (HLI) are not a table of allocations but instead an '*indicator of growth*' to ensure there is adequate land in each settlement to meet targets set by the RDS'.

The Department also notes the Council approach in the HLI of identifying a range of growth scenarios for each of the main towns of between 30 – 60% of the housing requirement of 11,000. The indicated housing growth is therefore between a range 3,285 and 6589 units which is a difference of 3284 dwellings or approximately a third of the overall housing allocation A further 33% of the allocation to the remaining settlements of the district.

Taking account of the fact that the allowance to the Countryside is entirely outside the HGI (equivalent to 40% of that indicator) there appears to be 7% of the HLI to settlements that is unaccounted for.

It appears that the HLI is informed solely by the proportion of the districts population that currently reside within a given settlement. In their consultation report document (MUDC114) the Council however indicate that the strategic settlement evaluation has identified the services contained within settlements and has informed the approach to the allocation of housing.

In relation to the local towns of Maghera and Coalisland the Consultation Report (MUDC114, April 2021 page 053) indicates these settlements '*will end up accommodating more growth than their percentage share*'. The Council state this will be a matter for the Local Policies Plan. Council have not indicated how much development over and above the indicated allocation they expect these settlements to accommodate. In light of this can the Council provide clarification on the questions below:

Q.11- Can Council clarify from within the submitted evidence the basis for identifying a range of housing growth between 30% - 60% of the HGI in respect of the main Hub and Local Hub settlements of Cookstown, Dungannon and Magherafelt?

Q12 - Can the Council direct DfI to where, in the submitted evidence, the reasoning for the apparent change of approach to distributing the housing requirement is set out? (i.e. from the 'equitable split' favoured at POP stage to the approach eventually adopted in the draft Plan Strategy)

Q13 – Does the range of growth indicated to the hub settlements provide sufficient clarity and certainty on the amount of housing that will take place over the life time of the plan.

Q14. - In order to assist in the Department’s assessment of the submission can MUDC provide clarification as regards the 7% of the Housing Local Indicator not accounted for in allocation to settlements?

Q15 - Can the Council clarify the status of the Housing Local Indicators and further explain how existing commitments have been taken into account in the allocation of growth to settlements?

Q16 – Can the Council clarify what evidence, other than a settlements existing share of the district’s population, informed the HLI to settlements. In particular, can clarification be provided on whether the Strategic Settlement Evaluation, including assessment of environmental capacity, has influenced these choices?

Q 17 - Can the Council explain the statements within the public consultation report that the LPP may facilitate a different level of growth from that indicated by the Housing Local Indicator in the draft PS? In light of the Planning Act 2011 which requires that the LPP is consistent with the PS (Section 9)

The Council, in their consultation report on representations and counter-representations (MUDC14, p61; p65), state they are not allocating 30% of the HGI to these settlements but instead making provision to accommodate up to 60% of growth while ensuring that land supply does not fall below 30%. The Council also indicate in their consultation report that more land will be released should the supply fall below that necessary to accommodate 30% of the HGI.

In its consultation report on reps and counter-reps (MUDC114) the Council state that by providing opportunities for 60% of the districts HGI to be located in the three main towns there will “inevitably be a growth in their population over the plan period” (page 29).

The most recent housing monitor report for MUDC indicates that at 1 April 2020 there was a remaining potential of 1514 units in Cookstown, 2597 units in Dungannon and 1496 units in Magherafelt. This gives a total of 5607 units. Based on the average build rate for the last 5 years there would therefore appear to be approximately 29 years supply in Cookstown; 41 years in Dungannon and 18 years in Magherafelt. There is therefore approximately 29 years supply based on the current supply and average build rate across all 3 hubs

The table below contains data extracted from the Council’s Housing Monitor evidence. It shows the number of completions in Hubs settlements over a 5 year period. The Council may wish to conduct its own assessment to confirm these figures.

	2015 - 2016	2016- 2017	2017 – 2018	2018 – 2019	2019 – 2020	Average
Cookstown	18	6	105	65	66	52
Dungannon	47	9	61	17	179	63
Magherafelt	13	14	231	32	125	83
Total	78	19	397	114	370	196

The Council’s minimum target of maintaining housing land availability sufficient to achieving 30% of the Council’s housing requirement means that over the lifetime of the plan, as a minimum, sufficient housing land should always be available in hubs to accommodate at least 3,300 units. According to the latest Housing Monitor at 1 April 2020 there was housing land sufficient to

accommodate 5607 units. Therefore the additional capacity available over and above the 30% minimum suggested by the Council is 2307. Based upon the average completion rates within the hubs over the last 5 years (see table above) it would therefore appear that there is approximately 12 years additional supply before the 30% threshold might be triggered (if current completions rates are sustained). This would most likely take the plan beyond its stated end date.

By extrapolating the average figure of 196 units per annum over the remaining 10 years of the plan the anticipated number of completions over the remaining period can be estimated at approximately 1960 units. This is less than the approximately 2300 unit margin (April 2020) that currently exists over and above the 30% 'trigger' point. This also indicates that if current completion rates are sustained the 30% threshold appears unlikely, within this plan period, to trigger the need for a review and/or the release of additional land in the hubs. Furthermore when existing completions in the years 2015 – 2020 are added to this projection the total number of dwellings that can be expected to be completed over the plan period is approximately 2940. Expressed as a percentage of 11,000 this is equivalent to approximately 27% which aligns with the existing proportion of households in hubs as a percentage of the total number across the district. The current evidence therefore appears to indicate that, based on current completion rates, the Council will likely not achieve the objective of strengthening the hubs by increasing the proportion of households located there.

Based upon current data it appears that the draft Plan Strategy is unlikely to deliver the minimum objectives in respect of the Hubs and will likely still result in a proportionally higher share of future growth being directed to the countryside of the district. This appears not to support of a strengthening of the Hubs in comparison to other parts of the district, including the countryside.

In light to the above, can the Council give further consideration to the following:

Q18 - Completions in the main towns (based on recent completion rates) appear likely to be approximately equivalent to 27% of the planned housing requirement of 11,000. Therefore, are there any other measures, in addition to the possible release of more land, that's the Council considered to increase the % share of the district wide housing need accommodated in the hubs?

Q19- Can the Council please explain the reason for the contrasting approach between Hubs and the Countryside where a 'shortfall' in approvals below 40% 'cap' of the HGI is presented as justifying numerous further policy relaxations there?

Q20 - Can Council direct DfI to submitted evidence that further explains how the approach to the allocation of growth to the three main towns is in line with RDS regional policy objective of growing the population of the Hubs within the council area?

Phased release of Land

Q21 – Can the Council explain the phased approach to the release of housing zonings and how the high level of commitments outlined within the Draft Plan Strategy is consistent with the Councils approach?

Q22 – The Council identify the need for housing land to be identified as Phase 1 and Phase 2 respectively, however did the Council consider the need for a strategic policy relating to both housing and employment land that would align the release of both in accordance with need/infrastructure availability?

APPENDIX 2 – CLARIFICATION QUESTIONS - ECONOMIC DEVELOPMENT/ADDITIONAL IN THE COUNTRYSIDE

Further opportunities for new economic development in countryside despite significant quantity of undeveloped economic development land in main Settlements/Hubs.

The Council's own evidence indicates a significant amount of land zoned for economic development purposes within extant area plans remained undeveloped. The Council's latest information is contained in their 'Industrial Monitor October 2018' (MUDC302) which indicates that, of the land zoned for 'industry' in the Cookstown Area Plan 2010 some 71.5% remains undeveloped. Of the land zoned in the Dungannon and South Tyrone Area Plan 2010 62% remains undeveloped. Finally of the land zoned in the Magherafelt Area Plan 2015 the vast majority, 94%, remains undeveloped.

MUDC have adopted a more permissive approach to new economic development in the countryside, in particular draft Policy ECON2 (Economic Development in the Countryside). This policy sets out an extensive list of opportunities (criteria a-j). Some of these are based on regional policy set out in the SPPS and PPS4 PED 3 – 6, however Council indicate in their Economic Development Policy Review Paper (MUDC219) that current policy does not reflect the local circumstances in Mid Ulster and greater flexibility (e.g. PED 5 and 6) would allow proposals to be determined on their merits. Council also indicate (MUDC paragraph 4.27) that in areas where there is a high concentration of existing rural industry, 'it could be argued' that rural character has already been altered or indeed in some cases undermined. Council also state that regional policy does not recognise "home grown industries and businesses" are an important aspect of employment and economic prosperity in the area.

Q1 - RDS (RG1) and the regional strategic objectives and policy of the SPPS (para 6.66 and 6.88) support economic development of an appropriate nature and scale however the aim is to direct new economic development opportunities to the Hubs or higher performing town/city and to limit, for rural amenity and wider sustainability objectives, the level of new building for economic development purposes outside of settlements. Can the Council direct the Department to evidence within the submission which outlines how draft policy ECON2, is supportive of strategic guidance contained within the RDS and SPPS?

Q2. Furthermore, in providing clarification, can the Council direct the Department to evidence within the submission outlining how the approach to new economic development in the countryside (ECON2) is supportive of the Council's own plan objectives including SPF2 (to focus growth within the three main towns/Hubs of Cookstown, Dungannon and Magherafelt) and SPF3 (to consolidate the role of Coalisland and Maghera as of the draft Plan Strategy)?

Q3 – The council state that there is already a proliferation of existing rural enterprises meaning that in some locations 'it could be argued' that rural character has already been altered/undermined. Can the Council please highlight what evidence within the updated Landscape Character Assessment Review has informed the Councils view in this regard which provides part of the justification for RIPA designation?

Q4 – Can the Council clarify how the proposed extension of the industrial footprint at the proposed Tullyvannon RIPA is consistent with the stated purpose of RIPAs to consolidate existing industry?

Q5 – Is the Council aware how many other locations within the MUDC district would meet the criteria for RIPA designation set out within the draft Plan Strategy at paragraph 4.37? Furthermore do the findings of the updated Landscape Character Assessment Review support the designation of the RIPAs generally?

Methodology for arriving at the number of jobs, quantity and distribution of economic development land in main settlements/Hubs & local towns.

In arriving at a minimum requirement of 8,500 jobs the Council has developed their own methodology which draws upon data from the 2011 Census as well as NISRA 2014-based population projections. The methodology also includes an adjustment to account for the aim of reducing the proportion of the working age population classified as ‘economically inactive’ (document ‘Enabling Success: Supporting the transition from economic inactivity to employment sets a target of 70% of the working age population being economically active by 2030). While the addendum took account of the 2014 population projections 2016-based and 2018 based projections have been published by NISRA in April 2018 and 2020 respectively.

The Council state at paragraph 5.10 of Position Paper 3 state “the calculated jobs figure is sensitive to economic changes and population projections changes”. Accordingly the Council state that any target set should be kept under review.

Q6. In providing clarification, can MUDC direct the Department to any evidence within the submission which shows consideration by Council of the impact of any later projections?

The objective of the plan states that it aims to facilitate the creation of at least 8,500 new jobs by 2030 at a variety of locations accessible to all members of the community, including those without a private car. The Council estimate 170 hectares of land is required, based on a ratio of 50 jobs per hectare. The council acknowledge this assumes all new jobs will be supported on zoned employment/industrial (paragraph 6.3 of Position Paper 3). Accordingly 170 hectares results in what the Council describe as a “degree of over zoning” allowing the plan to provide a choice of sites in different locations to encourage economic growth.

It appears that the figure of 50 jobs per hectare is based upon a survey of employment on industrial estates in Omagh and Fermanagh carried out by Planning Service in 2006.

Q.7 – Noting that the methodology will result in a degree of over-zoning did the council consider the application of a phased approach to the release of economic development land similar to the approach taken in respect of housing land?

In terms of the distribution, the Council indicate that the 170Ha should be focused in the main settlements with the plan indicating that 60Ha will be zoned in Dungannon, 55Ha in Cookstown and 55Ha in Magherafelt. The Council indicate that this approach is supportive of the Draft Plan Strategy SPF2 which seeks to strengthen the role of the Hubs as main centres of employment. Council indicate that this approach supports the RDS RG1 (to ensure an adequate supply of land to facilitate economic growth) and SFG11 (promote economic development opportunities at the Hubs).

Q8. In providing clarification, can MUDC direct the Department to evidence within the submission showing consideration by the Council of how its approach to economic development

in the countryside will promote economic development at the hubs, in line with SFG11 of the Regional Development Strategy?

Distribution to Local Towns Maghera & Coalisland

The council do not propose to make a specific allocation of economic development land to Coalisland and Maghera as it is considered in the main that these would be privately led. The Settlement Appraisals prepared by the Council for Coalisland and Maghera identify extant industry and business zonings. Maghera currently has 7.6 hectares of land zoned for industry and economic uses, while Coalisland has 19 hectares of land zoned for this purpose.

In response to the public consultation it appears that the MUDC consider this to be in accordance with the objective of focusing economic growth in the main settlements /Hubs. The Council state that economic development land will not be zoned in the local towns for flexibility reasons.

MUDC however indicate, within its consultation report, that economic development land may be zoned at LPP stage to protect existing economic activity from competing uses or provide opportunities to meet local need. If the council were to make an allocation to the local towns this would likely be in addition to the 170 Ha already allocated across the three hubs.

Overall this approach appears to differ from that of the draft Plan Strategy which indicates (para 4.21) that no specific allocation will be made to the two local towns.

Q9. In providing clarification, can MUDC direct the Department to evidence within the submission which shows consideration by Council as to reason for the change of approach between publication of the Draft Plan Strategy and subsequent Public Consultation Report for Coalisland and Maghera?

Evidence used to inform and justify policy changes with regard to Economics Development in MUDC.

The main evidence papers supporting the Council's proposed approach to Economic Development include Position Paper 3, Employment and Economic Development (Feb 2015); Economic Development Policy Review (Feb 2016); Position Paper 3- Addendum, Employment and Economic Development (in response to NISRA May 2016 pop projections); and Industrial Monitor October 2018 – Report on Summary of Findings (as at Oct 2018). Other evidence papers are also relevant.

Other than an additional short paper to consider the implications of Covid-19 on the draft Plan Strategy – March 2021 (MUDC 403) there appears to have been no review or update to the policy paper/ addendum highlighted above.

The Covid paper addresses the impact of the pandemic on the economic development and town centre growth. The paper does not draw upon any updated data sources and still refers to the NISRA census of employment 2014. It concludes that the figure of 8500 jobs remains relevant and that the figure of 50 jobs per hectare used to determine the land requirement, although lower than the existing average density for jobs in Mid Ulster of 65- 75 jobs per hectare, is more suited to the continuing requirement for social distancing.

The Council has continued to use the NISRA census of employment 2014 despite other sources of evidence being available regarding employee jobs and the profile of employment for the district (e.g. up-to-date Business Register and Employment Survey prepared by NISRA).

Q10. In order to aid the Department's consideration of the MUDC submission can Council, through directing Dfl to evidence within the submission, demonstrate how it has taken account of any updated data sources to support its approach to employment and economic development, to that presented in the papers of 2015, 2016, 2018 and 2021 (as referred above)?

APPENDIX 3 – CLARIFICATION QUESTIONS ON RESIDENTIAL DEVELOPMENT IN THE COUNTRYSIDE

Evidence presented by MUDC indicated that rural dwellings approved between April 2008 & March 2014 in Cookstown were 793, in Dungannon were 1385 and in Magherafelt were 993. It appears that Reserved Matters applications relating to an Outline application decided within the study period are not included, applications seeking to renew an existing approval previously decided within the study period are not included and where there is more than one application/appeal decision relating to the same site within the study period, only one decision is included.

Q1. In order to assist Departmental consideration of the MUDC submission, can Council please direct the Department to evidence which would provide clarification of the Council's adopted methodology in using full and reserved matters approvals in 2 years (2012 – 2014) only?

Q2. In order to facilitate Departmental consideration of the MUDC submission, can Council please direct the Department to evidence providing quantification of housing completions for this period?

The Development Pressure Analysis paper (MUDC212 - September 2015) provides an analysis based on all Outline, RM and Full applications. Paragraph 2.12 states specifically that:

"The trends highlighted above are largely based on a desktop assessment only. It is suggested that a more detailed assessment, including complementary field survey work would be required in order to justify the introduction of a stricter policy regime in certain areas, or relaxation in others as the case may be".

Q3. In order to aid the Department's consideration of the MUDC submission can Council, through directing DfI to evidence, demonstrate how the results of further field survey work undertaken by the council has helped support the proposed policy approach?

Policy CT1 of MUDC Draft Plan Strategy contains what appears to be a broad exception to the regional strategic policy direction to cluster/consolidate where there are environmental or operational reasons why this is 'impracticable'.

Q4. To aid the Department's consideration of the MUDC submission can Council, through directing to the submitted evidence, demonstrate how this approach takes account of the regional strategic policy approach of the SPPS, which applies the general principal of clustering, consolidating and grouping to all development in the countryside (with limited exceptions in relation to Dwellings on Farms)?

As a general policy, CT1 applies to all applications for residential development in the countryside. On this basis it represents a significantly different approach to the examples set out by the Council. The SPPS sets out range of specific opportunities within the countryside, consistent with regional strategic objectives. Justification for additional opportunities outlined by MUDC in the Draft Plan Strategy must be based on evidence presented by the Council. The SPPS states that other types of development in the countryside can be considered in line with the other policies set out within the SPPS.

The Department notes the MUDC statement:

“The SPPS clearly provides for housing in the countryside, (our emphasis) along the lines of which the Council has adopted new policies. We have however provided for additional exceptions. Mid Ulster has a high rural population – 40% of our households live in the Countryside. Prior to the introduction of PPS 14 growth in the countryside was approximately 1100 per year. Now we are currently experiencing figures of approximately 270 per year, based on current policy.”

Q5. In order to aid the Department’s consideration of the MUDC submission can Council, through directing DfI to submitted evidence, demonstrate how the above Council Statement is reflective of the SPPS regional approach?

Q6. In order to facilitate Departmental consideration of the MUDC submission, can Council please direct the Department to evidence estimating the likely impact of additional opportunities under proposed policy CT2 in terms of the potential number of additional development opportunities in the countryside? Has the Council considered the impact of these measures in the context of the HGI 40% allowance in respect of residential development?

Q7. In order to facilitate Departmental consideration of the MUDC submission, can Council please direct the Department to evidence explaining the basis for the policy wording and in particular if it has considered the extent to which policy criteria CT2(F) may compromise criteria CTY2(E)?

CT2 (h) of the Plan Strategy document provides draft policy for provision of a dwelling for a carer or someone availing of care. MUDC states that 10+% of the population rely on a degree of care/social benefits of extended families and within the Consultation Report advise that “the Department has failed to recognise the serious structural changes occurring in society”.

In addition to the principle of this policy, it is noted that the approach relies on the use of occupancy conditions that the council have acknowledged elsewhere within their consultation report are “against the ethos of existing rural policy which is based on minimum use of occupancy conditions”.

Q8. In order to facilitate Departmental consideration of the MUDC submission, can Council please direct the Department to evidence underpinning the inclusion of Policy CT2 (H) of the Draft Plan Strategy and how Council envisage the implementation, assessment and enforceability of this proposed policy?

CT2 (j) of the Plan Strategy document provides draft policy for provision of a dwelling for the holder of a commercial fishing licence. It appears that there are 79 licenced permit holders currently residing in MUDC, which amounts to 0.77% of the revised HGI figure of 10,300. It also appears that these dwellings will be restricted for MUDC residents.

Q9. In order to facilitate Departmental consideration of the MUDC submission, can Council please direct the Department to evidence underpinning the need for the inclusion of Policy CT2 (H) of the Draft Plan Strategy and how Council envisage the implementation, assessment and enforceability this proposed policy?

Q10. In order to facilitate Departmental consideration of the MUDC submission, can Council please direct the Department to evidence which outlines the operational requirements of the job

that necessitate being located in the countryside adjacent to the Lough, as opposed to a nearby settlement for example?

The draft policy supports strategic policy SPF 7 'Support Rural Regeneration in Remoter Areas through the Designation of Dispersed Rural Communities (DRCs). The SPPS makes no provision for DRCs to be designated however it is acknowledged that the district already has 3 existing DRCs. The J&A states that some rural areas display symptoms of economic and social disadvantage and that in the interests of promoting rural regeneration the council has designated DRCs.

Q11. In order to facilitate Departmental consideration of the MUDC submission, can Council please direct the Department to evidence in relation to the economic and social disadvantage that underpins their continued designation, and the identification of any new DRC designations that may be brought forward.

APPENDIX 4 – CLARIFICATION QUESTIONS ON LEGAL/PROCEDURAL COMPLIANCE

Erroneous References

MUDC405 (Soundness Self-Assessment Checklist) appear to make inaccurate references to documents.

For Example:

- Page 3 of MUDC405 (re Soundness Test P1 regarding the LDP Timetable) signposts to MUDC409 for details of compliance with the LDP Regulations. However, MUDC409 does not appear within the Council's Document Library. It is noted that MUDC407 presents the Council's assessment of compliance with the LDP Regulations.
- Page 4 of MUDC405 (re Soundness Tests P1 & P2 and the Statement of Community Involvement) signposts to MUDC408 for details of compliance with the SCI. However, MUDC408 presents a report on the dPS and linkages to the Marine Plan. It is acknowledged that the Council's assessment of compliance with the SCI is contained within MUDC406.
- Page 5 of MUDC405 (re Soundness Test 2 and POP consultation) signposts to MUDC409 for details of the Council's compliance with the LDP Regulations. As stated above, there is no such reference, and that MUDC407 appears to present the Council's intended assessment. It is noted that the same incorrect reference is made on page 7 of the document in relation to the consideration of representations to the POP.

Q1. It appears that these documents may have been renumbered/reorganised after the Soundness Self-Assessment has been completed – can the council clarify?

Notification to consultation bodies throughout LDP Preparation - Reg 10(c), Reg 15(c), Reg 17(e)(f)

- Councils are required to demonstrate they have notified consultation bodies, and whilst sample correspondence is included (and noted within MUDC407), no distribution lists have been provided for who this was issued to (i.e. consultation bodies) for each of these regulations.

Q2. Can the Council provide a copy of distribution lists to satisfy these regulations?

Council approval of LDP Timetable - Reg 7(1)(a)

- The Council advises that the original draft of the LDP Timetable was approved by the Council and subsequently submitted to the Department for its agreement. Following advice from the Department, a number of amendments were made to the Timetable, which was resubmitted to and agreed with the Department.
- It is unclear from the evidence included within the submission documents, whether the Council was made aware of the amendments made to the document, or if the amended document was approved by resolution of the Council prior to resubmission to the Department.

Q3. Can the Council provide clarification regarding this matter?

Local Advertisements - Regs. 8b, 10d, 15d, 17d

- The Council has provided copies of public notices placed in local newspapers and the Belfast Gazette. However, it is noted that the publications appear to vary (at different stages of the process).
- It is noted that the Council's publicity arrangements for the LDP documents have changed each time the SCI has been amended. Generally, the adverts provided are from publications as specifically stated in the Council's SCI. However, not all adverts (from all publications) have been provided.
- In order to confirm that the Council has complied with its SCI(s) in the context of the requirements for LDP publicity in accordance with the LDP Regulations, could the Council to provide copies of **all** advertisements placed in local newspapers.

Further information is set out below in relation to the local advertisements requirement

Availability of timetable - Reg 8(b)

- The Council's SCI (May 2016) sets out public notices were to be published in the Mid Ulster Mail and Tyrone Courier re the LDP Timetable. However, the advertisements provided by the Council originate from neither of these publications.

Q4. Can the Council confirm which publications the public notices were placed, and provide copies of those advertisements?

- The Council's SCI (October 2018) sets out public notices were again to be published in the Mid Ulster Mail and Tyrone Courier. **Appendix 16 of MUDC407** provides advertisements that were placed in the Derry Post (4/11 Dec 2018), and in the Mid-Ulster Mail (6/13 Dec 2018), No notice has been provided to show advertisement specifically in the Tyrone Courier.

Q5. Can the Council confirm those publications within which public notices were placed, and provide copies of those advertisements that have not already been submitted?

Availability of the preferred options paper - Reg. 10d

- The Council's SCI (May 2016) states public notices were to be published in the Mid Ulster Mail, the Tyrone Courier and the Belfast Gazette. No notice has been provided to show advertisement specifically in the Mid Ulster Mail, however copies of public notices placed in the Mid Ulster Observer have been submitted. The Department understands the Mid Ulster Observer and Mid Ulster Mail are two separate publications.

Q6. Would the Council be able to provide a copy of this advert from Mid Ulster Mail or provide clarification on this point?

Availability of Dps - Reg 15d

- The Council's SCI (October 2018) states that public notices were to be placed in the Mid Ulster Mail, Tyrone Courier, Tyrone Times, Derry Post, Impartial Reporter and the Belfast Gazette. However, only those notices placed in the Tyrone Courier and Belfast Gazette have been provided as evidence.

Q7. Is the Council able to confirm that public notices were placed in the remaining publications in accordance with the SCI in effect at that time?

- When the re-consultation was undertaken, it is noted that the Council's SCI (Oct 2018) states that public notices were to be placed 'in the Mid Ulster Mail, Tyrone Courier, Tyrone Times, Derry Post, Impartial Reporter and Belfast Gazette.'. Only those notices placed in the Mid Ulster Mail and Belfast Gazette have been provided by the Council in its submission documents.

Q8. Can the Council confirm if there were notices placed in any other publications, and if so, could copies of those advertisements be provided?

Availability of representations on a DPD - Reg 17d

- **Appendix 37 of MUDC407 and MUDC603** includes the public notices placed in the Belfast Gazette (14 & 21 June 2019), Tyrone Courier (12 & 19 June 2019), and County Derry Post (11 & 18 June 2019). These notices detail the availability of representations for inspection, and the places and times that they can be inspected.
- The Council's SCI (October 2018) states that public notices were to be placed in the Mid Ulster Mail, Tyrone Courier, Tyrone Times, Derry Post, Impartial Reporter and the Belfast Gazette. However, only those notices placed in the Tyrone Courier and Belfast Gazette have been provided as evidence.

Q9. Is the Council able to confirm that public notices were placed in the remaining publications in accordance with the SCI in effect at that time?

Provision of Relevant Evidence or adequate 'signposting'

Non-Supportive/Insufficient Evidence

It is noted on a number of occasions the Council provides evidence that may not be sufficient to support its own self-assessment.

For Example: **Reg. 8c** requires the Council to publish its timetable on the Council website. For 'Revision 1' of the LDP Timetable (Nov 2018), the Council presents an email trail which effectively outlines the intention to publish the document online, and confirmation in writing that it had been uploaded.

Q10. Can the council provide a screenshot from the Council's website (as has been provided for the other iterations of the document) to demonstrate this?

Lack of supporting evidence.

- Under Reg. 19, as soon as reasonably practicable after the expiry of the period of consultation on site specific policy representations, the Council is required to make a copy of counter-representations available for inspection at its principal offices (and/or such other places) and online. However, the Council has not provided any evidence to support their self-assessment (particularly in relation to online availability). This is the case with regard to the original dPS consultation and the re-consultation.

- The provision of screenshots from the Council's website at the respective time would be sufficient proof of compliance with this aspect of Reg. 19.

Q11. Can the council provide this evidence?

Annex 1B – Council response to DfI dated 4 February 2022

APPENDIX 1 – HOUSING SECTION

Q1 – Can the Council direct DfI to any submitted evidence clarifying why, despite being based on the now superseded 2012-based HGI, the draft housing requirement of 11,000 represents an equally robust approach to one based upon the more recently prepared 2016-based HGI

The revised HGIs were published in September 2019, approximately 7 months after the publication of the draft Plan Strategy. Given the relatively small adjustment to the Mid Ulster HGI, the revised indicators would result in no change to the status of any settlement within our settlement hierarchy in terms of housing requirements compared to existing commitments.

We note that when the revised HGIs were published, DfI clearly stated on the 25th September that the indicators did not forecast exactly what would happen and that they were policy neutral estimates. Given this and the minor nature of the change in the HGI for Mid Ulster, the Council took the view that the revised HGI's would not necessitate a change in the figure of 11,000 new homes contained within the draft Plan Strategy. This was laid out in a paper that was agreed by the Planning Committee on 30th October 2019. Paper is attached to this response.

Q2 - Where in the submitted evidence has the Council considered what residual housing need remains as of the date of submission once completions from 2015 – 2020 are taken into account?

The draft Plan Strategy considers housing need over the notional plan period 2015-2030 and also clearly shows residual zonings and permissions. The Housing monitor is updated regularly and the most recent report on the housing monitor was submitted as evidence in the Council's submission (MUDC 305). This clearly shows that the majority of settlements have no residual housing need and even in the hubs there is no significant housing need required in order to meet the need of 30-60% of new housing being located in these locations.

The most up to date housing monitor figures will be again provided prior to IE and will also form part of the monitoring process of the document.

Q3 - Can Council direct DfI to the 2016 'Housing Allocation' addendum referred to in the POP or any revisions or updates of the information presented in this Housing Allocation Paper?

The paper is attached with this paper. This paper informed the 11,000 figure for new housing which was included in the POP and was subsequently agreed by members on the 27th September 2016. This paper was not submitted and the most recent HGI which has been considered by Members in the paper referenced in the answer above and agreed by Committee on 30th October 2019.

Q4 - It would assist the Department's consideration if the Council can refer to the submitted evidence explaining the change in approach between the 2014 Housing Paper and the Draft Plan Strategy with regard to the 40% allowance to

the countryside within the context of the HGI figure? An explanation as to why the allowance to the countryside changed from being within the HGI to being outside it?

The POP put forward the case for a balanced approach in relation to housing local indicators (option 1) which identified that the amount of housing in the open countryside should not exceed 40%. In relation to additionally, this relates to the 3 hub settlements.

This has not changed, as per DFIs claims. The approach put forward in the DPS will allow the hubs to grow in line with existing commitments whilst allowing the rural population their fair share of opportunity.

Q5 - The Council acknowledges the relevance of implementation rates elsewhere in the submitted evidence and indicate that the rate is between 90-95%. As approvals do not equate to completed dwellings can the Council advise why these are considered to be a robust indicator of whether the 40% 'cap' is reached and a review initiated?

The Council has not proposed that the trigger for a review is as suggested by DFI in the above question i.e. that completions be the trigger for review.

The trigger for a review is whether the number of permissions granted exceeds a certain level, as outlined in para. 4.34 of the draft Strategy. The Plan is based on the figure of 11,000 new houses in total and therefore the figure to trigger a review is based on whether the projected rate of permissions will lead to exceeding 4,380 dwellings in the countryside. No reference is made to the trigger for a review being linked to the number of completions.

Q6 - Can the Council highlight where in the submitted evidence explanation is provided of how the Council intends to monitor and implement the 40% allowance in practice and how this may feature in any plan review?

The DPS clearly states that one of the measures used to monitor the objectives relating to the 40% of households in the countryside will be "the number of housing permissions in the countryside." Reserved Matters and Full Approvals will be counted when formulating projections based on past approval rates, in order to avoid double counting.

Q7 - From the above-mentioned figures it appears that the scope to further increase countryside approvals in order to achieve the Council's ambition of 40% of future housing growth is substantially less than the 1000 previously estimated by the Council. In view of this, has the Council provided evidence of why the proposed countryside policy relaxations remain an appropriate response to the gathered evidence?

DFI appear to be confused on this issue – both in terms of their understanding of the Councils approach to rural housing and of the numbers used to justify such.

The 40% of houses in the countryside is not a council "ambition," rather it is a recognition of the existing level of housing provision in the countryside and a figure

at which growth in the countryside would no longer be balanced and would herald the need for a review.

In relation to the figures for rural completions, the information provided in the Public Consultation Report (MUDC114) and referred to by DFI shows that between 2012-2019 the average amount of rural approvals was 246, similar to the 245 listed for 2012-2014 in Policy Review of Sustainable Development in the Countryside (MUDC 228). Given a 90% completion rate, this shows an average approval rate of 220 new houses in the countryside per year.

DFI seem to have, when reading MUDC 228, confused the approval rate with the expected number of dwellings to be completed.

Q8 – The evidence shows that existing countryside policies in PPS21 and the SPPS provide flexibility for approval rates to increase over time without the need for a relaxation of policies, could the Council direct DfI to the justification for the further relaxations proposed?

As outlined above, the average approval rate for 2012-2014 and 2012-2019 is very similar. There may well be specific years / periods where approval rates are higher but there is no validity in the claim that this is a result of planning policy. External market forces, such as availability of finance, prevailing economic conditions are all more likely to cause a rise in planning permissions over specific periods than for this to be the result of planning policy which remains unaltered over the same time period.

Q9 – As the number of countryside approvals can vary year-on-year, can the Council advise why its original estimate of a ‘requirement’ for 1000 additional dwellings was based upon only 2 years of approval data?

As set out above, the average approval rate of 245 dwellings per year is reflective of more than 2 years of approval data.

Q10 - Did the Council attempt to obtain information in relation to the number of single and replacement dwelling completions in the countryside of the district? If this is provided in the submitted evidence, can the Council direct the Department to this?

Evidence for the rate of completions is provided in submitted document MUDC 202. Approval rates are listed in table 23 and justification for completion rate is provided in para. 6.18

Q11 - Can Council clarify from within the submitted evidence the basis for identifying a range of housing growth between 30% - 60% of the HGI in respect of the main Hub and Local Hub settlements of Cookstown, Dungannon and Magherafelt?

The 60% target has regard to the recommendation in the RDS that 60% of new housing should be within settlement of a population of 5,000 or greater. Existing commitments show that there is enough land available to allow this target to be met.

The existing level of housing in these settlements is 27% and therefore the 30% figure represents a minimum quantum of housing which should be within the main

hubs. If this figure appears to not be being realised then further phase 2 land can be released (following a formal review) to enable more development to take place. The Department should take note that to date, the Council has not released phase 2 land as there is currently no need.

Q12 - Can the Council direct DfI to where, in the submitted evidence, the reasoning for the apparent change of approach to distributing the housing requirement is set out? (i.e. from the 'equitable split' favoured at POP stage to the approach eventually adopted in the draft Plan Strategy)

There has been no "change of approach" in relation to the equitable split. It is still being followed with the reality of existing commitments in the hub settlements being taken into consideration. To implement the original balanced approach would require revocation of permissions in hub settlements.

Q13 - Does the range of growth indicated to the hub settlements provide sufficient clarity and certainty on the amount of housing that will take place over the life time of the plan.

Yes.

The draft Plan Strategy stage of the Development Plan Process only sets out the indicators against which land is zoned. The final figures for housing will be derived via the Local Policies Plan. Based on current level of commitments in the Hubs, it is clear that housing need would not be a driver for zoning further land in these settlements.

Q14 - In order to assist in the Department's assessment of the submission can MUDC provide clarification as regards the 7% of the Housing Local Indicator not accounted for in allocation to settlements?

We assume that the "7%" referred to by the Department is arrived at by adding the 60% maximum indicator for the hub settlements to the 33% of the indicator for the rest of the settlements. This gives a total of 93% and therefore an implied shortfall of 7%. This is incorrect. In producing the local indicators, we have taken into account both the urban and rural area. 93% relates to maximum possible houses for hubs and settlements.

Q15 - Can the Council clarify the status of the Housing Local Indicators and further explain how existing commitments have been taken into account in the allocation of growth to settlements?

Local Housing Indicator table is a translation of the districts HGI. It gives a general indication of the level of housing which should be provided across our settlements. However, it does not represent either a cap or a minimum and for this reason it is called an indicator. In applying the indicator to the settlements, it is clear that for the vast majority, the indicator can be provided within the existing settlement limit. Those settlements where this is not the case (Swatragh for example) have been identified.

Assuming the adoption of the draft Plan Strategy in its current form, in accordance with the SCI, a call for sites will be for those settlements where a shortfall has been

identified. In the main, applying these indicators suggests that the existing Area Plans, in terms of settlement limits, are, in the main, fit for purpose until 2030.

Q16 - Can the Council clarify what evidence, other than a settlements existing share of the district's population, informed the HLI to settlements. In particular, can clarification be provided on whether the Strategic Settlement Evaluation, including assessment of environmental capacity, has influenced these choices?

Strategic settlement evaluations have been carried out for all settlements and these have been submitted as part of the evidence base. The strategic settlement evaluations included an assessment of the infrastructure and level of service provision available in each settlement. They were carried out with specific reference to the *Hierarchy of Settlements and Related Infrastructure Wheel* in the RDS.

Consideration was also given to the environmental capacity of each settlement in relation to constraints caused by flooding, environmental designations or heritage issues.

Following the strategic settlement evaluations, the settlements were assigned to categories within the settlement hierarchy and this determined the level of growth relative the HGI which were assigned to them in the Housing Local Indicator table.

Q17 - Can the Council explain the statements within the public consultation report that the LPP may facilitate a different level of growth from that indicated by the Housing Local Indicator in the draft PS? In light of the Planning Act 2011 which requires that the LPP is consistent with the PS (Section 9)

As already laid out, the Housing Local Indicator table is an indicator and not an allocation. MUDC do not know what the outcome of the LPP will be and therefore do not wish to prejudice it. However, it is clear that for a number of settlements, existing permissions already exceed the Housing Local Indicator. Individual representations will be submitted as part of the LPP process and whilst the Housing Local Indicator table may in some instances, indicate that a settlement does not require further growth, these representations may well offer logical solutions where a settlement can be expanded via rounding off for example. Therefore, the LPP may well produce outcomes in relation to individual settlements, which are different to the picture indicated in the Housing Local Indicator table. To rule out such an eventuality at this stage would be prejudicial.

Q18 - Completions in the main towns (based on recent completion rates) appear likely to be approximately equivalent to 27% of the planned housing requirement of 11,000. Therefore, are there any other measures, in addition to the possible release of more land, that the Council considered to increase the % share of the district wide housing need accommodated in the hubs?

Great care should be taken when considering urban completion rates. Implementation of approvals is dependent on external factors such as the housing market, the availability of finance and interest rates. None of these matters are in the control of the planning system. The draft Plan Strategy has clearly provided

opportunity for development within the hubs in order to allow sufficient development. The Councils strategy for growing the hubs involves not just simply housing growth but also involves economic and social growth. This is clearly demonstrated by SPF 2.

Q19 - Can the Council please explain the reason for the contrasting approach between Hubs and the Countryside where a 'shortfall' in approvals below 40% 'cap' of the HGI is presented as justifying numerous further policy relaxations there?

As mentioned above, the 30-60% target of new houses in hubs has been explained. The existing level of rural permissions under PPS 21 would not be sufficient to allow for the countryside to get 40% of the share of the HGI which is needed in order to ensure the level of rural housing provision stays at a current level and does not decline leading to the erosion of rural communities. The commitment to support the rural community which is very strong in Mid Ulster is in line with SPF 6 of the draft Strategy and also in keeping with SFG 13 which aims to "sustain the overall strength of the rural community living in.....the open countryside." It would not be possible to achieve this if the level of new housing in the countryside of Mid Ulster was not reflective of its current level.

Relaxations of rural policy have not been driven by any notion of a shortfall but rather by specific needs identified as part of consultation with stakeholders, such as the needs of our fishermen and the local business community. Consideration has also been given to the fact that Mid Ulster elected members feel that in order to keep farms and rural communities viable, greater attention needs to be given to the needs of rural carers and their families. It is essential to bear in mind that in all the scenarios referred to above, permissions will be subject to occupancy conditions and this will be a robust mechanism whereby the level of approvals is controlled.

Q20 - Can Council direct DfI to submitted evidence that further explains how the approach to the allocation of growth to the three main towns is in line with RDS regional policy objective of growing the population of the Hubs within the council area?

The draft Plan Strategy clearly shows that there is existing potential to grow the hubs by up to 60% of the HGI figure. This is in keeping with the RDS objectives and will also represent a doubling of the current level of housing located within the hubs of mid Ulster.

Q21 - Can the Council explain the phased approach to the release of housing zonings and how the high level of commitments outlined within the Draft Plan Strategy is consistent with the Councils approach?

Housing zonings are subject to different policies with just phase 1 being eligible for development, whilst phase 2 is protected from development except for a few specific criteria as set out in policy HOU1. It is envisaged that a change in phasing status of land can only occur following a policy review and this would involve the provisions set out in Part 2 of the Planning Act (Northern Ireland) 2011 – Section 13. If Council decided that a change was needed, such as the release of phase 2 land, we would

view this as a revision and therefore be subject to Section 14 of the Planning Act (Northern Ireland) 2011.

It is highly unlikely that there will be any release of phase 2 land within the plan period. The existing commitments do not include phase 2 land and therefore, it is envisaged that existing commitments can provide enough land to meet the required level of housing growth throughout the Plan Period. The notional end date of the plan period can herald a review whereby the need to release phase 2 land will be considered. However, phase 2 does provide an excellent indicator of future long term growth when planning roads and infrastructure.

Q22 - The Council identify the need for housing land to be identified as Phase 1 and Phase 2 respectively, however did the Council consider the need for a strategic policy relating to both housing and employment land that would align the release of both in accordance with need/infrastructure availability?

Yes we did and as a result we have the current approach involving phasing. We concluded that all land within phase 1 is available for development, having carried out consultation with statutory bodies. At Local Policies Plan we will look further at zonings and landowners have been advised that land could be de-zoned where there is no commitment to develop.

APPENDIX 2 – ECONOMIC DEVELOPMENT SECTION

Q1 - RDS (RG1) and the regional strategic objectives and policy of the SPPS (para 6.66 and 6.88) support economic development of an appropriate nature and scale however the aim is to direct new economic development opportunities to the Hubs or higher performing town/city and to limit, for rural amenity and wider sustainability objectives, the level of new building for economic development purposes outside of settlements. Can the Council direct the Department to evidence within the submission which outlines how draft policy ECON2 , is supportive of strategic guidance contained within the RDS and SPPS?

We would draw the Departments attention to the fact that the entirety of the 170 hectares of industrial land identified as being required throughout the Plan Period will be located within the main hub towns. Mid Ulster is a key driver in the economic performance of Northern Ireland with this being primarily driven by the agri food, quarrying and quarrying related sectors. A lot of that activity, especially the quarrying industry and its associated activity are located close to the source of their products and therefore, in the rural area.

There is no requirement for policies to be “supportive” of the RDS and SPPS. To do so would simply mean that local development plans should only exist to replicate policies contained in regional guidance. In accordance with Section 8 of the Planning Act (Northern Ireland) 2011, the draft Plan Strategy is required to “take account” of the RDS and any other policy put forward by the Department. It is therefore a moot point to ask the Council to provide evidence of how they are “supportive” of strategic guidance.

The draft Plan Strategy operates a presumption **against** economic development in the countryside and states that there are a limited number of scenarios when economic development in the countryside will be in conformity with the Plan. Where this is not the case, Planning Permission will be refused.

The SPPS specifically states that farm diversification, the reuse of rural buildings and appropriate redevelopment and expansion proposals for industrial and business purposes will normally offer the greatest scope for sustainable development and it recognises that such proposals may occasionally involve the construction of new buildings where they can be integrated in a satisfactory manner. These scenarios are all reflected in ECON 2.

In relation to new build economic development in the countryside, the scenarios described by the SPPS para. 6.88, namely a small scale new build on the edge of a settlement and major regionally important development, are also accounted for within ECON 2.

Para. 12.15 of the Justification for policy ECON 2 of the draft Plan Strategy states that the guiding principle for policies and proposals for economic development in the countryside is to facilitate proposals likely to benefit the rural economy and support rural communities, while protecting or enhancing rural character. This is directly in line with the approach set out in para. 6.87 of the SPPS.

Policy ECON 2 seeks to tailor the regional approach in order to recognise the unique economic circumstances of Mid Ulster where self-employment and rural economic enterprises are a common feature of the economic make-up of the district.

The desire to reflect this unique circumstance is one that was expressed by our elected members as laid out in the submitted evidence (MUDC 219) along with quantitative proof of how the existing approach to economic development in the countryside is producing a disproportionately low number of approvals for economic development in the countryside.

We therefore feel that the evidence for tailoring the rural policy in relation to economic development has been provided and supports the approach taken.

Q2 - Furthermore, in providing clarification, can the Council direct the Department to evidence within the submission outlining how the approach to new economic development in the countryside (ECON2) is supportive of the Council's own plan objectives including SPF2 (to focus growth within the three main towns/Hubs of Cookstown, Dungannon and Magherafelt) and SPF3 (to consolidate the role of Coalisland and Maghera as of the draft Plan Strategy)?

The Council do not agree with the Departments implied position that a policy which facilitates development within the countryside is not compatible with growth also being facilitated within the hubs and the local towns. As has already been stated, the approach to economic development in the countryside is in line with the SPPS and existing policy. The only additional in the draft Strategy's planning policy is in recognition of the strong entrepreneurial spirit in the district and the fact that many of our industries are 1 man operations and a policy has been introduced to allow people to work from home. Our only other policy additions are the introduction of RIPA designations, which aim to consolidate areas of existing industry and sites benefitting from major Planning Permissions.

MUDC 203 contains the rationale for the figure of 8,500 new jobs to be provided throughout the Plan Period and the associated requirement of 170 hectares of land.

MUDC 203 also states that it is inevitable that 170 hectares will be an over zoning but is needed to allow flexibility. Not all jobs created throughout the plan period will be provided on zoned land. The evidence provided in MUDC 203 shows an expected growth in the knowledge based industries and is obvious that these jobs are in all likelihood, not going to be located on zoned industrial land but elsewhere in settlements or edge of settlement locations.

The paper also acknowledges that some of the 8,500 new jobs will be provided in the rural area. As outlined above, the evidence shows the low rate of rural economic approvals being approved under existing economic policy and therefore justifies the policy which has been brought forward in the form of ECON 2.

Q3 - The council state that there is already a proliferation of existing rural enterprises meaning that in some locations 'it could be argued' that rural character has already been altered/undermined. Can the Council please

highlight what evidence within the updated Landscape Character Assessment Review has informed the Councils view in this regard which provides part of the justification for RIPA designation?

Reference has been made to the impact of industrial development on certain Landscape Character Areas within the Landscape Character Assessment.

For instance in relation to the Dungannon Drumlins and Hills LCA, which the Tullyvannon RIPA is proposed to be predominantly located within, the LCAR includes in its description of key landscape features, the description of the LCA as having areas which are affected by intrusive, industrial and commercial and housing development.

It is important to remember that LCAs do not reference specific localities such as the exact locations of where our RIPA designations are located.

Q4 - Can the Council clarify how the proposed extension of the industrial footprint at the proposed Tullyvannon RIPA is consistent with the stated purpose of RIPAs to consolidate existing industry?

Tullyvannon RIPA recognises the extent of existing industry and permissions with limited scope for expansion. The objective is to consolidate existing industry at this location. Consolidation is defined as making something stronger or solid or into a more effective entity.

Boundaries have been defined based on geographical features and the opportunities for expansion are limited; therefore helping to prevent further sprawl.

Q5 - Is the Council aware how many other locations within the MUDC district would meet the criteria for RIPA designation set out within the draft Plan Strategy at paragraph 4.37? Furthermore do the findings of the updated Landscape Character Assessment Review support the designation of the RIPAs generally?

The draft Plan Strategy only defined 2 RIPA designations. A third was considered at Creagh but was ruled out due to limited environmental capacity in s far as the area is a major area of floodrisk.

We have provided opportunities for other RIPAs to be suggested, based on a set of criteria. This will be a matter to be further considered as part of the Local Policies Plan. It is important to bear in mind that any such proposal will need to meet criteria set out in para. 4.37.

Q6 - In providing clarification, can MUDC direct the Department to any evidence within the submission which shows consideration by Council of the impact of any later projections?

The 2018 based projections were published in October 2019, after the publication of the draft Plan Strategy. The 2016 based population projections did not give a population figure for 2015, instead they start in 2016. The 2016 projections showed a severe fall in the 16-64 population of Mid Ulster by the year 2030. A fall of around 2,000 compared to a slight fall of around 200 for the previous corresponding set of

projections. These projections are forecasts only and do not offer any certainty as to what will transpire. These projected low population figures, which appeared to be largely linked to the unknown forecasts associated with the Brexit vote, if implemented would mean a reduction of around 1,500 in the number of jobs for Mid Ulster. This would be a fundamental change to the Plan and one which would be damaging to Mid Ulster and would have been based on forecasts which may or may not come true.

The most recent projections, which provided data for all years within the Plan Period was the 2014 based population projections and these were reflected in an addendum to Position Paper 3 (MUDC 236), showing the 8,500 figure for the number of new jobs to be created was still feasible.

It is important to remember that employment figures are not subject to any regional indicator and that the approach advocated in regional policy is to provide a choice and flexibility in relation availability of economic land (SPPS – Para. 6.92). It is felt that the figure of 8,500 new jobs as contained within the draft Plan Strategy does allow for this degree of flexibility and choice of sites and for those reasons, the approach is in keeping with the approach advocated by regional policy.

Q7 - Noting that the methodology will result in a degree of over-zoning did the council consider the application of a phased approach to the release of economic development land similar to the approach taken in respect of housing land?

The supply of economic land catered for within the draft Plan Strategy will create a choice and flexibility of land, which is in line with the requirements of regional policy. Therefore, we do not consider that a phased approach is beneficial.

Q8 - In providing clarification, can MUDC direct the Department to evidence within the submission showing consideration by the Council of how its approach to economic development in the countryside will promote economic development at the hubs, in line with SFG11 of the Regional Development Strategy?

This question is based on a false premise that economic development in the countryside automatically means that the objective of growing the hubs is unrecognisable. It fails to recognise that much of the industry in mid Ulster is linked to the primary sector, such as quarrying and the related quarry products sector and that such industries need to be located close to their primary products, which are almost exclusively located in the open countryside.

The draft Plan Strategy allows for limited expansion of existing enterprises; regionally significant proposals or where development is within an existing cluster of rural industry. This is in keeping with scenarios where development is deemed acceptable in the SPPS (Para. 6.87)

The notion that any new policy should prevent expansion in the countryside would be contrary to regional policy.

It should also be noted, that the Council expect the future growth of the hubs to involve an increasing number of jobs in the knowledge based industries and that this represents a different type of industrial growth from the traditional industries which are already prevalent in the countryside and which should be accommodated to grow and expand, in line with regional policy.

Q9 - In providing clarification, can MUDC direct the Department to evidence within the submission which shows consideration by Council as to reason for the change of approach between publication of the Draft Plan Strategy and subsequent Public Consultation Report for Coalisland and Maghera?

There has been no change in approach. There will be no allocation of the 170 hectares of economic land formally allocated to the local towns but that is not to say that land cannot be zoned in these towns.

The public consultation report at page 031 states that **in villages**, the Council will not zone land for economic purposes in order to provide flexibility. The paragraph in question clearly relates to villages and not local towns of Coalisland and Maghera.

There are references in the Public Consultation Report which appear, on face value, to suggest that economic land will not be "reserved" in local towns and villages. The Council acknowledge this and have identified these references as human error on the part of the Author. It is apparent however, that where this form of words occurs, the Author is clearly referring to towns and villages as opposed to local towns. This is clear for instance on pages 035, 038 and page 072 where the language used shows that while there will be no land reserved in the settlements in question, exceptions may be made for rural enterprises within the settlement limits. This would clearly show that the author was mindful of smaller settlements which are more rural in nature, when writing this and not referring to larger local towns, some of which are actually classed officially as urban areas.

We would point out that page 072 clearly states that in relation to local towns;

therefore, while the logical location for providing industrial land is in the hubs, it is likely that local towns could also provide zoned land as established in the extant plans.

Q10 - In order to aid the Department's consideration of the MUDC submission can Council, through directing DfI to evidence within the submission, demonstrate how it has taken account of any updated data sources to support its approach to employment and economic development, to that presented in the papers of 2015, 2016, 2018 and 2021 (as referred above)?

It is important to remember that employment figures are not subject to any regional indicator and that the approach advocated in regional policy is to provide a choice and flexibility in relation availability of economic land (SPPS – Para. 6.92). It is felt that the figure of 8,500 new jobs as contained within the draft Plan Strategy does allow for this degree of flexibility and choice of sites and for those reasons, the approach is in keeping with the approach advocated by regional policy.

Subsequent population projections show a forecast of a lower population at the end of 2030. The 2018 sub national population projections show mid Ulster with a population of 159,933 at the end of 2030/31. This is a 3% reduction from the 2014 projections which forecast a population of 165,063.

However, these are forecasts and do not provide any degree of certainty, particularly given the more noticeable difference in population projections put forward from 2016 onwards, which are as yet uncertain in terms of their accuracy. MUDC are of the belief that in order to ensure sufficient flexibility and choice, as stated in the SPPS, that the earlier population projections are the best vehicle to do this and ensure that sufficient land is available for economic development throughout the Plan Period.

APPENDIX 3 – RESIDENTIAL DEVELOPMENT IN THE COUNTRYSIDE

Q1 - In order to assist Departmental consideration of the MUDC submission, can Council please direct the Department to evidence which would provide clarification of the Council's adopted methodology in using full and reserved matters approvals in 2 years (2012 – 2014) only?

Full and Reserved Matters approvals are used in order to reduce the risk of double counting planning permissions. Reserved matters are used instead of outline permissions because they represent the outworking of an outline application. Full permissions are in the majority of cases, stand-alone applications which are not linked to a RM approval.

In relation to the 2012-2014 approval rates, it has been demonstrated above that this rate, whilst only for 2 years is very similar to the broader approval rate over the years 2012-2019.

Q2 - In order to facilitate Departmental consideration of the MUDC submission, can Council please direct the Department to evidence providing quantification of housing completions for this period?

The amount of housing completions has been based on a presumption of 90-95% completion rate and the rationale behind this is laid out in MUDC 202. This is an upper estimate and therefore the assumed approval rate is considered to be representative of the highest possible new dwellings being erected in the countryside under existing policy.

DFI may wish to check records of previous Departmental Development Plan Working Groups when it was generally accepted that the implementation rate of new approvals was around 90-95%. The Department also took the decision that it would no longer be economically viable to survey rural permissions for the purposes of ascertaining completion rates.

Q3 - In order to aid the Department's consideration of the MUDC submission can Council, through directing Dfl to evidence, demonstrate how the results of further field survey work undertaken by the council has helped support the proposed policy approach?

Fieldwork was an intrinsic component of the Councils LCA Review (MUDC 210). Data collection occurred in the field to help verify, add and refine information to the key characteristics and qualities of the appraisal of the desk based study. The field study enabled the attributes of the landscape to be assessed on location capturing aesthetic and perceptual qualities of each LCA. This fieldwork also included the noting of some of the key experiential qualities of each of the LCAs and there are numerous examples of this throughout the LCA Review.

The Landscape Character Assessment Review demonstrates the impact of a range of factors (one of which is "pressure for single dwellings") on the intrinsic value of each LCA. It concludes that in the years since the original NILCA 2000 was carried out; there have been no key intervening changes in the landscape, although certain mitigations can be taken to address smaller scale changes that have taken place.

The results of this field work and the subsequent findings are translated into the LCAR in the form of “action points” which relate to policy measures which can be implemented in the formulation of the draft Plan Strategy. Such measures include the need to control siting, design, appearance of rural houses.

Q4 - To aid the Department’s consideration of the MUDC submission can Council, through directing to the submitted evidence, demonstrate how this approach takes account of the regional strategic policy approach of the SPPS, which applies the general principal of clustering, consolidating and grouping to all development in the countryside (with limited exceptions in relation to Dwellings on Farms)?

We strongly refute the assertion by the Department that the draft Plan Strategy represents a “broad exception” to regional strategic policy. Our policies do indeed contain numerous references to the need to cluster with / have visual linkage with / be sited between, existing buildings or to re use / convert existing buildings. A cursory glance at policy CT2 is enough to confirm that this is a recurring theme throughout the policy and that is in line with SPPS para. 6.69.

CT1 states explicitly in its first criterion that all residential development in the countryside shall be required to “cluster, consolidate and group with existing buildings unless there are environmental or operational reasons where this is impracticable.”

The principle of there being an exception to the requirement to cluster new development with existing buildings is clearly already evident in existing policy CTY10 of PPS 21. This policy states that the requirement to cluster may be set aside if there is a potential risk to health and safety or if there are plans to expand the farm holding. The “environmental or operational reasons” which is contained within policy CT1 is a clear attempt to tie in with existing policy and this is further evident if one reads the justification at para. 8.15 of the draft Plan Strategy.

If the Department is suggesting that the exceptions of “environmental or operational reasons” are not appropriate, then it would appear that they are suggesting a further tightening of existing policy whereby these existing exceptions to policy are removed?

The Department in asking this very question, has itself acknowledged the existence of the exception to the requirement to cluster and therefore we feel that this question is illogical.

Q5 - In order to aid the Department’s consideration of the MUDC submission can Council, through directing DfI to submitted evidence, demonstrate how the above Council Statement is reflective of the SPPS regional approach?

The Department have emphasised the following quote from the DPS; “The SPPS clearly provides for housing in the countryside” and at the same time asks how the “above Council Statement is reflective of the SPPS approach.”

MUDC are baffled by this question insofar as the SPPS does clearly provide for housing in the countryside. Para. 6.73 of the SPPS sets out a range of scenarios

where housing in the countryside will be acceptable and all these are reflected in the draft Plan Strategy. Paragraphs 3.9 - 3.13 of MUDC 228 (**Policy Review – Sustainable Development in the Countryside**) clearly considers the provisions of the SPPS and how it relates to housing in the Countryside.

As always, we are of the opinion that the SPPS is not a document that Development Plans should simply replicate. In accordance with Section 8 of the Planning Act (Northern Ireland) 2011, the draft Plan Strategy is required to “take account” of the RDS and any other policy put forward by the Department.

Q6 - In order to facilitate Departmental consideration of the MUDC submission, can Council please direct the Department to evidence estimating the likely impact of additional opportunities under proposed policy CT2 in terms of the potential number of additional development opportunities in the countryside? Has the Council considered the impact of these measures in the context of the HGI 40% allowance in respect of residential development?

The only addition which we consider to be solidly quantifiable in relation to numbers of potential approvals is criteria (j) of policy CT2, which allows for permission within a specific part of the District, for holders of a commercial fishing license. This will be limited exclusively to those who hold the license in question and consideration of the numbers involved here has been provided in the Public Consultation Report (MUDC 114) – para. 4.13. These numbers have been obtained via consultation with the Lough Neagh Fisherman’s Co-Operative.

In relation to the other additional policy criteria, there is no way of knowing with any degree of overriding certainty, how many approvals will result, as a maximum figure. These are dependent on market forces such as availability of finance, interest rates and construction trends. It is for this reason that MUDC will monitor and review the draft Plan Strategy on a regular basis. In the same way, there is no one way of knowing future rates of approvals based on existing rural policy.

The additional policy mechanisms contained in CT 2 will all be subject to the limitation of occupancy conditions.

Q7 - In order to facilitate Departmental consideration of the MUDC submission, can Council please direct the Department to evidence explaining the basis for the policy wording and in particular if it has considered the extent to which policy criteria CT2(F) may compromise criteria CTY2(E)?

The two scenarios alluded to in the question relate to two separate scenarios so the Council do not accept the premise that one might compromise the other. Where a farm is established and viable then it can avail of a dwelling under criteria (e). Where a farm is not established and viable then it will be able to avail of a dwelling under criteria (f). Where an established and viable farm has had a dwelling approved in the last 10 years then it also can avail of criteria (f) provided that the dwelling is accommodated within a farm cluster.

This policy has been brought forward because members feel that given the large family size in Mid Ulster, greater opportunity should be provided for family members to live together.

The SPPS policy approach is to cluster, consolidate and group new development with existing established buildings. It provides examples of where LDPs should make provision for houses in the rural area; however, it does not say that these examples are the only scenarios where development can occur. Local Councils are entitled to tailor policy based on the views of members and the resident population of the district and this is what has happened in this instance.

Q8 - In order to facilitate Departmental consideration of the MUDC submission, can Council please direct the Department to evidence underpinning the inclusion of Policy CT2 (H) of the Draft Plan Strategy and how Council envisage the implementation, assessment and enforceability of this proposed policy?

The submitted evidence refers to the fact that around 10% of the population in Mid Ulster currently provide some sort of care. This has been referenced in MUDC 201 and MUDC 116 for example. The importance of unpaid care is an ever increasing issue and one which was the subject of a paper put to the NI ASSEMBLY (*Dr Raymond Russell - Background Information and Statistics on Carers in Northern Ireland – March 2017*).

This is only one example of changing societal trends which support this policy and which the Council was right to point out, have not been given proper consideration by the Department, in their critique of this policy.

There are clear trends showing an ageing population across the whole of Northern Ireland. Coupled with this are things such as the obvious crisis in social care and the governments clear focus on transforming care provision to include a move towards care being provided in domestic settings where possible (again, this is highlighted in the evidence base in MUDC 214).

The impact of the pandemic has heightened the trend of working from home to an extent where for most people the idea of working from home will now be a feature of their daily life, to some extent, for the near future. This is likely to increase the opportunities for care to be provided in domestic settings.

These are all examples of changing societal trends which the Department have not paid enough attention to in their criticism of this policy.

In relation to implementation, the policy will be implemented on the basis of the policy wording, like all planning policy. The policy wording has the control mechanism built into it, which only permits a new dwelling if it is in the form of an extension, physically attached to the existing building or a change of use from an existing building within the curtilage.

With regards to enforcement, enforcement action is possible in relation to attached occupancy conditions in the same way as enforcement action is possible for any breach of condition. Likewise, occupancy conditions will be viewed as a deterrent for

the subsequent sale of any permission in that banks / lenders will not lend money for the purchase of any site with an occupancy condition attached. Occupancy conditions will be used in the way advocated by CTY6 of PPS 21 in so it is strange that, given their existence within existing policy, The Department would seek to query if they are or are not enforceable.

Q9 - In order to facilitate Departmental consideration of the MUDC submission, can Council please direct the Department to evidence underpinning the need for the inclusion of Policy CT2 (H) of the Draft Plan Strategy and how Council envisage the implementation, assessment and enforceability this proposed policy?

This appears to be a duplication of Q8.

Please see response to Q8

Q10 - In order to facilitate Departmental consideration of the MUDC submission, can Council please direct the Department to evidence which outlines the operational requirements of the job that necessitate being located in the countryside adjacent to the Lough, as opposed to a nearby settlement for example?

This question appears to refer to the areas shaded blue on District Proposals Map 1e.

This line has been drawn based on postcodes to reflect the areas where fishermen who will benefit from the policy, live.

Mid Ulster District Council and its Members firmly believe that fishing is a primary industry in the same way as farming is. To not recognising fishermen and their requirement to live near their source of income, would be discriminatory and prejudicial against a distinct group who have for generations, contributed to the social and cultural makeup of the lough shore area.

Our Members, having expressed strong support for the inclusion of this policy in the draft Plan Strategy would expect the chance to articulate their views on this issue on behalf of their constituents, at an Independent Examination.

Q11 - In order to facilitate Departmental consideration of the MUDC submission, can Council please direct the Department to evidence in relation to the economic and social disadvantage that underpins their continued designation, and the identification of any new DRC designations that may be brought forward.

The indicators for levels of deprivation are published public information via the Northern Ireland Multiple Deprivation Measure 2017 (NIMDM2017). A cursory glance at these indicators will show that levels of deprivation in the SOAs located within the proposed DRCs are higher than the Northern Ireland average, in some cases significantly so.

For example, Dunnamore SOA which contains the majority of the Broughderg DRC is listed as the 271st most deprived SOA in Northern Ireland (out of 890) whilst being

the 6th most deprived in Northern Ireland in relation to access to services. Draperstown SOA which contains the proposed Sixtowns DRC is listed as the 389th most deprived SOA in Northern Ireland and also the 174th in relation access to services, whilst Swatragh SOA which contains the Carntogher DRC is 123rd in relation access to services.

Levels of income in these SOAs are also well below the “mid point” in relation to their rank in the list of all the SOAs in Northern Ireland (Swatragh – 389, Dunnamore – 222 and Drpaerstown – 214).

It is clear therefore, from the published, public evidence that the areas wherein the proposed DRCs are located are suffering from economic and social disadvantage.

However, we would point out that the levels of deprivation / social disadvantage are not the only tests for the introduction of DRCs. Whilst the SPPS is silent on the issue of DRCs, existing policy (PPS 21) recognises that DRCs do exist and sets out criteria for them at para. 4.6.

Our draft Strategy at para. 4.44 sets out the criteria for DRCs and these criteria are in line with the criteria set out in existing policy as well as with the criteria which is listed in SP5 of the Planning Strategy for Rural Northern Ireland.

We therefore feel that the continued designation of DRCs is justified and their designation has been based on tried and tested criteria and rationale.

APPENDIX 4 – LEGAL / PROCEDURAL COMPLAINT

Q1 - It appears that these documents may have been renumbered/reorganised after the Soundness Self-Assessment has been completed – can the council clarify?

The three instances alluded to by the Department prior to Q1 appear to be typing errors on behalf of the Council. The Council acknowledge these. However, it is clear from the text on each occasion as to what the documents referred to are. Despite the incorrect references to document numbers, the Department was still able to identify the correct document.

With such a large volume of text in this submission, human typing / referencing errors are almost inevitable. Indeed, the Department have made such mistakes in their clarification document as pointed out in Appendix 3 with the duplication of questions 8&9.

We do not feel that these mistakes are significant.

Q2 - Can the Council provide a copy of distribution lists to satisfy these regulations?

Yes – These lists change over time and accordingly were updated at each stage of the process ie. At REG 10, REG15 and REG 17.

Lists are attached in the form of spreadsheets to the covering email.

The contact lists for REG 10 and REG 15 are included in one spreadsheet each ie. A spreadsheet for contact list at the time of REG 10 and a corresponding one for REG 15.

The lists for REG 17 are attached separately with a spreadsheet being compiled for each “type” of consultation body e.g. “gas licensees”, “electricity licensees” “communications code,” “adjoining councils,” “NIHE,” “government departments,” “NI Water,” “Civil Aviation Authority” etc.

If the Department is still not satisfied, then individual copies of each correspondence to each “consultation body” can be forwarded for each of the consultation exercises at REG 10, REG 15 and REG 17 respectively.

Q3 – Can the Council provide clarification regarding this matter?

The draft Timetable was agreed by Council in March of 2016 and the timetable was submitted to the Department in the same month, following Council agreement.

The Department recommended some minor changes to the document via correspondence in April of 2016. The Council incorporated these changes and received the subsequent agreement from the Department in May of 2016. The changes to the timetable meant that instead of having seasons and specific quarters, the amended version had only seasons as indicative periods. Therefore, the period of the LDP had not actually changed.

The amended timetable was not presented to Council because it was considered, in conjunction with the Councils Solicitor, that these changes were so minor that they did not materially alter the version of the timetable that had already been agreed by Council.

Q4 - Can the Council confirm which publications the public notices were placed, and provide copies of those advertisements?

This question is confusing. The Department appears to take issue with the fact the local publications used by the Council have been altered throughout the process. There is nothing to prohibit the Council from doing this.

In relation to MUDC 406, The Department state that “*Generally, the adverts provided are from publications as specifically stated in the SCI. However, not all adverts (from the publications) have been provided.*”

The Department then specifically references the notices in the Mid Ulster Mail and Tyrone Courier relating to the publication of the Council Timetable and states “*the advertisements provided by the Council originate from neither of these publications*”. These notices have been provided at Appendix 27 of MUDC 406

MUDC 406 is a comprehensive document of over 600 pages containing copies of all public notices as attached appendices.

If the Department considers that certain Public Notices are not included then they should specify which ones are not included and the Council will produce those specific ones rather than produce documents, which have already been included in the submission.

Q5 - Can the Council confirm which publications the public notices were placed, and provide copies of those advertisements?

Again, a comprehensive list of public notices has been supplied to the Department in both MUDC 406 and MUDC 407. If the Department feel that, any are missing or incorrect then please advise the Council of the exact adverts / public notices that are missing and we will furnish them, as we do not feel it is appropriate to submit all notices and adverts for a second time.

In relation to this specific instance, the Department have implied that the Council have not complied with the relevant version of the SCI. They assert that we published adverts relating to the *revision* of the Timetable, in the Mid Ulster Mail and the Derry Post instead of the Mid Ulster Mail and the Tyrone Courier.

In fact, the SCI is silent on the subject of the *revision* of the timetable. It states that we must advertise in the Tyrone Courier and the Mid Ulster Mail when the Timetable is *published* which we did satisfactorily in May / June 2016 (see Appendix 27 of MUDC 406). In relation to subsequent revisions of the Timetable, the SCI places no obligation on the Council in terms of advertisements.

Therefore, the only obligation on the Council is that imposed upon them by Regulation 8(b) of The Planning (Local Development Plan) Regulations (Northern Ireland) 2015 i.e. that a local advertisement must be placed.

However, if it gives the Department comfort, we have attached the relevant adverts from the Tyrone Courier as well as the order sheet sent on behalf of the Council to have the advertisements placed in the Tyrone Courier as well as a range of additional papers.

Q6 - Would the Council be able to provide a copy of this advert from Mid Ulster Mail or provide clarification on this point?

The Department has quoted the SCI and specifically asked for the advertisements regarding the intention to publish the POP in the Mid Ulster Mail. These are included in the evidence base at Appendix 32 of MUDC 406.

We would point out that MUDC 406 relates to compliance with the SCI and MUDC 407 relates to compliance with the LDP Regulations.

Q7 - Is the Council able to confirm that public notices were placed in the remaining publications in accordance with the SCI in effect at that time?

Again, the Department are confusing the requirements to comply with The Planning (Local Development Plan) Regulations (Northern Ireland) 2015 and the requirements to comply with the Statement of Community Involvement. The required level of compliance with Regulation 15 has been demonstrated in MUDC 407 (see pages 10-13).

In relation to the SCI commitment to place a notice in the Mid Ulster Mail, The Tyrone Courier, Tyrone Times, Derry Post, Impartial Reporter and the Belfast Gazette. Copies of the advert placed in the Mid Ulster Mail, Tyrone Courier and the Belfast Gazette are included in Appendix 40 of MUDC 406.

Copies of the Derry Post adverts on the 19th and 26th February 2019 are attached along with this correspondence.

Copies of adverts placed in the Impartial Reporter on the 21st and 28th February 2019 have also been attached.

The Tyrone Times ceased to circulate in June 2019 and therefore records were not able to be obtained but attached is a copy of the order form for all adverts showing that the Tyrone Times was advertised in on the 19th and 26th February 2019 .

Q8 - Can the Council confirm if there were notices placed in any other publications, and if so, could copies of those advertisements be provided?

Mid Ulster Mail (12th & 19th March 2020) and Belfast Gazette (13th & 20th March 2020) advertisements have been supplied as part of the submission documents (Appendix 31 of MUDC 407).

Copies of the advertisements placed in the Tyrone Courier on 11th and 18th March 2020 are attached with this correspondence. Copies of the advertisements placed in the Derry Post on 10th and 17th March 2020 are attached also.

Copies of the advert placed in the Impartial Reporter on the 12th and 19th March 2020 have also been attached.

The Tyrone Times ceased to circulate in June 2019 but in lieu of this a copy was placed in the Dungannon Herald, even though this was not specified in the SCI and these adverts have been attached.

Q9 – Is the Council able to confirm that public notices were placed in the remaining publications in accordance with the SCI in effect at the time?

Yes. The Public Notices from the Tyrone Courier and the Belfast Gazette are provided in Appendix 37 of MUDC 407.

The Public Notices in the Mid Ulster Mail were ran on 12th and 19th June 2019. Copies have been attached.

The Public Notices in the Derry Post were ran on the 11th and 18th June 2019. Copies have been attached.

The Public Notices in the Tyrone Times were ran on the 11th June 2019 and 18th June 2019. The Tyrone Times ceased circulation in June of 2019 so copies are not available, however the order form showing all advertisements that were signed off (including the Tyrone Times) has been attached.

The Public Notices in the Impartial Reporter were ran on 13th and 20th June 2019. Copies have been attached.

Q10 – Can the Council provide a screenshot from the Council website (as has been provided for other iterations of the document) to demonstrate this?

The Council are unable to find a screenshot of the revised timetable on the Councils website.

However, as the Department has acknowledged, we have provided email confirmation from our communications team who administer the website that the revised timetable was placed on the Council website on 30th November 2018. We consider this is adequate confirmation that the revised timetable was indeed published on our website.

Communications have advised that it is not possible to retrieve historic pages from the website.

Q11 – Can the Council provide this evidence?

Screenshots are not available in relation to this and as pointed out above, it is not possible to retrieve these pages historically.

The Council can assure the Department that this regulation has been complied with as outlined in MUDC 407. We are aware that other Councils have offered similar evidence in terms of compliance with this regulation. For instance, in relation to their compliance with Regulation 19, Fermanagh and Omagh District Council have simply stated that;

19(1) A copy of all counter representations were made available for inspection during normal office hours at the Grange and Strule House Omagh and the Town Hall

Enniskillen from November 2019. They were also placed on the council website at this same time.

No screenshot was offered by Fermanagh and Omagh District Council in relation to this matter.

Our reference: DFIPG 165/22

17 June 2022

Dear Mr Bowman

CLARIFICATION ON THE MUDC SUBMISSION OF THE DRAFT PLAN STRATEGY

I refer to the above mentioned matter and in particular to the Department's correspondence to you dated 23 December 2021 and your response of 4 February 2022.

The purpose of this latest correspondence is twofold – firstly to provide your Council with a final opportunity to add to the response to date and to consider whether you wish to provide the requested further information, as well as the clarifications and corrections. Secondly, the Department now refers to a legal concern that has been further drawn to our attention, following the Council's response in February. This is connected to a policy the Department have already raised concerns about. I will come to this later.

You will be aware that we are now at an important and pivotal stage in the plan making process, and on the basis of the information received to date and any further information received in response to this correspondence, the Department will make its determination on the appropriate next steps.

Firstly, the response from the Council in February provided a position of clarity in relation to some of the matters raised, however the Department still remains concerned on many of the issues that have not been addressed.

For convenience, in summary, the outstanding concerns mainly relate to the following

E-mail: planning@infrastructure-ni.gov.uk

Website: www.infrastructure-ni.gov.uk/topics/planning

aspects of the Council's evidence:-

- The approach of the Council in taking account of the most up to date evidence, including National Statistics;
- The Council's changed approach to the distribution of housing growth between settlement and the countryside (specifically the 40% allowance made outside the Housing Growth Indicator);
- The Council's explanation of the role of the Housing Local Indicator in informing the quantum of land zoned for housing at Local Policies Plan (LPP) stage;
- The interpretation of regional and strategic policy and guidance including the 60% Regional Development Strategy brownfield target.

We would specifically highlight responses to Appendix 1 questions 2, 10, 11, 12, 13, 14, 15, 17 and 20; Appendix 2 questions 1, 5, 6 and 9; Appendix 3 questions 2, 4, 6, 7, 8, 10; and Appendix 4 questions 1 and 4.

The second matter we now refer to is in light of the Council's correspondence in February and what the Department still considers to be a lack of a robust justification for approaches that incorporate local connection and kinship criteria. This raises further potential issues in respect of the lawfulness of such policy approaches. The Department asks if the Council has received advice and is able to reconcile the policy approaches under (h) and (j) with the 'Flemish' judgment (C-197/11 and C-203/11) in the Court of Justice of the European Union (Annex A).

I appreciate that the Council will wish to consider its position and I look forward to your response.

Yours sincerely

ALISTAIR BEGGS
Director

Cc Dr Chris Boomer

Encl - Annex A Judgment of the CJEU- 8 May 2013 - FLEMISH DECREE

Annex 1A – HGI Methodology & Calculations

Annex 1A HGI Methodology and Calculations

2016 based NISRA Household Projections for Mid Ulster

	2021	2030
Population	151718 (150656/99.3*100)	161186 (159735/99.1*100)
Household Population	<u>150656</u>	<u>159735</u>
Proportion of Population in Households	99.3%	99.1%
Total number of households	<u>52504</u>	<u>57014</u>
Average household size	<u>2.87</u> (150656/52504)	<u>2.80</u> (159735/57014)

2021 Census Results for Mid Ulster

	2021
Population	150293 (see table 1 in this report)
Household Population	149118 (see table 24 in this report and see table 7 in this report)
Proportion of Population in Households	99.2% (149118/150293)
Total number of households	54005 (see table 23 in linked report)
Average household size	2.76 (see table 24 in this report and see table 7 in linked report)

HGI Methodology

The application of NISRA 2016-based household projections for the year 2030 to calculate HGI figures for the period 2016 – 2030 are outlined and summarized in this [report](#).

NISRA 2016-based Household Projection for 2030 = 57014 (rounded to 57000 and highlighted in red below)

Appendix 1

LGD level Northern Ireland Housing Growth Indicators 2016-2030 - estimating each of the 5 key components

Table A1: Estimate of housing need by Local Government District 2016-2030

	A	B	C	D	E	F	HGI
District Council	Household projection 2030	Second Homes 2030	Vacant Stock 2030	Net Conversions Closures and Demolitions 2016-2030	New Stock Estimate 2030	Housing Stock at April 2016	Projected New Dwelling Requirement 2016-2030
Antrim and Newtownabbey	59,200	400	3,200	-400	62,400	58,300	4,200
Ards and North Down	70,100	900	4,500	200	75,800	70,300	5,500
Armagh City, Banbridge and Craigavon	90,500	900	6,300	2,000	99,700	82,500	17,200
Belfast	148,200	1,500	13,000	900	163,500	156,100	7,400
Causeway Coast and Glens	58,300	2,700	5,200	2,400	68,600	62,900	5,600
Derry City and Strabane	60,000	200	4,300	100	64,600	60,500	4,100
Fermanagh and Omagh	46,200	500	4,300	1,300	52,400	48,000	4,300
Lisburn and Castlereagh	63,500	400	3,700	1,100	68,700	58,000	10,700
Mid and East Antrim	59,200	200	3,600	1,000	64,100	58,700	5,400
Mid Ulster	<u>57,000</u>	200	3,500	2,300	63,000	52,600	10,300
Newry, Mourne and Down	72,300	800	5,300	300	78,700	68,600	10,000
Northern Ireland	784,600	8,700	57,000	11,100	861,300	776,500	84,800

Cells are rounded to the nearest 100. Calculations have been worked out using unrounded data. Therefore summing individual figures in the table above may not add to total.

Variables in calculating the HGI are outlined below:

A) Number of households 2030

The estimate of the number of households in 2030 comes from the 2016 based household projections produced by NISRA.

Number of Households in 2030 = Household population in 2030 / average household size in 2030

B) Second homes 2030

C) Vacant stock 2030

D) Net conversions/closures/demolitions 2016 to 2030

E) New stock requirement estimate 2030 (E) (A + B + C + D)

This is calculated by adding the estimated number of second homes (B), vacant stock (C) and stock loss adjustment (D) to the estimated number of households (A).

F) Total stock 2016

The LPS publication 'Northern Ireland Housing Stock' reports on data from the NI Valuation List (see 'User Information – data sources' on page 9).

G) Projected new dwelling requirement 2016 to 2030 (E – F)

This is calculated by subtracting the 2016 total stock figure (F) from the 2030 total stock estimate (E).

Scenarios with different average household size and their impact on the HGI for Mid Ulster

- (1) Apply the 2021 census average household size to 2030 (assumes no further decline in average household size).
- (2) Apply the NISRA 2016-based projections rate of decline in household size between 2021 to 2030 from 2.87 to 2.80 (i.e. a rate of reduction of 0.07). This is applied to the lower baseline figure for 2021 ([2.76](#)) and gives a new average household size for 2030 of 2.69 (i.e. 2.76 – 0.07).
- (3) Apply a proven rate of decline in average household size from the 2011 Census (combining the former legacy council areas of Dungannon, Cookstown and Magherafelt (see page 37 of 2011 Census Results Bulletin) to the 2021 Census for Mid Ulster which fell from 2.88 to 2.76. It reduced by 0.12 in 10 years. When continuing on this trajectory and reapplying this rate of decline between April 2021 and December 2030, a further fall of 0.117. This gives a new average household size for 2030 of 2.64 (i.e. 2.76 – 0.117).
- (4) Apply the Northern Ireland average household size of 2.44.

HGI Calculated using the NISRA 2030 Household Population Projections

	Household Population in 2030	Average Household size in 2030	Number of Households in 2030 (=A)	A	B	C	D	E	F	G
NISRA 2016-based projections	159735	2.80	57014	57000	200	3500	2300	63000	52600	10300
Scenario 1	159735	2.76	57875	57875	200	3500	2300	63875	52600	11275

Annex 1B – Results for review of full & reserved matters housing permission granted in the countryside between 2015 & 2020

Annex 1B: Housing Approvals and Completions in the Countryside

Methodology

- Use DfI annual planning statistics dataset (excel format).
- Isolate / identify all Full and Reserved Matters applications which have been approved for residential development in Mid Ulster located in the rural countryside.
- Remove any applications not for a new dwelling/s i.e. remove extensions, disabled facilities, change of house types, renewals, substitution etc. (Note: change of house type to replace outline applications retained as would not have been previously counted).
- Identify and note any temporary permissions.
- Check all remaining applications to confirm:
 - They are located in the countryside outside any development limits (if not remove them).
 - The number of dwellings approved.
 - The decision notice is not for a temporary permission, (if so, take note but exclude from final numbers).
 - The policy they have been approved under.
- Provide a summary of results.

Implementation Rates: 2015-16 & 2016-17:

- Check orthophotography to identify if development has commenced or been constructed by cross referencing against approved drawings. (Note: Aerial photos must be after latest date of expiry i.e. March 2021 for the year 2015-16 and March 2022 for the year 2016-17)
- Note – include applications where an access has been constructed in line with approved drawings as a development in progress.

ANNEX 2A – Invest Northern Ireland Mid Ulster Council Briefing October 2021

Mid Ulster

Council Briefing

October 2021

information for strategic thinking

Invest NI Supported Business Performance (2020)

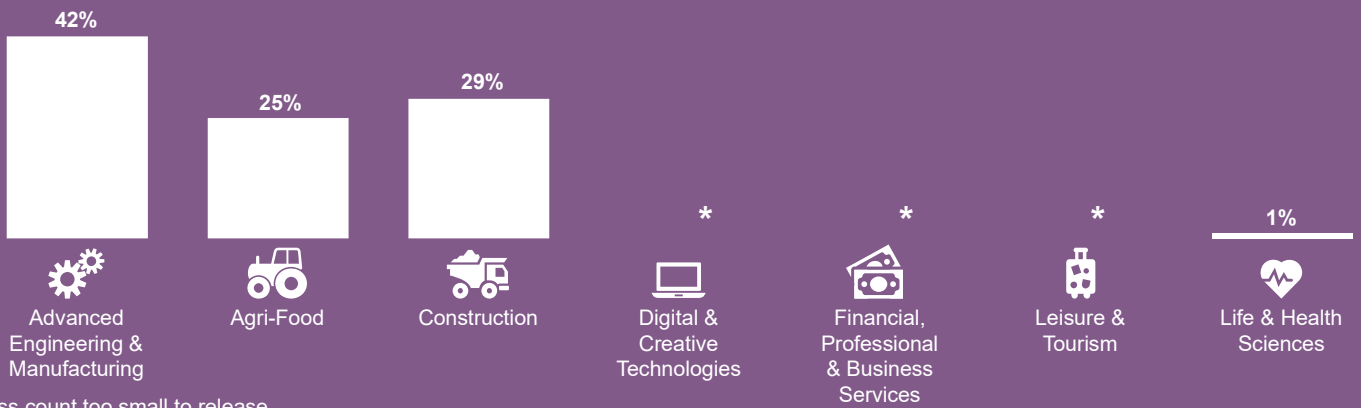

Key Performance Indicators (KPIs) are collected from a sub-set of Invest NI businesses who are significant contributors to the NI economy. KPIs are geographically assigned based on the HQ location of the business.

Key metrics include all sales, external sales outside NI, export sales outside UK and employment (based on Full-Time Equivalent). All data is provisional and subject to further revision.

Businesses are classified according to Invest NI's sector reporting structure which is based on their main product and/or service within Northern Ireland.

Employment by Sector

Businesses by Size

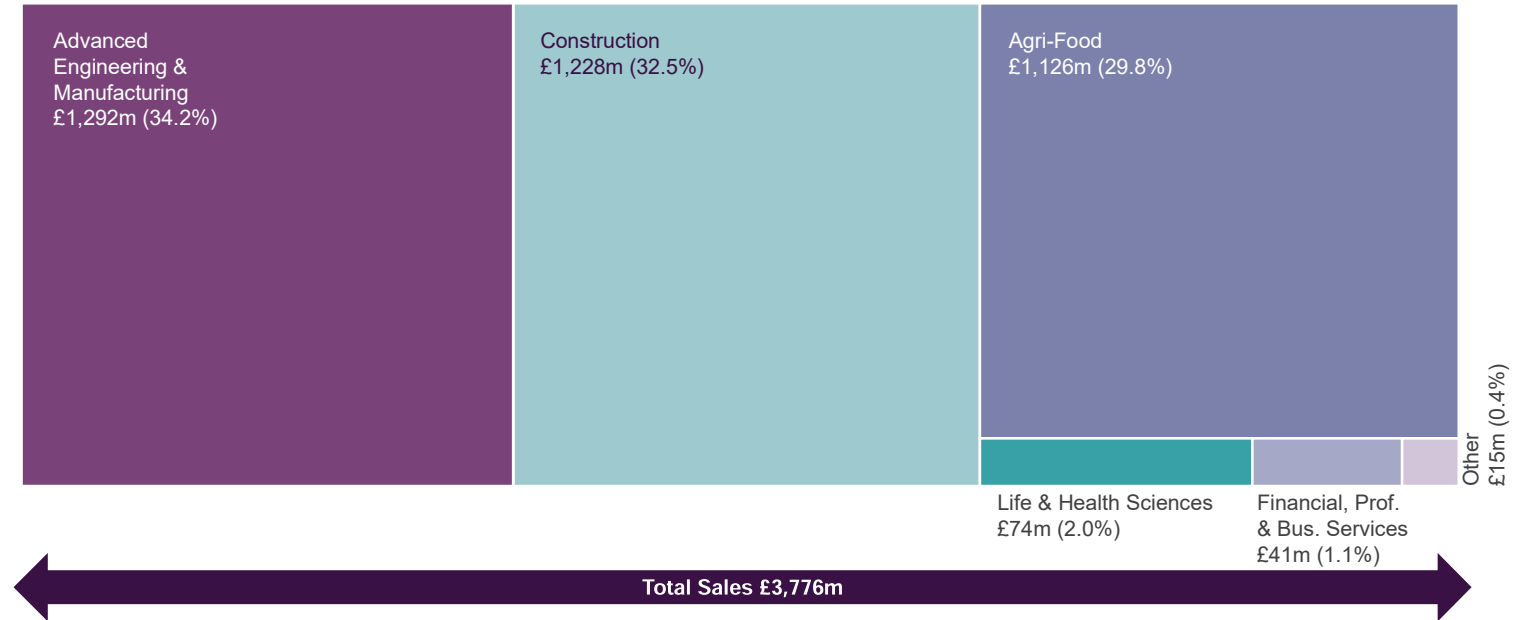

Business by Ownership

Whilst externally-owned businesses represent 6% of the total they account for 32% of employment.

Sales by Sector

Sales by Destination

Note: Individual amounts may not add to the total figure due to an unassigned amount of £3m (0.1%)

Sales by Trade Territory

Invest NI Activity (2016-17 to 2020-21)

Activity is based on those projects brought forward by Invest NI customers over the past 5 years that have been approved for an offer of support.

“Assistance” is offered at the start of a project based on a company commitment to undertake a business development project, such as job creation, R&D, skills development.

Invest NI’s Assistance is then combined with investment from the company to form the project “Investment”.

The project is then delivered over an agreed period of time meaning there is a lag between Assistance and Investment and the delivery by customers on the ground.

Assistance - Local (92%) External (8%)

Assisted Jobs - Local (92%) External (8%)

Top 10 Investors

Note: Excludes Venture Capital funding

Invest NI Assistance Company Investment

Investment by Type of Offer

Support by Ownership

External Investment by Country of Origin

Note: Country reflects ownership at the time of offer.

Investment by Sector

Note: Investment by sector does not include £2.28m of investment that cannot be allocated at council level.

Economic Profile

Population (2020)

Total Population
148,953

8% of total NI population

Source: Mid Year Population Estimates, NISRA

Population by Age

Labour Market Structure (2019)

Mid Ulster

Northern Ireland

Source: Labour Force Survey, NISRA

Unemployment Claimants (2020)

Source: Claimant Count, NISRA

The labour market structure is composed of the economically active (people in employment and seeking work) and inactive (not seeking nor available for work). This data is provided through the Labour Force Survey (LFS), the largest regular household sample survey in Northern Ireland. **Total numbers in employment do not equate to total jobs as a person can have more than one job.**

Unemployment annual averages data is derived from the Claimant Count as LFS figures fall below suppression thresholds. This is an administrative data source based on the numbers claiming unemployment-related benefits. It uses a different definition of unemployment to the LFS.

Both measures of the labour market are based on the working-age (16-64) population.

Employee Jobs (2020)

57,954 jobs within the region (8% of the Northern Ireland total)

Industry Sector

Public/Private Sector

The Business Register and Employment Survey is a business census which provides employee jobs estimates. **This is based on the location and number of jobs rather than the number of persons with a job; therefore someone with two jobs will be counted twice.** It excludes agriculture employee jobs and self-employed (not on a PAYE system).

Source: Business Register and Employment Survey, NISRA

Earnings (2020)

The median annual earnings for Northern Ireland are **£24,081**

Place of Residence

Median annual earnings based on people living in the area -

£22,921

Place of Work

Median annual earnings based on people working in the area -

£23,160

Based on median, annual, basic and other earnings for full-time employees (more than 30 hours per week) in the private sector.

Source: Annual Survey of Hours and Earnings, NISRA

Qualifications (2019)

Mid Ulster Northern Ireland

This data is provided through the Labour Force Survey (LFS) which is a household survey and includes a measure of qualifications, based on the working-age population (16-64), using the following classification:

- No Qualifications
- Below NVQ Level 4 (Level 1 to Level 3)
- NVQ Level 4 and above (degree level and above)

Source: Labour Force Survey, NISRA

Business Base (2021)

The business population is defined here by the Inter Departmental Business Register which excludes smaller businesses and the self-employed who fall below the VAT registered/PAYE thresholds.

Number of Registered Businesses

Businesses by Size

Businesses by Sector

Source: Inter Departmental Business Register, NISRA

Business Demography (2019)

A business birth is identified as a business who was present in the active business population dataset for 2019, but not in the two previous years. A business is deemed to have survived for one year if having been a birth in 2017, it is active in terms of employment and/or turnover in any part of 2018. Rates are expressed as a percentage of total active businesses.

Source: Inter Departmental Business Register, ONS

Productivity Work-Place Based (2019)

Productivity is based on the Regional Gross Value Added (Balanced) in Current Prices (£). Regional GVA is the value generated by any unit engaged in the production of goods and services.

Per head calculations are made using employee jobs, rather than the resident population as this can be subject to distortion (due to the effects of commuting and variations in age distribution).

GVA per Head by Industry

Percentage of GVA by Industry

GVA per Head (2015 - 2019)

Source: Regional GVA (Balanced), ONS and Business Register Employment Survey, NISRA

Exports (2019)

Sales by Destination

Exports 2015-2019

Note: Where a business has a head office outside NI the value has been categorised as "Unassigned". This accounts for approx. 7% of NI exports.

Source: Broad Economy Sales and Exports Statistics, NISRA

Tourism (2019)

A variety of statistics are used to provide a picture of tourism. These include: passenger and household surveys which measure the number of overnight trips and associated expenditure; occupancy surveys of local hotels and commercial accommodation and the Visitor Attraction Survey.

Overnight Trips & Associated Spend

0.1m
overnight trips
(3% of NI total)

£20m
expenditure
(2% of NI total)

Availability of Accommodation

1,781

beds available
(3% of NI total)

Tourism Jobs

← Total jobs in Mid Ulster →

3,722 tourism jobs

9% of all jobs in Northern Ireland are within the tourist industry

Visitor Attractions

1.2m

visits to visitor attractions

The most popular visitor attractions in 2019 were:-

Dungannon Park	403,840
Ballyronan Marina	263,058
Lough Fea	201,763

Note: BRES are unable to provide 2020 tourism jobs due to disclosure issues.

Source: Tourism Statistics, NISRA

Entrepreneurship (2019)

Total Early-stage Entrepreneurial Activity (TEA) represents the percentage of the population aged 18-64 who are either nascent (in process of starting a business) or new entrepreneurs (running a business not older than 42 months).

Entrepreneurial activity is based on average TEA rates recorded over 2017-2019, which are grouped due to small sample sizes.

Average TEA Rates across Council Areas (2017-2019)

Source: Global Entrepreneurship Monitor (UK), Enterprise Research Centre

Business Growth (2019)

The NI Local Growth Dashboard presents a set of growth metrics for start-ups and existing firms based on the Office for National Statistics' Business Structure Database at Council Level.

Start-ups per 10,000 Population

Number of start-ups can be seen as a headline metric of "entrepreneurial ability" and show variation across NI.

High-Growth Incidence Rate, 20% threshold (2015-18)

High-Growth Firms are defined here as businesses with annual average employment growth of 20% or more over a three year period.

Positive Productivity Incidence Rate (2015-18)

Positive productivity growth is where turnover and employment both increased, turnover at a faster rate.

Annex 3A – Copy of email received from Lough Neagh Fishermen’s Co-Operative

RE: Fishermen Licence Numbers

Further to our telephone conversation I can confirm that the 55% refers to all permits issued to people resident in all council areas associated with the lough. The figure of 133 already eliminates double counting where an individual might hold both an eel permit and a scale fish permit – so I have obviously counted them only once.

In other words, 73no. (55% of the 133) of all permit holders reside in MUDC area. You will see from the earlier submission that each of these permit holders (aka Boat Owners) are required to have a helper, 99 times out of 100 their chosen assistant is family or neighbour and therefore residing in the same council area. Therefore, we have 73 boat owners and circa 73 boat helpers residing in MUDC area.

On your other query regarding the case for policy opportunity for a dwelling in the countryside as opposed to in a village or town– you have captured most of these already;

1. Fishing quays around Lough Neagh are not in any way centralised but rather fishermen launch from and moor at primitive quays close to their homes and are therefore relatively isolated locations – this has been the tradition for generations.
2. Fishing boats and the required fishing gear, even on Lough Neagh, can be worth in excess of £60-70k and by necessity must be protected from damage, adverse weather, etc. – it is clearly easier to look after things when you live close-by and can check things regularly.
3. Similarly, fishermen will need to store live fish on occasions, and this must be done on the shoreline, in the water. There have been many incidents of unattended storage tanks being 'robbed'- that can amount to the loss of one or two days' pay for both the boat owner and his helper.
4. Living close to the lough also creates the capacity to provide suitable shelter/accommodation for boats and tackle in the off-season as well as facilities to carryout essential repair/maintenance work as the need arises.
5. The fishing industry involves long hours, often beginning at 3am and extending long into the evening. It can also involve what others might consider 'split shifts' depending on the nature of the fishing being undertaken – for example, at particular points in the season night-time work might prove more rewarding than daytime fishing and so on. Additional travel to and from a more distant place of residence adds to inconvenience and costs.
6. Clearly any insurance cover which fishermen have to protect their livelihood will be easier obtained where they reside 'on-site'.

On a general point, I consider the needs of fishermen in this regard to be on a par with agriculture and that there is a further parallel with the farming community insofar as it is becoming more and more difficult to attract younger people into the fishing industry. We have a unique natural resource in Lough Neagh, it internationally renowned for the quality of its produce. The traditions, culture and heritage of the industry have attracted global recognition and accreditation – it is vital that we all understand that ultimately it is the fishing community who are the custodians of this unique industry, and we must help them secure a sustainable and viable future or we all lose something valuable.

I hope this answers your queries.

Regards

Pat

Annex 3B – Northern Ireland Multiple Deprivation Measure 2017

LGD2014NAME	2015 Default Urban/Rural	SOA2001	SOA2001_name	Multiple Deprivation Measure Rank (where 1 is most deprived)	Income Domain Rank (where 1 is most deprived)	Employment Domain Rank (where 1 is most deprived)	Health Deprivation and Disability Domain Rank (where 1 is most deprived)	Education, Skills and Training Domain Rank (where 1 is most deprived)	Access to Services Domain Rank (where 1 is most deprived)	Living Environment Domain Rank (where 1 is most deprived)	Crime and Disorder Domain Rank (where 1 is most deprived)

Annex 4A – MUDC 405 Tracked changes version

Mid Ulster District Council

Local Development Plan: Soundness Self-Assessment Checklist for draft Plan Strategy for Independent Examination

(May 2021)

With Tracked changes – May 2023

1.0 Introduction – Concept of Soundness

- 1.1 As set out in Development Plan Practice Note 6, Soundness (May 2017), a key feature of the local development plan system is soundness which requires the development plan document (DPD) to be tested in terms of content, conformity, and the process by which it is produced at an independent examination (IE). The concept of testing the soundness of local development plans comes from established practice in England and Wales. The tests of soundness are based on three categories which relate to how the DPD has been produced, the alignment of the DPD with central government regional plans, policy and guidance and the coherence, consistency and effectiveness of the content of the DPD.

Legislative Context

- 1.2 Section 10 of The Planning Act (Northern Ireland) 2011 [2011 Act] requires that the Local Development Plan is examined at Independent Examination to ascertain if it is sound. This statement comprises the Councils self-assessment against the twelve tests of soundness contained within DPPN 6. These tests are based on three categories; procedural, consistency and coherence and effectiveness. These tests have a degree of overlap in terms of criteria. In addition, DPPN 6 also suggests that these examples may not constitute an inclusive and definitive list. Therefore, it is a matter for the council to decide the most appropriate evidence to demonstrate how it has met each test of soundness.
- 1.3 As part of the process of submitting the draft Plan Strategy, Section 10 (3) of the 2011 Act Regulation 20 of the Planning (Local Development Plan) Regulations (Northern Ireland) 2015, the Council is required to provide a range of submission documents. This soundness self-assessment is one of those documents and is provided in accordance with
- 1.4 It is the view of Mid Ulster District Council that the draft Plan Strategy meets all the tests of soundness, including in terms of procedures, consistency, coherence and effectiveness. Therefore, the Council considers that the draft Plan Strategy is ready for submission to the Department of Infrastructure for them to cause an IE. We hereby submit the draft Plan Strategy and supporting documents under Section 10 of the Planning Act (Northern Ireland) 2011 and Regulation 20 of the Planning (Local Development Plan) Regulations (Northern Ireland) 2015.

Test P1: Has the DPD been prepared in accordance with the Councils Timetable and Statement of Community Involvement?

Key Considerations

Evidence

Timetable

- Does the Timetable detail the main stages of the Plan Strategy process; has it been prepared in accordance with Section 7 of the Planning (Northern Ireland) Act 2011 and Regulations 5-8 of the Planning (Local Development Plan Regulations) Northern Ireland 2015?

- Has the Timetable been prepared in consultation with the PAC and other consultation bodies as the Council considers appropriate?

YES – The PS has been prepared in accordance with the LDP timetable. The POP was published on 7th November 2016 in line with the indicative date in the timetable that it would be published in Autumn 2016. The draft Plan Strategy was published in February 2019 in line with the indicative date given in the revised timetable to publish it in Spring 2019.

YES - The timetable was revised on two occasions – November 2018 and September 2020. Consultation was carried out with the PAC and DFI for the initial publication and for each subsequent revision. Consultation was also carried out with other bodies as deemed appropriate by the Council such as NI Water, Invest NI, DFI - Roads, GSNI AND DFI – Rivers.

All details of compliance with Regulations 5-8 of the Planning (Local Development Plan) Regulations (Northern Ireland) 2015 for the initial publication and the subsequent revisions are detailed in [MUDC409](#) [MUDC407](#).

Statement of Community Involvement

- Does the SCI set out how the Council will involve the community in accordance with SCI regulations?

YES – SCI clearly sets out how the public will be involved at each stage of the Local Development Plan process.

<ul style="list-style-type: none"> ➤ Has the SCI been agreed by Council and by DfI? ➤ Have all relevant consultation / participation procedures set out in the SCI been carried out? 	<p>YES - The SCI was agreed by the Council on 24th March 2016 before being sent to DfI for approval on 27th April 2016. Agreement was received by the Department on 6th May 2016. Subsequent revisions to the SCI were agreed by Council on 25th October 2018 and 2nd June 2020 before being sent to DfI for agreement on 29th October 2018 and 5th June 2020 respectively. Agreement was received on 21st November 2018 and on the 18th June 2020.</p> <p>YES - For details on how the requirements of the SCI were complied with, refer to MUDC408 MUDC406.</p>
<p>Test P2: Has the Council prepared its Preferred Options Paper (POP) and taken into account any representations made?</p>	
<p>Key Considerations</p>	<p>Evidence</p>
<ul style="list-style-type: none"> ➤ Has the POP been prepared and consulted upon in accordance with the Timetable and SCI? ➤ Does the POP set out a distinctive Vision, Objectives as well as a range of options and a preferred option? 	<p>YES - The POP was published on 7th November 2016 in line with the indicative date in the timetable that it would be published in Autumn 2016. For details on how the requirements of the SCI were complied with, refer to MUDC408 MUDC406.</p> <p>YES – The POP clearly sets out how the visions and objectives will be in keeping with the vision of the RDS as well as tailored to suit the vision expressed in our Community Plan. The POP also contains a structured set of objectives built around the three key themes of Accommodating People and Places, Creating Jobs and Promoting Prosperity and Enhancing the Environment and Improving the Infrastructure.</p> <p>A range of options are laid out for each important strategic issue and a preferred option is then identified with explanation given. In</p>

<p>➤ Was consultation carried out with the consultation bodies in accordance with regulation 9 of the Planning (Local Development Plan) Regulations (Northern Ireland) 2015?</p>	<p>addition a range of additional questions are posed to stimulate debate on a wide range of additional issues. Examples of such are frequent throughout the POP document.</p> <p>YES – consultation was carried out in accordance with regulation 9 - preparation of the Preferred Options Paper. For details on compliance with LDP regulations please see MUDC409 MUDC407.</p> <p>The consultation ran for a period of 12 weeks between November 7th 2016 and January 27th 2017 and was publicised through the following channels:</p> <ul style="list-style-type: none"> ✓ A Public Notice was issued in the Mid Ulster Mail, the Tyrone Courier, the Tyrone Times, the Co Derry Post, the Impartial Reporter, the Mid Ulster Observer, the Dungannon Observer and the Belfast Gazette and on the Mid Ulster District Council website (www.midulstercouncil.org) for two consecutive weeks. This notice stated: <ul style="list-style-type: none"> (i) The Council’s intention to prepare a Local Development Plan, accompanied by a Sustainability Appraisal, including Strategic Environmental and Equality Impact Assessments; (ii) Publication of the Prepared Options Paper inviting comment within 12 weeks; (iii) Details of community meetings, exhibitions and pop-in information sessions; (iv) Publication of the initial stages of Sustainability Appraisal, incorporating SEA, and invite comment as considered necessary.
--	--

	<ul style="list-style-type: none">✓ The POP and related Easy Read Guide was published on the Mid Ulster District Council website also made available at the Council Offices in Magherafelt, Dungannon and Cookstown and hard copies provided upon request.✓ A Press Release was issued in the Mid Ulster Mail, the Tyrone Courier, the Mid Ulster Observer, the Dungannon Observer, the Derry Post, the Impartial Reporter, the Tyrone times and the Belfast Gazette about the intention to prepare a new plan, drawing attention to the Preferred Options Paper and the public consultation.✓ A Launch and Exhibition was held in The Burnavon Theatre and Arts Centre in Cookstown on November 7th 2016 to announce the publication of the Preferred Options Paper. 4 P a g e PUBLIC CONSULTATION REPORT✓ Public Meetings and Exhibitions with drop in sessions were held in the District towns of Dungannon, Cookstown, Magherafelt, Coalisland and Maghera. And in a number of other locations distributed across the Mid Ulster District. Appendix 6 details the locations of all the List of Public Meetings and Exhibitions and summarizes the issues raised at each.✓ We also wrote to Elected Members and MLA's (Department Ministers and Junior Ministers) providing them with a copy of the Preferred Options Paper. x We wrote to 1,754 local community groups and section 75 groups as listed in our Statement of Community Involvement. They were given the opportunity of a meeting with a planning officer to record their views.✓ In addition to the public meetings a number of focused meeting were facilitated with local groups and some were held in conjunction with the consultation on the draft
--	--

<ul style="list-style-type: none"> ➤ Was consideration given to representations received from the POP in accordance with Regulation 9 and were regulations 10 and 11 complied with in relation to availability and public consultation on the POP? ➤ Have the Council founded their preferred options on a robust evidence base? ➤ Do options take account of Community Plan, RDS and the SPPS? 	<p>community plan. A summary of the comments made at these are contained at Appendix 6.</p> <ul style="list-style-type: none"> ✓ Engagement with the ‘Consultation Bodies’ has been a key part of the consultation on the POP and SA/SEA Interim Report. The responses from the consultation bodies are summarized at Appendix 5 and consideration of the comments is also provided. <p>YES – Yes, responses to Regulation 9 correspondence were recorded and detailed as they were received. These were subsequently considered in preparation of the POP. Responses were received from a range of consultees including utility providers, government departments and neighbouring councils. For details on compliance with LDP regulations please see MUDC409 MUDC407.</p> <p>YES – The POP was underpinned by background evidence in the form of Position Papers across a range of topics covered in the POP</p> <p>YES - The POP clearly sets out how the visions and objectives will be in keeping with the vision of the RDS as well as tailored to suit the vision expressed in our emerging Community Plan. It is self-evident in the POP itself that each section considers what the strategic objectives are as per the SPPS as well as considering what the key issues are for the District. Issues raised in the consultation process for the emerging Community Plan are also given consideration.</p>
--	---

<ul style="list-style-type: none"> ➤ Has the POP been subject to an interim SA? 	<p>It is important to note that the Community Plan for Mid Ulster was not published in its final form until May 2017 i.e. after the POP was published.</p> <p>Yes, a Sustainability Appraisal (Incorporating SEA) Interim Report accompanied the POP in November 2019 – see MUDC103</p>
<p>Test P3: Has the DPD been subject to a SA including Strategic Environmental Assessment?</p>	
<p>Key Considerations</p>	<p>Evidence</p>
<ul style="list-style-type: none"> ➤ Has the draft Plan Strategy been subject to a Sustainability Appraisal (SA) including Strategic Environmental Assessment (SEA)? ➤ Has the Council complied with relevant contained within the EAPP (NI) Regulations? 	<p>YES – All these requirements have been met. A full SA/SEA assessment has been undertaken for all the strategic and development management policies and proposed designations in the draft Plan Strategy.</p> <p>A copy of the SA/SEA is submitted with the draft Plan Strategy. See MUDC102</p>
<p>Test P4: Did the Council comply with the regulations on the form and content of the draft Plan Strategy and procedure for preparing the draft Plan Strategy?</p>	
<p>Key Considerations</p>	<p>Evidence</p>
<ul style="list-style-type: none"> ➤ Has the Council complied with the relevant requirements contained within the Planning (Local Development Plan) Regulations (Northern Ireland) 2015? 	<p>YES – All details on compliance with the regulations can be found at MUDC409. <u>MUDC407.</u></p> <p>The draft Plan Strategy clearly sets out the Council’s objectives in relation to the development of land within the District. It contains</p>

<p>➤ Has the Council taken account of any representations received in relation to the POP and considered representations and counter-representations received on the draft Plan Strategy.</p>	<p>specific policies for the implementation of those objectives and also contains maps of strategic designations to show how those polices will be implemented spatially. For example, maps are provided of Areas of Constraint on Minerals Development, Special Countryside Areas and other strategic designations. Separate and distinct justification is provided for each policy along with clear evidence of how the policy approach fits with regional policy and with the vision of the District which is expressed in the Community Plan.</p> <p>YES –</p> <p><u>POP</u></p> <p>In total 657 representations were received to the POP as well as 29 “late” representations which were received after the closure of the consultation period. In January 2019, the Council published its Preferred Options Paper Public Consultation Report. The report was structured around the sections of the Preferred Options Paper.</p> <p>It explained in detail the issues which had been raised by Consultation Bodies and by members of the public. It set out the Councils consideration of these issues which had been raised and what our recommendation was based on the careful consideration of such. It also detailed how the recommendations had been implemented in moving forward with the draft Plan Strategy, where relevant.</p>
---	--

	<p>The Public Consultation Report on the POP was agreed by Planning Committee over 3 separate meetings on 17th October 2017, 2nd November 2017 and 28th November 2017.</p> <p><u>Draft Plan Strategy</u></p> <p>There were 204 representations received to the initial consultation period for the draft Plan Strategy. Following the closure of that consultation period, a consultation report was also completed to consider representations received. This report. In the report, under each chapter/topic heading, the main issues are identified followed by all representations made which are related to that issue. The regional and local policy context are outlined and a response to specific issues, which includes the reference number of each representation, followed by the Council's consideration and suggested action. Consideration of any counter-representation are also included. This report was agreed by Planning Committee over three separate meetings at the end of 2019 and beginning of 2020.</p> <p>Following this, a procedural error was discovered which meant that a re-consultation was undertaken. In total, 36 representations were received to that re-consultation and the report was updated to reflect the issues raised in this process. Again, any counter representations received tot his re-consultation process were included in the report. The report was agreed by Planning Committee on the 12th April 2021.</p> <p>The POP and DPS consultation reports can be found at MUDC114 and MUDC116</p>
<p>Test C1: Did the Council take account of the Regional Development Strategy?</p>	
<p>Key Considerations</p>	<p>Evidence</p>

<ul style="list-style-type: none"> ➤ Did the Council ensure that the objectives, proposals and policies contained the dPS have taken account of the RDS and provide evidence of how this has been undertaken? ➤ Has the Council referred to the RDS throughout the draft Plan Strategy? 	<p>YES – The RDS has been considered and taken account of throughout the process of preparing the draft Plan Strategy. The earliest background evidence position papers clearly took account of the RDS and the SPPS and these were discussed in the introduction to each paper.</p> <p>The spatial Growth Strategy of the DPS has clearly been based on the RDS and this is evidenced in the introduction to chapter 4.0. In addition, each policy chapter of the draft Plan Strategy has a section setting out the regional policy context.</p> <p>Examples of where the RDS has been taken account of in the DPS include;</p> <ul style="list-style-type: none"> ✓ The RDS aim of concentrating development in the three main hubs of Cookstown, Dungannon and Magherafelt is evidenced through SPF 2. ✓ The RDS aim of 60% of new housing to urban centres with >5k population is evidenced through the local housing indicators in the DPS (Appendix 1). ✓ The RDS aim of sustaining rural communities in small settlements and the open countryside is evidenced through SPF 5, SPF 6 and our rural housing policy and rural economic policy. ✓ The RDS aim of ensuring secure energy supply has been realised through the decision not to bring forward separation distances for single turbines as proposed in the POP – see MUDPS 239 - as this would hinder energy supply
---	---

<p>➤ Where an aspect of dPS departs from the approach of the RDS, does the evidence base support a different approach?</p>	<p>✓ Settlement Hierarchy has been defined using the Infrastructure Wheel. See background evidence paper entitled Strategic Settlement Evaluation – MUDC215</p> <p>The background papers and the SA report provide analysis of evidence and justification in support of policy direction. In those policies that represent a slight deviation from regional policy, this is set out either in the PS itself or in the accompanying background papers and studies. The SA Report also provides justification on why certain options were pursued.</p>
<p>Test C2: Did the Council take account of its Community Plan?</p>	
<p>Key Considerations</p>	<p>Evidence</p>
<p>➤ Has the draft Plan Strategy demonstrated how its policies, allocations and strategic designations give spatial expression to the Community Plan?</p>	<p>YES – Para. 1.17 of the DPS states that the Local Development Plan for Mid Ulster supports and spatially represents the vision of the Community Plan. The Community Plan has been a major consideration throughout the creation of the draft Plan Strategy.</p> <p>It is however, important to remember that the Community Plan was not published until after the launch of the POP and therefore,</p>

consideration of its finalised outcomes and goals were not possible in the early phase of evidence gathering. When the Community Plan was published in its final form, later evidence gathering and background studies show clear evidence of considering the themes and outcomes of the Community Plan. See [MUDC055](#), [MUDC057](#) [MUDC244](#) for example.

The POP clearly sets out how its visions and objectives are tailored to suit the vision expressed in our emerging Community Plan. It is self-evident in the POP itself that each section considers what the strategic objectives are as per the SPPS as well as considering what the key issues are for the District. Issues raised in the consultation process for the emerging Community Plan are also given consideration.

Each section of the draft Plan Strategy also contains consideration on what parts of the Community Plan are relevant to the topic in question.

Most of the designations in the DPS are strategic in nature and more specific policies / allocations will be identified at LPP stage. However, planning policies proposed within the strategy do give spatial representation to the outcomes of the Community Plan. For example;

Outcome 3 of Community Plan Theme 3 - "Education and Skills" states that "*we are more entrepreneurial, innovative and creative.*" The DPS seeks to implement this outcome by recognising the strong entrepreneurial spirit in Mid Ulster and therefore allowing greater flexibility for small workshop type development in the rural area and economic development on the edges of a settlement.

Test C3: Did the Council take account of policy and guidance issued by the Department?

Key Considerations	Evidence
<ul style="list-style-type: none"> ➤ Do the policies, objectives and proposals contained within the draft Plan Strategy take account of policy guidance issued by the Department. 	<p>YES - As mentioned above, the draft Plan Strategy has taken account of the RDS. The SPPS sets out regional planning policy for the two tier planning system and is in keeping with the RDS. Each section of the DPS includes a consideration of regional policy and how it pertains to the subject matter. This is clear evidence of the SPPS being taken into account when formulating policy.</p> <p>This is also the case for background preparatory papers dating back to the very beginning of the draft Plan Strategy process. Early preparatory papers for baseline evidence gathering have clear linkages to the SPPS (draft SPPS in some instances) as well as other regional policy and guidance such as Planning Policy Statements and the Planning Strategy for Rural Northern Ireland, where relevant and Development Control Advice Notes (DCANs), where relevant.</p>

Test C4: Has the plan had regard to other relevant plans, policies and strategies relating to the Council's District or to any adjoining councils District?

Key Considerations	Evidence
<ul style="list-style-type: none"> ➤ Does the draft Plan Strategy have regard to other plans and policies relating to the District or to any adjoining district. 	<p>Other Plans and Policies</p> <p>YES - In preparing background evidence papers, consideration was given to the extant Area plans and how they impacted upon the subject matter in question. For example in the initial evidence</p>

gathering stage for formulation of Minerals Policy, consideration was given to the existing Areas of Constraint on Mineral Development as well as existing Areas of Safeguarding.

Consideration was also given to the Regional Transportation Strategy and the Mid Ulster District Council Local Transport Strategy as well as other overarching Regional Transport Strategies / Plan. For example, the preparatory evidence paper used in the formulation of transport policy, details how the following regional strategies and polices have been considered;

- The Regional Transportation Strategy (RTS) 2002-2012
- DRD Ensuring a Sustainable Transport Future: A New Approach to Regional Transportation.
- Regional Strategic Transport Network Transport Plan 2015 (RSTN TP)
- Sub Regional Transport Plan 2015 (SRTP)
- Mid Ulster Tourism Strategy

Additionally, we have considered the draft Marine Plan and how our DPS, whilst not relating to a District with a coastline, can help to implement the aims and outcomes of the draft Marine Plan.

This is not intended to be an exhaustive list of other plans and guidance which have been considered in the formulation of the DPS, rather is intended to provide evidence that consideration was give, to alternative plans / strategies, where appropriate.

Adjoining Districts

	<p>The Council has complied with all statutory obligations to consult with adjoining councils who are classed as “Consultation Bodies” as per the Local Development Plan (Regulations) Northern Ireland 2015. Evidence of this compliance is detailed in MUDC409. MUDC407.</p> <p>The Council has also considered and responded to each adjoining council in respect of their emerging draft Plan Strategy and the proposals within. We have done this directly to each council via statutory consultations, which we have received, and via the Cross Border Forum (Mid Ulster, Fermanagh & Omagh, Armagh, Banbridge & Craigavon and Monaghan County Council) and the Sperrins Forum (Mid Ulster, Derry & Strabane, Fermanagh & Omagh and Causeway Coast and Glens). We have worked with both these forums to produce Statements of Common Ground (Sperrins Forum is in draft form), which whilst are not formally signed show that clear agreement has been reached. This will help ensure issues of mutual concern such as protection of landscapes, minerals development, and transport linkages are dealt with by each council in a way that will not undermine the forthcoming proposals in each other’s draft Plan Strategy. (SEE DOCUMENT NUMBERS MUDC 501 & 502).</p> <p>For example, on the issue of protecting our important landscapes, all councils in the Sperrins Forum agreed that we would protect them but that each council would bring forward its own mechanism for doing so.</p>
<p>Test CE1: The DPD sets out a coherent strategy from which its policies and allocations logically flow and where cross boundary issues are relevant, it is not in conflict with the DPDs of neighbouring councils</p>	
<p>Key Considerations</p>	<p>Evidence</p>

<p>➤ Where relevant has, the DPS taken account of national and regional policy/strategy.</p>	<p>For example, the first objective of the Plan Strategy IS <i>“To build Cookstown, Dungannon and Magherafelt, as economic and transportation hubs and as main service centres for shops, leisure activities, public administrative and community services including health and education. These are the most populated places and the town centres are the most accessible locations for people to travel including those without a car.”</i></p> <p>This is directly linked to SPF 2 and the associated housing allocations which are explained therein and represented in the local housing growth indicators which indicate the level of available land in the settlements which can help to accommodate this aim.</p> <p>Additionally, strategic policies seek to facilitate this strategic aim by among other things, accommodating housing in settlements, protecting zoned land in settlements and operating a town centre first approach to retail development.</p> <p>In addition, the SA/SEA process has sought to ensure that policies are consistent and coherent.</p> <p>The draft PS has been prepared and presented in a clear and consistent manner. The policy areas have been clearly identified under the three main pillars of sustainable development i.e. Economic, Environmental and Societal policies.</p> <p>YES – In addition to implementing the aims of the RDS, the draft Plan Strategy has also taken into account more specific regional and national targets and are cognisant of the fact that the DPS can act as a vehicle by which to realise these.</p>
--	--

<ul style="list-style-type: none"> ➤ Have cross boundary issues been considered to ensure that the Plan Strategy is not in conflict with the PS of neighbouring Councils. ➤ Where applicable, has consultation taken place with planning authorities in the ROI? 	<p>For instance, the Renewable Energy proposals put forward in the DPS are different to those put forward in the POP because it was recognised that the proposals put forward in the POP would hinder our ability to meet regional renewable energy targets. This consideration is evidenced in MUDC239.</p> <p>YES – See above (C4 for breakdown of level of consultation with neighbouring councils on cross boundary issues.</p> <p>YES – Yes, direct consultation has taken place with Monaghan Co Council and as detailed above via the Cross Border Forum. We have also engaged with the North West Regional Assembly (NWRA) in relation to their draft Regional Spatial and Economic Strategy (RSES) to ensure that our LDP is not at odds with the proposals contained within their draft document.</p>
--	---

Test CE2: The Strategy, policy and allocations are realistic and appropriate having considered the relevant alternatives and are founded on a robust evidence base.

Key Considerations	Evidence
<ul style="list-style-type: none"> ➤ Is it clear that the Council have considered all relevant alternatives when preparing the DPD? 	<p>YES – The POP clearly sets out a range of options on how policy could be developed to address the main issues. These options were developed from background evidence papers where the main issues and baseline evidence was explored and discussed. The POP was intended to stimulate debate on these options from the general public as well as the consultation bodies. The POP also welcomed suggestions for other options which were not included as preferred options. The findings from the consultation</p>

	<p>on the POP was considered as detailed above, in the formulation of the DPS.</p> <p>An SA/SEA interim report was prepared for the POP. An SA/SEA also accompanies the draft Plan Strategy. The both of these reports provide detailed explanation of how each alternative was considered against a range of economic, social and environmental indicators. The options are described in the SA/SEA as being “reasonable alternatives” and this shows how those options, which are considered as realistic, have been considered.</p> <p>There is also specific evidence in the SA/SEA that less realistic options less are considered less appropriate. For example, in considering the options for transportation and connectivity, option (ii) is considered the preferred option, partly because it is “a more realistic way of tackling the issue of transportation and connectivity throughout the District.”</p> <p>The robust nature of the evidence base is laid out in the range of position papers, policy reviews further background papers and technical studies. This evidence base is robust but is also dynamic.</p> <p>For example, the NISRA population projections that were used as evidence to calculate the amount of jobs required over the Plan Period has changed but the change does not show that we will be unable to accommodate the required number of jobs throughout the Plan Period. Evidence such as this will change over the Plan Period but the Council will monitor it to ensure that we are still able to meet the plan Objectives.</p>
--	---

	Likewise, the renewable energy targets for Northern Ireland are likely to be increased over the life of the Plan Period. This is something which will not be exclusive to Mid Ulster but will relate to Northern Ireland as a whole and which will be continually monitored as part of the annual monitoring report.
Test CE3: There are clear measures for implementation and monitoring.	
Key Considerations	Evidence
<ul style="list-style-type: none"> ➤ Does the draft Plan Strategy include mechanisms for monitoring the implementation and delivery of the stated objectives? 	<p>YES – The draft Strategy includes a specific section on how we will monitor the implementation the objectives of the Strategy. These will be used to compete the Annual Monitoring Report (AMR) as well as a review that will take place, at a maximum of every years.</p> <p>The monitoring section includes specific outcomes, indicators and measures that will be used to monitor the level to which the objectives of the Strategy are being implemented. These include indicators such as the amount of housing land available and availability of economic land.</p> <p>The AMR will be implemented following the adoption of the Plan Strategy and therefore, it has not been possible to carry out any monitoring, although it is clear that mechanisms are in place monitoring the level to which are objectives are implemented.</p>

Test CE4: It is reasonably flexible to enable it to deal with changing circumstances.

Key Considerations

Evidence

- How flexible is the draft Plan Strategy to enable it to adapt to unexpected changes in circumstances?

The draft Plan Strategy largely reflects established planning policy and the policies contained within it should cover every eventuality. Ongoing monitoring will ensure the Strategy remains relevant and whether there is a need to review or amend it. This includes where there may be unexpected trends or significant changes to regional policy and guidance. The Strategy is flexible to changing economic circumstances and can meet any unexpected increases in future housing demand through existing housing supply commitments.

The LPP will contain phased housing land so that if demand is high then additional land can be made available over and above that which is anticipated.

Evidence which was used in the formulation of the DPS is subject to change. For example, the NISRA population projections that were used as evidence to calculate the amount of jobs required over the Plan Period has changed but the change does not show that we will be unable to accommodate the required number of jobs throughout the Plan Period. Evidence such as this will change over the Plan Period but the Council will monitor it to ensure that we are still able to meet the plan Objectives.

Likewise, the renewable energy targets for Northern Ireland are likely to be increased over the life of the Plan Period. This is something which will not be exclusive to Mid Ulster but will relate to Northern Ireland as a whole and which will be continually monitored as part of the annual monitoring report.

1.0 Introduction

- 1.1 This report has been prepared in accordance with the requirements of Section 4 of the Planning Act (Northern Ireland) 2011 ('the 2011 act') and Regulation 20(2)(c) of the Planning (Local Development Plan) Regulations (NI) 2015. Mid Ulster District Council ('the Council') published its Statement of Community Involvement (SCI) in May 2016. A draft SCI was presented to the Planning Committee on 2nd June 2015 including a draft Appendix 1 consisting of three separate lists of all Groups to be consulted when preparing the new Local Development Plan. (Appendix 1) It was resolved that the SCI will be kept under review and any new groups or bodies wishing to be included or added to the lists contained in Appendix 1 of the draft SCI may wish to have their details added would be subject to Council Agreement.
- 1.2 Invitation letters, dated 12th August 2015, were issued to those Groups included in Appendix 1 of draft SCI, to establish if they wished to be included in the list of Community Groups who will be contacted by the Council during the preparation of the new Local Development Plan for Mid Ulster. (Appendix 2)
- 1.3 A draft SCI was agreed with the Council on 24th March 2016, with a subsequent addendum agreed on 26th April 2016 (Appendix 3) and approved by Department for Infrastructure on 6th May 2016. (Appendix 4)
- 1.4 The SCI was revised on ~~June~~ October 2018 to reflect new legislation on data protection, namely the General Data Protection Regulations (GDPR). The GDPR legal requirements commenced on 29th May 2018. A paper regarding this issue was presented to the Planning Committee on 9th May 2018 (Appendix 5). Subsequently, all those listed on Appendix A of 2016 SCI were contacted and advised of the legal requirement to confirm in writing consent for the Council to retain contact details of those identified in Appendix 1 of the SCI 2016. (Appendix 6) The Department for Infrastructure agreed the revised SCI on 21st November 2018. (Appendix 7)
- 1.5 The SCI was revised again to reflect the unforeseen impacts of a procedural error and of the COVID19 Pandemic restricting how public consultation procedures were complied with. The Planning Committee considered a paper on 3rd March 2020 (Appendix 8) regarding the identified procedural error. The Planning Committee resolved to re-consult on the draft Plan Strategy and SA, SEA Environmental Report. A public notice was issued providing details of the re-consultation period for the LDP 2030 draft Plan Strategy noting it would run for a period of 8-weeks commencing at 10am on 25th March 2020 and ending

at 5pm on 21st May 2020. ~~(Appendix 9)~~ (Appendix 48) Details of public exhibitions and drop-in events were contained in the Public Notice.

- 1.6 On 23rd March 2020 Northern Ireland commenced the first COVID19 lockdown. The Councils resolution to re-consult on the draft Plan Strategy and Sustainability Appraisal (SA), Strategic Environmental Assessment (SEA) Environmental Report was to commence on 25th March 2020. COVID19 lockdown required a re-consideration of how the public consultation could proceed. A notification to the public was issued. ~~(Appendix 10)~~ (Appendix 48)
- 1.7 A paper was presented to the Planning Committee on 2nd June 2020 regarding the need to amend the SCI document (Appendix 11) and to agree procedural alternatives given restrictive COVID19 requirements on face-to-face and public interactions. The Council wrote to the Department for Infrastructure (DfI) on 5th June 2020 and received reply on 18th June 2020. (Appendix 12) A further notification was issued to a local newspaper providing detail of the agreed revised SCI. (Appendix 13) In addition, notification of an agreed time extension on the public re-consultation on the Draft Plan Strategy and SA, SEA was issued. (Appendix 14) A further notification was issued regarding amended 8-week period for submission of counter-representations. (Appendix 15)
- 1.8 The Planning (Statement of Community Involvement) Regulations (NI) 2015 requires that the Council keep the SCI under regular review. The Planning (Local Development Plan) Regulations (NI) 2015 requires that when a development plan document is submitted to the Department for Infrastructure for independent examination, it is accompanied by evidence that the Council has complied with its Statement of Community Involvement (SCI).
- 1.9 The purpose of the SCI Compliance Paper is to outline how the Council proposes to engage the community and stakeholders in exercising its planning functions. The Council's SCI takes account of Department for Infrastructure (DfI's) guidance as contained in Development Plan Practice Note 2; and, was prepared in accordance with the 2015 Regulations. Full details of the SCI are available via www.midulstercouncil.org

Principles of Community Involvement

- 1.10 The key principles that have underpinned community engagements in the Local Development Plan (LDP) process laid out in the SCI namely:-
 - A culture of engagement;
 - Early Involvement;
 - Open, Transparent, Inclusive and Fit for Purpose;

Draft Plan Strategy SCI Compliance Report

- Continuing Involvement;
- Reaching Our; and,
- Clarity

1.11 In applying these principles, the Council has sought to ensure that those who live in the Council area and are most likely to be affected by the policies and proposals in the LDP are involved throughout the plan making process. This is in addition to statutory organisations such as Government Departments, neighbouring councils, and gas, water and electricity providers, which we must consult.

1.12 The purpose of this report is to outline how the preparation of the draft Plan Strategy (dPS) has complied with our SCI action points. Within this report, the Council have detailed each Action Point and provided comment on how Mid Ulster District Council (MUDC) consider they have been achieved. **Table 1** sets out the timeframe for each public consultation stage.

1.13 The report sets out:

- The steps taken to publicise and engage with the community throughout the LDP preparation process to date; and
- The bodies engaged or consulted at each public consultation stage.

Table 1: Consultation Stages for LDP to date	
Stage	Period of Consultation
Preferred Options Paper (POP)	7 th November 2016 – 27 th January 2017
Draft Plan Strategy (dPS)	22 nd February 2019 – 9 th August 2019
dPS publication of representations received and receipt of counter representations	(i) 22 nd February 2019 – 19 th April 2019 (ii) 14 th June 2019 – 9 th August 2019
Re-consultation of Draft Plan Strategy (dPS)	25 th March 2020 – 18 th December 2020
Re-consultation of representations received and receipt of counter representations.	(i) 25 th March 2020 - 21 st October 2020 (ii) 22 nd October – 18 th December 2020

2.0 Developing the Evidence Base

- 2.1 The initial phase of preparation involves drawing up a timetable and moving towards publishing the Preferred Options Paper (POP). Prior to the publication of the timetable, the Council undertook a wide range of preparatory studies to inform the POP. In preparing the POP there was an interim SA/SEA compiled which was accompanied by the Scoping Report, as well as an EQIA Progress Report. All preparatory papers and policy reviews are available on the Council's website at www.midulstercouncil.org/planning

SCI Action

Steering Group – What the SCI May 2016 says:

We will set up a Steering Group comprising representatives of the Mid Ulster Planning Committee, the Chief Executive and the Planning Manager. This will be the high-level co-ordinating body will ensure an overview and strategic input on behalf of the whole community, as well as from planning professionals.

- 2.2 The Council established the Steering Group, comprised of the Planning Committee, the Chief Executive and the Planning Manager. The Steering Group has responsibility for managing the progress of the Local Development Plan 2030 (LDP), agree changes and oversee the progress of the LDP with Council.
- 2.3 This requirement was in the form of the Mid Ulster District Council Planning Committee consulted at each stage of the Plan process and who gave their views and agreement to proceed at each stage. The adopted Protocol for Operation of Mid Ulster District Council Planning Committee attached, (Appendix 16). In addition, a copy of the Planning Department's Scheme of Delegation is available at www.midulstercouncil.org/your-council/councillor-and-committees.

SCI Action

Project Management Team – What the SCI May 2016 says:

Formation of a Project Management Team (Multi-Disciplinary Steering Group) comprising MUDC Planning Manager, Principal Planning Officer, Chair of the Planning Committee, Vice Chair of the Planning Committee, MUDC Director of Business and Communities, Director of Culture and Leisure, Director of Environmental Service and representatives from the relevant NI Government Departments. The PMT will be consulted on and will act as the screening and scoping group for the Sustainability Appraisal (SA), including Strategic Environmental Assessment (SEA) and Equality Impact Assessment (EQIA).

- 2.4 A Project Management Team (PMT) namely, MUDC SA/SEA multi-disciplinary Steering Group comprised MUDC Planning Manager, Principal Planning Officer, Chair of the Planning Committee, Vice Chair of the Planning Committee, MUDC Director of Business and Communities, Director of Culture and Leisure, Director of Environmental Service and representatives from the relevant NI Government Departments. Invitation letters were issued to an inaugural PMT meeting on 9th February 2016. The dates of PMT meeting are detailed below:

- 9th February 2016 (Appendix 17)
- 29th June 2016 (Appendix 18)
- 25th August 2016 (Appendix 19)
- 26th and 27th June 2018 (Appendix 20)

SCI Action Point

Key Development Plan Consultees – What the SCI May 2016 says:

Key Consultees will receive written invitation requesting them to participate in the plan making process by providing information on the key strategic issues that the Local Development Plan should address.

- 2.5 Key Development Plan Consultees were identified as per Item 7.2 of SCI Planning Committee paper dated 2nd June 2015. As part of the pre-POP consultation process said Key Consultees were and are included in draft SCI

Draft Plan Strategy SCI Compliance Report

presented to the Planning Committee on 2nd June 2015 (Appendix 1) invited to provide information on the key strategic issues that the Local Development Plan 2030 should address. An invitation letter was issued on 22nd January 2015. (Appendix 21) Subsequently, the Project Management Team (PMT) formed and convened on 9th February 2016.

SCI Action Point

Section 75 Groups – What the SCI May 2016 says:

We will invite under-represented (Section 75) groups to identify whether there are any types of planning policies, which are likely to have a significant impact on the groups they represent. They will also be provided opportunity to identify any particular issues or needs, which they feel the plan should address. Where requested this can be done through a face to face meeting with our Planning Officers. Any comments received will be taken into account when screening and scoping the Equality Impact Assessment.

- 2.6 All Section 75 (s.75) groups identified as per Item 7.2 of SCI Planning Committee paper dated 2nd June 2015, and confirmed in List 3, Appendix 1 of the published SCI document, contacted in writing on 14th August 2015 and, invited to identify any particular issues or needs, which they felt, should be addressed. (Appendix 22)

SCI Action Point

Sustainability Appraisal – What the SCI May 2016 says:

The Scoping Report of the SA incorporating SEA will be sent to the Department and if necessary, they may be requested to undertake trans-boundary consultation with the Republic of Ireland.

- 2.7 The Council invited the SA/SEA consultation body (formerly NIEA) to attend the first meeting of the Multi-Disciplinary Steering Group / Project Management Team on 22nd January 2015 (Appendix 23). Following the inaugural meeting of said Team on 9th February 2016 a letter was issued to the consultation body along with the draft SA/SEA Scoping Report on 1st April 2016 (Appendix 24)

Draft Plan Strategy SCI Compliance Report

- 2.8 Following consultation with the identified consultation body, (formerly NIEA), Mid Ulster District Council's SA/SEA Scoping report was sent to the Department of Infrastructure (DfI) along with a cover letter. Subsequently DfI issued a reply letter on 29th April 2016. (Appendix 25)
- 2.9 An invitation letter was issued to all adjoining jurisdictions including Monaghan County Council highlighting trans-boundary strategic planning policy issues (Appendix 26). A copy of the SA/SEA Scoping Report was included as was a copy of the LDP draft Timetable.

SCI Action Point

Public Notices and Consultation – What we promised SCI May 2016

Issue a Public Notice in the Mid Ulster Mail and the Tyrone Courier confirming the publication of the Mid Ulster Timetable for the preparation of the new Local Development Plan as well as other supporting information. The notice will state that the agreed timetable and supporting information will be made available for inspection during normal in all three Council Offices and such other places within the district considered appropriate as well as being available on the Council website www.midulstercouncil.org

- 2.10 A SCI document and LDP Timetable published on the Council's website following formal agreement by DfI, 6th May 2016. (Appendix 3) To accord with legislative requirements a public notice was placed in the Tyrone Courier, Mid Ulster Mail, (Appendix 27), for two consecutive weeks commencing 25th May 2016, advising where the Timetable and SCI could be viewed and where copies could be obtained.
- 2.11 Public Notices for the LDP 2030 Timetable and subsequent revised Timetables were issued on;
- LDP Timetable May 2016 (Appendix 28)
 - LDP Timetable June 2018 (Appendix 29)
 - LDP Timetable August 2020 (Appendix 30)
- 2.13 Each public notice provided details on where to locate the agreed timetable and supporting information could be accessed, including hard copies at the three Mid Ulster District Council Offices (Cookstown, Dungannon and Magherafelt) and online at www.midulstercouncil.org.
- 2.14 To accord with Reg. 7 of the Planning (Local Development Plan) Regulations (NI) 2015 and Reg. 6 of the Planning (Statement of Community Involvement) Regulations (NI) 2015 DfI were consulted.

Draft Plan Strategy SCI Compliance Report

- DfI Letter 6th May 2016 (Appendix 4)
- DfI Letter 21st November 2018 (Appendix 7)
- DfI Letter 23rd November 2020 (Appendix 31)

SCI Action Point

Public Interest – What the SCI May 2016 says:

The SCI will be kept under review and any new groups or bodies wishing to be included or added to the lists contained in the appendices may request to have their details added. This will be subject to Council agreement.

- 2.15 A list of all local community and voluntary groups was compiled with the assistance of the Community Planning Team database and identified within the draft SCI Paper Annex 1 List 2. (Appendix 1) A letter dated 12th August 2015 (Appendix 2) was issued to all local Community and Voluntary Groups seeking confirmation if they wished to be included in the list of Community Groups who will be contacted by Mid Ulster Council during the preparation of the new Local Development Plan 2030. Consequently, 225 responses received and considered. The majority of which confirmed desire for inclusion on the list of Community Groups and clarification of contact details. The complete list of Groups consulted remains under review throughout the process.

3.0 Publication of the Preferred Options Paper (POP)

- 3.1 The POP set out key plan issues and suggested options available to address them. The key purpose of the POP is to encourage debate on issues of strategic significance, which are likely to influence the shape of future development within our District.

SCI Action Point

Public Notice – What the SCI May 2016 said:

Issue a public notice in the Mid Ulster Mail, the Tyrone Courier, and the Belfast Gazette and on the Mid Ulster Council website www.midulstercouncil.org for two consecutive weeks. This notice will state:

- i) The intention to prepare a Local Development Plan, accompanied by a Sustainability Appraisal, including Strategic Environmental and Equality Impact Assessments;
- ii) Publication of the Preferred Options Paper inviting comment within 12 weeks;
- iii) Details of community meetings, exhibitions and pop-in information sessions;
- iv) Publication of the initial stages of Sustainability Appraisal, incorporating SEA, and invite comment as considered necessary.

-
- 3.2 Public notice placed in the Mid Ulster Mail and the Tyrone Courier for two consecutive weeks commencing 25th October 2016, **Table 2**, and the Belfast Gazette on 11th and 18th November 2016. (Appendix 32) The Public Notice provided details of community meetings, exhibitions and pop-in information sessions, as well as confirming the 12-week public consultation period for the Preferred Options Paper and the SA/SEA Scoping Report and Interim Report. A EQIA Progress Report was also published for public consultation.

- 3.4 Letters inviting comment were issued to all parties identified in Appendix 1 of the SCI (2016 Version) within 12 weeks.

SCI Action Point

Publication and Availability of the Preferred Options Paper – What the SCI May 2016 says:

Publish the POP on the Mid Ulster Council website www.midulstercouncil.org and invite comments within 12 weeks. Also make the POP available at the Council Offices in Magherafelt, Dungannon and Cookstown and provide hard copies upon request (Tel.03000 132 132) at a specified price.

- 3.5 In accordance with Articles 8 and 9 of the Planning Act (NI) 2011, The Preferred Options Paper (POP) accompanied by Sustainability Appraisal (SA), including Strategic Environmental Assessment (SEA) Interim Report was published on the Council’s website on 7th November 2016, where it is currently still available.
- 3.6 A hard copy of the Preferred Options Paper and preparatory papers including Sustainability Appraisal Scoping Report, Interim Report and EQIA Progress Report where all made available to the public at the Council’s three main offices (Cookstown, Dungannon and Magherafelt) on 7th November 2016 and hard copies made available upon request at a specified price.

SCI Action Point

Public Consultation – What the SCI May 2016 said

Issue a Press Release in the Mid Ulster Mail, the Tyrone Courier and the Belfast Gazette about the intention to prepare a new plan, drawing attention to the Preferred Options Paper and the public consultation. This will allow individual residents, developers, landowners and any other person with a stake in the LDP to make representation.

- 3.7 A 12-week Public Consultation exercise for the POP with accompanying documents commenced on 7th November 2016 and ended at 5pm on 27th January 2017. A Press Ad., public notification and related newspaper articles issued to local newspapers and displayed on the news section of the Council website. Local newspapers included the Mid Ulster Mail and the Tyrone Courier. Regionally a public notice was published in the Belfast Gazette for two consecutive weeks, 11.11.2016 and 18.11.2016. (Appendix 32)
- 3.8 A public notice that included details of public exhibitions and meetings related to the Council's LDP 2030 Preferred Options Paper, (**Tables 2 and 3**), was published in the local newspapers, Belfast Gazette and online at www.midulstercouncil.org.

SCI Action Point

Launch & Exhibition – What the SCI May 2016 Said

Hold a launch and exhibition to announce the publication of the Preferred Options Paper.

- 3.9 The launch event was held on 7th November 2016 with an accompanying exhibition at the Burnavon Centre, Cookstown. Elected members, representatives from key government departments and community groups and representatives from local business were invited to attend the launch at which the Planning Manager and Head of Service addressed the delegates.

SCI Action Point

Public Engagement – What the SCI May 2016 said:

Hold public meetings and Exhibitions with drop in sessions in Dungannon, Cookstown and Magherafelt. Other locations will be identified and agreed.

- 3.10 In the 12-week period following the public consultation launch date; and, publication of the POP, a series of ‘*drop-in*’ sessions and exhibitions undertaken at a range of local community venues, as previously detailed in **Table 3**. Concurrently, a series of public meetings commenced, **Table 4**; followed by Office meetings if requested. All public engagement information and consultation documents were available via the Council’s website, with hardcopies for review during exhibition periods and at the three Council Offices.

Table 4: Public Meetings

SCI Action Point

Key Consultees and Elected Members – What the SCI May 2016 said:

Write to Key Consultees and Elected Members providing them with a copy of the Preferred Options Paper and invite them to attend the launch, provide comments within 12 weeks, inform them of the public meetings, exhibition and drop-in information sessions.

- 3.11 Key Consultees and Elected Members were invited to attend the POP launch on 7th November 2016 and were provided with a hard copy of the POP. All attendees subsequently invited via letter on 16th November 2016 to provide comment on the POP and, advised of the public consultation period in which to submit any comments. (Appendix 33)

SCI Action Point

Consultation with Section 75 and Community Groups – What the SCI May 2016 said:

Write to local community groups and Section 75 groups advising them that the POP has been published and that it is available to view on the Councils website and that hard copies can be obtained from the Planning Department (Tel.03000 132 132) where requested. The opportunity of a meeting with a planning officer to record their views will also be given. They will be asked to provide comments within 12 weeks.

- 3.12 The Council invited S.75 Groups on 12th May 2016 to provide written comment on any particular issues or needs which they felt the LDP draft POP should address. (Appendix 34)

Draft Plan Strategy SCI Compliance Report

- 3.13 Following the publication of the POP all S.75 received written notification of the publication of the POP, including an Equality Impact Assessment (EQIA) Progress Report, on 11th November 2016 and informed that the POP was available on the Council website and hard copies available from the Planning Department if requested. (Appendix 35)
- 3.14 In addition to the public engagement events, the Council held two S.75 events for those groups who requested them. Each event specifically tailored to meet the needs of those in attendance, **Table 5**.

Public Consultation Report – What the SCI May 2016 said:

A Public Consultation Report will be presented to elected members following the 12-week consultation. This will contain a summary of each representation and professional comment, recording where members take a different view and rationale for that view. This will be taken into account whilst formulating the Draft Local Development Plan.

- 3.15 A total 661 responses from private individuals and statutory consultees received, with 38 late representations. A report on the representations and professional comment entitled, Public Consultation Report Preferred Option Paper was presented to the Planning Committee, on 17th October 2017, on 2nd and 28th November 2017. The Council resolved to publish said report on 14th December 2017. The Public Consultation Report POP was published on the Councils website www.midulstercouncil.org. This report was taken into account when formulating the Draft Plan Strategy.

SCI Action Point

Project Management Team – What the SCI May 2016 said:

The Project Management Team will be given opportunity to comment on emerging policy for inclusion in the Draft Plan Strategy and will be an integral part of testing emerging policy through the Sustainability Appraisal, including Strategic Environmental Assessment and the Equality Impact Assessment process.

- 3.16 On 29th June 2016 and 25th August 2016 Project Management Team meetings were convened to consider the draft POP and the draft Assessment of Reasonable Alternatives. Copies of the draft SA/SEA Scoping report were available during the proceedings. The agenda set out a logical approach to the consideration of Mid Ulster's key issues, a draft Spatial Planning Framework and Growth Strategy followed by options for each draft strategic planning policy. All statutory consultee bodies invited to attend all PMT meetings. The SA/SEA scoring matrix was considered in detail by PMT.
- 3.17 The POP and all associated documents presented to Special Council Meeting on 27.09.2016 and subsequently published on the Council's website on the commencement of the required public consultation process, www.midulstercouncil.org. These included:
- Equality Impact Assessment (EQIA) Progress Report
 - Local Development Plan 2030 Preferred Options Paper
 - Local Development Plan 2030 Preferred Options Paper – Easy Read Guide
 - Representations Form – Preferred Options Paper
 - Regulation 10 Public Consultation Document Notice
 - Sustainability Appraisal (incorporating SEA) Interim Report November 2016
 - Sustainability Appraisal Scoping Report June 2016
- 3.18 A Public Consultation Report on Preferred Options Paper incorporating a database of all submitted representations, presented to the Planning Committee on the;
- 17th October 2017 (Appendix 36)
 - 2nd November 2017 (Appendix 37)

Draft Plan Strategy SCI Compliance Report

- 28th November 2017 (Appendix 38)

A paper subsequently presented to the Council on 14th December 2017, resolved that confidential business minutes taken at said Planning Committee meetings agreed. The Public Consultation on POP Report published as part of the preparation documents for draft Plan Strategy available at www.midulstercouncil.org.

GDPR - SCI Revised October 2018

- 3.19 At this point of the LDP2030 procedures, new legislation was introduced relating to General Data Protection Regulations (GDPR). A paper regarding this issue was presented to the Planning Committee on 9th May 2018. Consequently, all those listed on Appendix 1 of 2016 SCI were contacted and advised of the commencement of said legislation on 25th May 2018. The Council sought consent from those on agreed lists that they were content that their contact details be retained on the agreed list.
- 3.20 At this point subject to consent from all those who made representations at POP stage, the agreed list of local community / voluntary groups in Mid Ulster at List 3 of Appendix 1 significantly altered. A paper was presented to Planning Committee on 23rd August 2018 which set out the requirement for the first review of the SCI. (Appendix 39) The Council wrote to DfI regarding the revised Statement of Community Involvement on 29th October 2018 and DfI agreed revised SCI on 21st November 2018. (Appendix 7)

4.0 The Draft Plan Strategy

4.1 The Plan Strategy is the first of two key documents in the LDP process. The draft Plan Strategy was published on 22nd February 2019 and is an indication of the Council's intentions regarding the future development of Mid Ulster district. A draft Plan Strategy includes strategic objectives in line with Regional Policy including Growth Strategy and Spatial Framework as well as subject planning policy. The draft Plan Strategy forms a key point of the public participation process.

SCI Action Point

Public Notice Draft Plan Strategy - What the SCI ~~June~~ October 2018

Issue a Public Notice in the Mid Ulster Mail, the Tyrone Courier, Tyrone Times, Derry Post, Impartial Reporter, and the Belfast Gazette and on the Mid Ulster Council website www.midulstercouncil.org for two consecutive weeks. This notice will state:

- i) Publication of Draft Plan Strategy and accompanying Sustainability Appraisal including the SEA, Habitats Regulations Assessment (HRA) and Equality Impact Assessment (EQIA), Rural Proofing and how to view or obtain copies;
- ii) The dates and locations of Public Exhibitions;
- iii) The 8-week period and closing date for receipt of representations to the Draft Plan Strategy and accompanying Sustainability Appraisal including SEA, Habitats Regulations Assessment (HRA), Rural Proofing and Equality Impact Assessment (EQIA). This will be followed by an 8-week period for

says:

- 4.2 A public notice was published in Mid Ulster Mail, Tyrone Courier, Tyrone Times, Derry Post, Impartial Reporter and Belfast Gazette. The notice informed of publication of draft Plan Strategy, SA/SEA Environmental Report, Habitat Regulation Assessment (HRA), Rural Needs Impact Assessment EQIA and how to obtain hard copies. (Appendix 40)
- 4.3 It also included details of the 8-week consultation period 22nd February 2019 to 4pm on 19th April 2019, the closing date for receipt of representations. A counter-representation period of 8-weeks followed on 14th June 2019. (Appendix 41) The dates and locations of the Public Meetings, Exhibitions and Drop-in Sessions are detailed in **Tables 6 and 7**.

Key Consultees and Elected Members – What the SCI ~~June~~ October 2018

Write to Key Consultees and Elected Members informing them of; the publication of the Draft Plan Strategy and providing them with a copy; the dates of the public exhibitions; the 8-week period and closing date for representations.

said:

- 4.10 The Council wrote to all Key Consultees and Elected Members informing them of the publication of the DPS providing information on the launch event where hard copies were provided. The letter included information on the 8-week consultation period and closing date for receipt of representations. It also contained details of the location, date and time of the Public Exhibitions and Drop-In Sessions attended by planning officers. (Appendix 44)

- 4.11 A notification letter issued to all elected members providing details on how to view all representations to the draft Plan Strategy. (Appendix 45) Annex A on the Council's website contains all original representations; and, a separate full list of counter-representations published on the Council website.

SCI Action Point

Contacting those who made representations at POP stage – What the SCI ~~June~~ October 2018 said:

Write to all who submitted a representation and counter-representation to the POP informing them of the publication of the Draft Plan Strategy and accompanying documents advising how they can view or obtain copies; the dates of the public exhibitions; the 8-week period and closing date for representations. All representations will be reported to the Elected Members.

- 4.12 Written notification and guidance was sent to all those who made representation to the POP to inform them of the Draft Plan Strategy. The letter contained details on the public consultation period of 8-weeks commencing on 22nd February 2019 and closing 4pm on 19th April 2019. (Appendix 46)
- 4.13 The draft Plan Strategy public notice Contained information on how to make a representation that included an online Representation Form or submission by email at: DevelopmentPlan@midulstercouncil.org. The public were encouraged to utilise the online Representation Form when submitting their representation.
- 4.14 All LDP documents, reports, maps and supporting evidence were available online through the Council's web page. The facility to submit a representation online was available to the public throughout the consultation period. Total representations received draft Plan Strategy public consultation 204, counter-representations 214.
- 4.15 Planning Committee meetings held to discuss all submitted representations and counter-representations to the draft Plan Strategy on 30th January 2020 and 4th February 2020, by consideration of the draft Public Consultation Report on Draft Plan Strategy. A Special Council Meeting was held on 31st January 2020 which resolved that the Public Consultation Report on the Draft Plan Strategy and accompanying SA/SEA Environmental Report will be published as per SCI requirements and the Council will proceed to submission of Development Plan Documents.

5.0 Re-Consultation Draft Plan Strategy

- 5.1 The Council identified a procedural error in relation to the original public consultation on the Local Development Plan 2030 – Draft Plan Strategy in order to ensure a compliant consultation process. A paper presented to the Council on 3rd March 2020 outlined the need to re-consult on the draft Plan Strategy. (Appendix 47)
- 5.2 To accord with Regulation 15 (a) (iv) of The Planning (Local Development Plan) Regulations (NI) 2015, Mid Ulster District Council specified that the re-consultation process on the Local Development Plan 2030 – Draft Plan Strategy will run for a period of 8-weeks commencing at 10am on 25th March 2020 closing at 5pm on 21st May 2020. (Appendix 48)
- 5.3 In parallel, the Council is re-consulting on the Sustainability Appraisal, incorporating a Strategic Environment Assessment (SA/SEA Report) Environmental Report, of the Mid Ulster District Council re-consultation on its draft Plan Strategy. (Appendix 49)

Table 8 Public Notices Re-Consultation of Draft Plan Strategy – Local Newspapers	
Representation Period	
Newspaper	Date
Belfast Gazette	13.03.2020
Belfast Gazette	20.03.2020

Mid Ulster Mail	19.03.2020
Tyrone Courier	11.03.2020
Tyrone Courier	18.03.2020

- 5.4 Due to the unforeseen impacts of the COVID19 Pandemic, the Council considered it appropriate to extend the public consultation period for draft Plan Strategy and SA/SEA Environmental Report and issued an interim public notice. (Appendix 50) In Northern Ireland, a total lockdown was introduced on 23rd March 2020 which prevented completion of Re-consultation of Counter-Representations at that time. The interim press advertisement stated that the re-consultation period is currently set for a period of 8 weeks commencing at 10am on 25th March 2020. The re-consultation was due to close at 5pm on 21st May 2020. It also noted that in light of the current circumstances and

Draft Plan Strategy SCI Compliance Report

issues being faced with COVID19, the Council will be extending the closing date of the re-consultation and agreeing new dates for public exhibition events.

- 5.6 DfI agreed a revised SCI on 18.06.2020. (Appendix 12) A revised SCI, June 2020, noted that in light of the issues faced with COVID19, the re-consultation period was extended and in line with advice on social distancing as a response to COVID19, planned exhibitions and drop-in sessions are no longer taking place. (Appendix 51)
- 5.7 It was agreed that given that it was unknown for how long government will be discouraging groups to congregate, the Council will issue a public notice of the extended re-consultation closing date once it becomes available.

SCI Action Point

Revised SCI October 2020

We will issue the Public Notice in local newspapers circulating in Mid Ulster District, and the Belfast Gazette and on the Mid Ulster Council website www.midulstercouncil.org for two consecutive weeks.

- 5.8 A notification was published in the Derry Post and Gazette clearly detailing the extension to the closing date of the re-consultation on Mid Ulster District Council LDP 2030 draft Plan Strategy and SA/SEA Environmental Report. It provided details of access and availability of all LDP 2030 draft Plan Strategy and accompanying documents at the three Council Offices, Cookstown, Dungannon and Magherafelt and that they were available online via the Councils website www.midulstercouncil.org. The notification stated how representations could be submitted online or by email, stating that representations must be received by 5pm on 24th September 2020. (Appendix 52)
- 5.9 A notification was published in the Derry Post clearly detailing the re-consultation period of 8-weeks for counter-representations for draft Plan Strategy. (Appendix 53)

6.0 Draft Plan Strategy – Public Inspection of Representations and Counter-Representations

SCI Action Point

Public Inspection of Representations – What the SCI October 2020 said:

Make copies of representations available for inspection in the Council Offices in Magherafelt, Dungannon and Cookstown and on the website www.midulstercouncil.org. Hard copies of representations can also be provided upon request at a specified price.

6.1 All submitted representations received during the original public consultation on the draft Plan Strategy and SA/SEA Environmental Report were made available to view via the Councils website, under Annex A and a separate list published detailing the submitted counter-representations.
(www.midulstercouncil.org)

6.2 All submitted representations and counter-representations received during the re-consultation on the draft Plan Strategy and SA/SEA Environmental Report were made available to view via the Councils website.
(www.midulstercouncil.org)

6.3 A preliminary written report on the Public Consultation on draft Planning Strategy was presented to the Planning Committee 12th April 2021. (Appendix 54) The reports will form part of the submission papers to the Department for Infrastructure.

SCI Action Point

Key Consultees, Elected Members and those Who Submitted a Representation - What SCI October 2020 said:

Write to **Key Consultees, Elected Members and any person who has made (and not withdrawn) a representation** informing them that representations are available for inspection and the places and times at which they can be inspected.

6.4 Key Consultees, Elected Members and all persons who submitted a formal representation (and not withdrawn the document) were invited by letter to

Draft Plan Strategy SCI Compliance Report

view the received representations (Annex 1) informing them that all said received representations were available for inspection online (www.midulstercouncil.org) and the three Council Offices Cookstown, Dungannon and Magherafelt during office hours. (Appendix 55)

SCI Action Point

Public Notice on Availability of Representations - What SCI October 2020 said:

Issue a **Public Notice** in at least one local newspaper circulating in Mid Ulster District, and the Belfast Gazette for two weeks, and on the Mid Ulster Council website of the availability of representations for inspection and the eight week period including closing date for counter-representations.

- 6.5 On 31st July 2020 a Public Notice was published in the Derry Post and the Gazette (online) for two weeks and on the Councils website, (www.midulstercouncil.org), clearly detailing the availability of representations for inspection for a 8-week period (counter-representations) and confirmed 8-week period 22nd October 2020 to 18th December 2020 at 5pm. The Public Notice highlighted all received representations available to view online from Wednesday 21st October 2020 at www.midulstercouncil.org/dp-dps-representations (Appendix 56)

SCI Action Point

Availability of Counter-Representations What SCI October 2020 said:

Make the counter-representations available on website and at the Mid Ulster Council Offices in Cookstown, Dungannon and Magherafelt for inspection.

- 6.6 A Public Notice was published in the Gazette (online) and the Derry Post confirming the availability of all received counter-representations. All received counter-representations were made available to view on the Councils website and hardcopies were made available to view at the three Council Offices, Cookstown, Dungannon and Magherafelt. (Appendix 57)

PUBLIC NOTICES

PUBLIC NOTICES

Rural Development Programme funding for Service Improvement in Rural Mid Ulster

Rural Services Scheme - Mandatory Pre Application Workshops

Mid Ulster Rural Development Partnership, through its Rural Services Scheme, is seeking to support projects which explore new and innovative ways of delivering multiple services to those living in rural areas of Mid Ulster District Council.

This Scheme will provide capital funding to new or existing community buildings or other facilities to serve as community hubs in order to improve and/or expand the range of services they provide. A technical support element is also available to initially help potential applicants plan for the development and management of their rural services project.

The Scheme is open to the community/voluntary sector (inc. Social Economy Enterprises engaged in non-economic activity), Local Council, Strategic Public Bodies, or a partnership of Council and community/voluntary/private sectors where Council is the grant recipient.

Attendance at a pre application funding workshop is mandatory for all groups/organisations intending to make an application for either capital or technical support. Workshop dates are as follows:

Date	Venue and time
Wednesday 1st June	7 pm - Mid Ulster Council, Magherafelt Office
Thursday 2nd June	7 pm - Rankfurly House, Dungannon
Monday 6th June	10 am - Rankfurly House, Dungannon 7 pm - Cookstown Enterprise Centre
Wednesday 8th June	10 am - Mid Ulster Council, Magherafelt Office 7 pm - St Clara's High School, Ballygawley

All workshops will commence promptly at the specified times. All those planning to attend are asked to book in advance. To book a place or to talk to a member of staff about the Rural Services Scheme please telephone 028 86764714.

PLEASE NOTE: The person attending the workshop on behalf of their group/organisation must be an authorised signatory i.e. authorised to sign a letter of offer if approved. This does not prohibit other members of the group/organisation from also attending but not in place of the authorised signatory. Attendance at the funding workshop does not constitute an offer of funding. The application process will be competitive and not every application will be funded.

PUBLIC ANNOUNCEMENT

Mid Ulster District Council Statement of Community Involvement The Planning (Statement of Community Involvement) Regulations (Northern Ireland) 2015 (Regulation 7)

In accordance with Regulation 7 of the Planning (Statement of Community Involvement) Regulations (Northern Ireland) 2015 Mid Ulster District Council wish to announce the publication of the Statement of Community Involvement (SCI) for the Mid Ulster District Council Local Development Plan 2016 and Development Management Functions. The SCI was agreed by the Department on the 6th May 2016. The Mid Ulster District Council Statement of Community Involvement is now available for inspection at:

Cookstown Office Burn Road, Cookstown BT80 8DT	Dungannon Office Circular Road, Dungannon BT71 6DT	Magherafelt Office Ballyronan Road, Magherafelt BT45 6EN
--	--	--

Opening Hours: Non - Fri 9am to 5pm
Tel. 03000 132 132
Email: planning@midulstercouncil.org

The Statement of Community Involvement is also available on the Mid Ulster District Council website at the following link: www.midulstercouncil.org/developmentplan

The Statement of Community Involvement sets out policy for the involving and engaging the community in the production of the Mid Ulster Local Development Plan (LDP) 2016, in the consideration of planning applications and in planning enforcement.

PUBLIC ANNOUNCEMENT

Mid Ulster District Council Local Development Plan Timetable The Planning (Local Development Plan) Regulations (Northern Ireland) 2015 (Regulation 8)

In accordance with Regulation 8 of the Planning (Local Development Plan) Regulations (Northern Ireland) 2015 Mid Ulster District Council wish to announce the publication of the Timetable for the preparation of the Mid Ulster District Council Local Development Plan (LDP). The Timetable was agreed by the Department on the 6th May 2016. The LDP Timetable is now available for inspection at

Cookstown Office Burn Road, Cookstown BT80 8DT	Dungannon Office Circular Road, Dungannon BT71 6DT	Magherafelt Office Ballyronan Road, Magherafelt BT45 6EN
--	--	--

Opening Hours: Non - Fri 9am to 5pm
Tel. 03000 132 132
Email: planning@midulstercouncil.org

The Timetable is also available online at the Mid Ulster District Council website at the following link: www.midulstercouncil.org/developmentplan

The Timetable sets out Mid Ulster District Council's programme for the production of its local development plan (LDP) and includes details of the key stages in process.

Prior to the agreement of the Timetable the Council has been developing its evidence base in order to establish the social, economic and environmental characteristics of the plan area to enable the Council to determine the issues which need to be addressed and the options for addressing them. This has been undertaken using a topic based approach in the form of position papers which are available on the Council website at the following link: www.midulstercouncil.org/Planning/Mid-Ulster-Development-Plan/Development-Plan

Agents: Quaryplan Limited

Further information regarding the proposed development project can be obtained from Quaryplan Limited on 028 44 632904 or by emailing info@quaryplan.co.uk

A public presentation regarding the proposed development shall be held at the Glenavon House Hotel, 52 Drum Road, Cookstown, BT80 6D3 on 13th June 2016 at 6pm Sharp

Those attending the presentation will be invited to provide comments and ask questions regarding the project. Further comments on the project can be submitted to Quaryplan up to two weeks (7 June 2016) following the presentation to info@quaryplan.co.uk or by telephone on 028 44 632904 or writing to Quaryplan, 6 Sandfield Road, Crossgar, Downpatrick, BT20 5LX.

Please note that all comments made to the prospective applicant and their agents are not representations to the Mid Ulster District Council or the Department of the Environment. If the prospective applicant submits an application there will be an opportunity to make representations on that application to the Council, or as the case may be the Department, at a stage within the planning process.

PUBLIC ANNOUNCEMENT
Mid Ulster District Council Local
Development Plan Timetable
The Planning (Local Development Plan)
Regulations (Northern Ireland) 2015
(Regulation 8)

In accordance with Regulation 8 of the Planning (Local Development Plan) Regulations (Northern Ireland) 2015 Mid Ulster District Council wish to announce the publication of the Timetable for the preparation of the Mid Ulster District Council Local Development Plan (LDP). The Timetable was agreed by the Department on the 6th May 2016. The LDP Timetable is now available for inspection at

Cookstown Office Burn Road, Cookstown BT80 8DT	Dungannon Office Circular Road, Dungannon BT17 6DT	Magherafelt Office Ballyronan Road, Magherafelt BT45 6EN
--	--	--

Opening Hours: Mon - Fri 9am to 5pm
Tel: 03000 132 132
Email: planning@midulstercouncil.org

The Timetable is also available online at the Mid Ulster District Council website at the following link:
www.midulstercouncil.org/developmentplan

The Timetable sets out Mid Ulster District Council's programme for the production of its local development plan (LDP) and includes details of the key stages in process.

Prior to the agreement of the Timetable the Council has been developing its evidence base in order to establish the social, economic and environmental characteristics of the plan area to enable the Council to determine the issues which need to be addressed and the options for addressing them. This has been undertaken using a topic based approach in the form of position papers which are available on the Council website at the following link: www.midulstercouncil.org/Planning/Mid-Ulster-Development-Plan/Development-Plan

Telephone 03000 132 132

Notice of Interest to Acquire
Lands by Public Body

Land & Property Services (LPS), acting as Agent for a Public Body, are seeking to acquire land by way of private treaty, for the purposes of a specific light industrial undertaking.

Expressions of interest to sell to the Public Body are invited from owners of land put in buildings based upon the following criteria:

- Capable of providing a development site of between 3.0 to 5.0 acres.
- Land with/or without buildings may be considered.
- Land must be zoned within the respective current development plan and have reasonable prospects of obtaining planning permission for industrial development.
- Accessible to all main services and the public road network.
- Purchases will be subject to suitable planning permission being granted.

Required Locations:

1. Berrymore
2. Cookstown
3. Ballymena
4. Malnah
5. Ulmston

In the first instance please provide full details to:
Mr Ross Lister, LPS, 7 Lanyon Place, Belfast, BT1 2LP
Email: Ross.Lister@finance.gov.uk
Tel: 028 9003 5222

All sites will be visited in Site Conferences and a submission of an expression of interest does not constitute any commitment by either party to enter into negotiations on a sale.

Public Notice

Mid Ulster District Council Local Development Plan 2016
Preferred Options Paper

The Planning Act (Northern Ireland) 2011

The Planning (Local Development Plan) Regulations (Northern Ireland) 2015

In accordance with Articles 8 and 9 of the Planning Act (Northern Ireland) 2011, Mid Ulster District Council intends to prepare a Local Development Plan for the District. The Local Development Plan will be accompanied by Sustainability Appraisal (SA), (including Strategic Environmental Assessment (SEA) and Equality Impact Assessment.

As part of the preparation of the Local Development Plan and in accordance with Article 10 and 11 of The Planning (Local Development Plan) Regulations (Northern Ireland) 2015, the Council intends to publish a Preferred Options Paper (POP) on the 7th November 2016.

The POP is a consultation paper intended to promote debate on issues of strategic significance which are likely to influence the preparation of the new Local Development Plan. It identifies key issues in the plan area and formulates a series of options for dealing with them. The POP indicates the Council's preferred option for growth and development in the Mid Ulster Area.

The POP and the SA/SEA Interim Report will be available for inspection from 7th November 2016 at the principal council offices:

Cookstown Office Burn Road, Cookstown BT80 8DT	Dungannon Office Circular Road, Dungannon BT71 6DT	Magherafelt Office Ballyronan Road BT45 6EN
---	---	--

Opening Hours: Mon - Fri 9am to 5pm Tel: 03000 132 132

The POP document, SA/SEA Interim Report, Equality Impact Assessment Progress Report, Mid Ulster Position Papers and Policy Review Papers will also be available on the Mid Ulster District Council Website from 7th November 2016 at www.midulstercouncil.org/developmentplan. Hard copies of the POP can be obtained from the Planning Department upon request (Tel: 03000 132 132). The POP and SA/SEA Interim Report is available on CD upon request.

The consultation period for the POP and SA/SEA Interim Report commences with the publication of the documents and will run for a period of 12 weeks from 7th November 2016 and ending at 5.00pm on the 27th January 2017.

Comments should be addressed to: Dr C R Boomer, Mid Ulster District Council Planning Department, 50 Ballyronan Road, Magherafelt, BT45 6EN Or by email to developmentplan@midulstercouncil.org

Mid Ulster District Council Local Development Plan 2016

Preferred Options Paper

The Planning Act (Northern Ireland) 2015

The Planning (Local Development Plan) Regulations (Northern Ireland) 2015

In accordance with Articles 8 and 9 of the Planning Act (Northern Ireland) 2015, Mid Ulster District Council intends to prepare a Local Development Plan for the District. The Local Development Plan will be accompanied by Sustainability Appraisal (SA), (including Strategic Environmental Assessment (SEA)) and Equality Impact Assessment.

As part of the preparation of the Local Development Plan and in accordance with Article 10 and 11 of The Planning (Local Development Plan) Regulations (Northern Ireland) 2015, the Council intends to publish a Preferred Options Paper (POP) on the 7th November 2016.

The POP is a consultation paper intended to promote debate on issues of strategic significance which are likely to influence the preparation of the new Local Development Plan. It identifies key issues in the plan area and formulates a series of options for dealing with them. The POP indicates the Council's preferred option for growth and development in the Mid Ulster Area.

The POP and the SA/SEA Interim Report will be available for inspection from 7th November 2016 at the principal council offices.

B182 Deerpark Road,
Castledawson

Notice is hereby given in compliance with paragraphs 1 and 2 of Schedule 3 to the Road Traffic Regulation (Northern Ireland) Order 1997 that the Department for Infrastructure, in exercise of the powers conferred on it by Article 7(1) and (3) of the said Road Traffic Regulation (Northern Ireland) Order 1997, proposes to introduce a temporary 40 miles per hour speed limit on B0182 Deerpark Road, Castledawson, from its junction with the A6 Castledawson Bypass to a point 600 metres north of its junction Creagh Hill, Castledawson for a period of 56 weeks from Saturday 1 December 2018 until Tuesday 31 December 2019 being satisfied that traffic should be restricted because road works are being undertaken along the C6557 Hillhead Road in association with the new A6 Randatstown to Castledawson dual carriageway scheme.

Traffic signs warning that the use of this road is subject to the above speed limit restriction and to indicate the nature and extent of this restriction will be erected along the route.

A map showing details of the prohibition is on display in the following office: DfI Roads, Network Development, County Hall, Drumragh Avenue, Omagh, BT79 7AF and DfI Roads and Rivers, Loughry, 49 Tullywagan Rd, Cookstown, County Tyrone BT80 8SS.

Rented Accommodation Required

The Housing Executive is seeking to add to its portfolio of property for use as temporary accommodation for homeless households in Mid-Ulster.

All properties must be self-contained, furnished and equipped to meet the needs of homeless households, have an independent access and be of an acceptable standard to the Housing Executive with regard to health and safety. Ground floor properties with wheelchair access or mobility adaptations are of particular interest.

Expressions of interest are sought from landlords who would be willing to make their properties available, to be selected on consideration of location, size and value for money.

Parties wishing to be considered should provide the following details: address and size of each property, type of heating and weekly charge by email to: southarea@nihe.gov.uk

Or by writing to: Regional Homelessness Officer, NIHE, Marlborough House, Craigavon, BT64 1AJ.

If you require further details or wish to discuss further, please indicate this in your email or written response.

Goods Vehicle Operator's Licence
Conor Kennedy CP Kennedy Transport Ltd of 11 Curbane Road, Portlone, BT44 8TZ, County Antrim, is applying for a licence to use at 7 Curbane Road, Portlone, BT44 8TZ, County Antrim as an operating centre for 2 goods vehicles and 2 trailers. Owners or occupiers of land (including buildings) near the operating centre who believe that their enjoyment of the land would be affected, should make written representations to the traffic commissioner at Hillcrest House, 386 Harehills Lane, Leeds, LS9 6NF stating their reasons within 21 days of this notice. Representations must at the same time send a copy of their representations to the applicant at the address given at the top of the notice. A guide to representations is available from the traffic commissioner's office.

Rented Accommodation Required

The Housing Executive is seeking to add to its portfolio of property for use as temporary accommodation for homeless households in Mid-Ulster. All properties must be self-contained, furnished and equipped to meet the needs of homeless households, have an independent access and be of an acceptable standard to the Housing Executive with regard to health and safety. Ground floor properties with wheelchair access or mobility adaptations are of particular interest.

Expressions of interest are sought from landlords who would be willing to make their properties available, to be selected on consideration of location, size and value for money.

Parties wishing to be considered should provide the following details: address and size of each property, type of heating and weekly charge by email to: southward@hse.gov.uk

Or by writing to: Regional Homelessness Officer, NIHE, Marlborough House, Craigavon, BT64 1AJ.

If you require further details or wish to discuss further, please indicate this in your email or written response.

Temporary 40mph Speed Limit
C558 Annaghmore/ Bellshill Southern Link Rd, Castledawson

Notice is given in compliance with paragraphs 1 and 2 of Schedule 3 to the Road Traffic Regulation (NI) Order 1997 that the Department for Infrastructure, in exercise of the powers conferred on it by Article 7(1) and (3) of that Order, has made a provision imposing a 40 miles per hour speed limit on the newly constructed C558 Annaghmore/ Bellshill Southern Link Road, from its junction with the C558 Annaghmore Road to its junction with the U5129 Bellshill Rd, commencing on Monday 18 February 2019 until Wednesday 1 July 2020 being satisfied that traffic should be restricted because works are being executed as part of the construction of the A6 Dual Carriageway.

Traffic signs warning that the use of the road is subject to the above speed limit restriction and to indicate the nature and extent of the restriction will be erected on the road in due course.

A map showing details of the prohibition is on display in the following office: DfI Roads, Network Development, County Hall, Drumagh Avenue, Omagh, BT73 7AF and DfI Roads and Rivers, Loughry, 49 Tullyvegan Rd, Cookstown, County Tyrone BT80 8SG.

Temporary Road Closure
U5129 Bells Hill Road (North) and New Row, Castledawson

Notice is hereby given that the Department, acting in pursuance of its powers under Article 7 of the Road Traffic Regulation (NI) Order 1997, intends to close temporarily to traffic U5129 New Row and Bells Hill Road (north side), Castledawson from Bells Hill Road junction with A6 Castledawson By-Pass Road to New Row junction with A54 Main Street, Castledawson, for road resignment works. This closure will be in place from 6am on Monday 25 February 2019 until 6pm on Sunday 5 May 2019. Vehicles requiring access to lands or premises abutting the closed length of road will be accommodated.

Diversion routes will be signed via A54 Main Street, Castledawson, A54 Magherafelt Road, A6 Castledawson Roundabout, A6 Castledawson By-Pass, and via A66.

A map showing details of the prohibition is on display in the following office: DfI Roads, Network Development, County Hall, Drumagh Avenue, Omagh, BT73 7AF and DfI Roads and Rivers, Loughry, 49 Tullyvegan Rd, Cookstown, County Tyrone BT80 8SG.

Weight Loss Woes? Not anymore – thanks to Fast Track Hypnosis!

Alan Gilchrist
Northern Ireland's Top Hypnotherapist

Christmas has long since gone and with it, the festive spirit, food and the parties, while Easter is just around the corner.

But, have the pounds you gained been lost in the interim?

When it comes down to it, we're here to eat to live, not to live to eat.

The problem is programming that into the brain. Especially as our culture is centred on food. What is the Sunday lunch if not a chance to gather around a table of hearty food, while enjoying the company of good friends and close family, it's no wonder that we have an obesity epidemic on our hands.

Hypnosis is a state of mind. Inducing the state of hypnosis is something that separates my clinics from the average practices. I use state of the art technology as well as Laser therapy to bring about this state of mind.

These techniques combine to create what I call Fast Track Hypnosis. It's here that we can change beliefs that have been set in stone. The very reason you eat, why you overindulge, we can address these topics here; find the solution and forever alter your relationship with food. You might consider yourself as having a healthy attitude towards food. But are you overweight? A simple yes is proof positive that you and food are not the best of friends!

Together, we can reform the relationship you have

with food. We can alter your perceptions of it so you no longer need to stuff yourself to feel replete. We will address any couch potato issues you have, something that will kick start your fitness plan.

In one, thirty minute session, with either the Weight Control or the Gastric Band Hypnosis session we really can change your life.

Dieting doesn't have to be hard, nor does losing weight. Especially if you go the Fast Track way.

"Hi Alan, I came to see you in and since then I have lost an amazing 7 stone (44.45 kilos). I found that your Fast Track Hypnosis really works...Kirtsen."

"I went to Alan and within 2 weeks I lost 11lbs (5 kilos). I play the CD every night as it helps me to relax. I hope my weight keeps coming off. Thank you Alan..... Trevor....."

"I had tried to stop smoking a few times without any success at all! Decided I didn't want to have a smokers cough so I had 1 session and have never smoked again..... biggest surprise no craving, none, despite me waiting for the craving to start it never did. A n d no I

didn't put weight on either.....Tina "

You can read hundreds more testimonials on Alan's web site www.alangilchrist.com

Alan holds his Fast Track Hypnosis Stop smoking and Weight Control sessions at the Adair Arms Hotel Ballymena every Thursday and also at the Lodge Hotel, Coleraine every Wednesday.

For an appointment, brochure, or free of charge initial consultation, contact Alan Gilchrist on 02890 333303

Local autism charity receives helping hand from Big Lottery

Families with Autism Coming Together for Support (F.A.C.T.S) has received £9,632 FUNDING from Big Lottery Fund, to support its Aim-U project (Autism in Mid-Ulster), a local family support and activity group for children with autism, their siblings and their parents and carers.

F.A.C.T.S was founded in the summer of 2017, and received charitable status in August 2018. It was born out of a need to help support local families with children on the autism spectrum. The Mid-Ulster people are known for their community-mindedness and generosity and a lot of the fundraising for the local area was going to other areas and local people were not benefitting. A few parents got together to establish their own local autism group. To find help for their autistic children, share experiences and provide mutual support. Today the charity has 140 members, 18 volunteers, has provided 4 free outings attended by over 200 families, have held 22 monthly peer to peer meetings, 10 awareness sessions.

These include social activity and skills groups where people with autism are supported by specialist trained staff/volunteers, face to face meetings for when they're struggling to cope, training for parents to help them better support their autistic children, and promote awareness to increase acceptance and support in the community.

The donation from Big Lottery fund will be used to

support the charity's AIM-U social skills programmes for 8-12 years old children with Autistic Spectrum Conditions. It aims to provide a place where the whole family can enjoy social educational activities in a safe environment, it's a place where parents can relax and feel supported.

Tommy Doherty, Chairman of F.A.C.T.S, said: "The need for our social skills project was originally identified by our members who said they were desperate for their children to have additional support in the local area. The development of a child's social skills can be life enhancing, not just for the child but the whole family."

"Our first year has been a roaring success our membership has grown to over 140 members. These are all families who have a child and in some cases children with Autism. The continuing need for a local grassroot, peer to peer parent support, autism specific group is evidenced by the increasing membership. The membership has doubled in the last year and the more services we provide at a local level the more we will develop and strengthen our support we can provide. This grant from Big Lottery Fund will go a long way towards supporting the work we do."

Mary Margaret Love, Honorary President and long-time community fundraiser for autism said: "We've had a very successful year of fundraising, we can't thank the generosity of the Mid-Ulster

People enough. It's important that the local community see this reflected on the ground in the services we provide. We faced an incredibly tough decision last year but have not looked back since we first were established. Local people want local solutions, they want to share with others who understand and can empathise with the challenges of raising a child(s) on the autism spectrum. The work that F.A.C.T.S does is vital for families in the Mid-Ulster community, enabling parents and carers to better support their autistic children, as well as their other children, and accessing a critical support network for themselves.

"With community firmly placed at the heart of F.A.C.T.S we are delighted to receive this grant from the Big Lottery Fund for Autism in Mid-Ulster, the social skills programme will be run from February to March for six weeks and again in May to June 2019 for six weeks.

"The children will learn the essential social skills to help navigate the world they live in. Projects like this will enable us to continue our support for parents and their families."

For more information on F.A.C.T.S, including how you can become a member or volunteer, visit [HYPERLINK "http://www.autismbedfordshire.net"](http://www.autismbedfordshire.net) our facebook page F.A.C.T.S (Families with Autism Coming Together for Support) or Contact Mary Margaret Love at this number 07546773218.

'How many more vulnerable people must suffer due to no assembly?' - Dallat

The lack of an assembly is contributing directly to the denial of the human rights of children with Autism, according to a local MLA.

This is the view of East Derry SDLP Assembly Member John Dallat who attended an all-party group meeting on Autism last week and will meet the Permanent Secretary Derek Baker next month.

He said: "Two thousand, five hundred children under 18's is still waiting to be assessed for autism and the situation is getting worse with a three-fold increase in some health trusts over the last five years.

"Where parents have sought private diagnosis and assess-

ments for their children, the Education Authority is not recognising these and this is adding to the stress of both parents and children."

He continued: "In the Northern Trust Area alone the number of children waiting to be assessed has rocketed by 200 over one year and now stands at 897. This information was given to me under Freedom of Information and relates to 2018-2019. It is a clear indication of neglect which must not happen any more."

He concluded: "A Capacity Building Project commissioned by the Department of Education in response to recommendations contained in a Northern Ireland Audit

Office Report (June 2017) is due to be published shortly and will be considered by the Programme Board on 27 February and this is welcome and will allow this pressing issue to be considered further and I look forward to that.

However, with school budgets in crisis and nothing to indicate that special needs children will have resources ring-fenced there is further concern that this critical issue will be pushed even further down the line and that is a denial of human rights. It is wrong and yet another reason why the assembly should be addressing critical issues rather than being mothballed."

Temporary 40mph speed limit and prohibition of overtaking A4 Belfast Road, Enniskillen

Notice is hereby given in compliance with paragraphs 1 and 2 of Schedule 3 to the Road Traffic Regulation (Northern Ireland) Order 1997 that the Department for Infrastructure, in exercise of the powers conferred on it by Article 7(1) and (3) of the said Road Traffic Regulation (Northern Ireland) Order 1997, proposes to introduce a temporary 40 miles per hour speed limit on A4 Belfast Road, Enniskillen, with no overtaking (both directions) from a point 130 metres north west of its junction with U5513 Lough Yoan Road, Enniskillen to a point approx. 800 metres south east of its junction with U9559 Old Enniskillen Road, Tamlaght for a period of 16 weeks from Monday 4 March 2019 being satisfied that traffic should be restricted because road works are being undertaken along route A4 Belfast Road, Enniskillen associated with the 'Dolan's Ring' carriageway widening and right turning lane project.

Traffic signs warning that the use of the above road is subject to the above mentioned speed limit restriction with no overtaking indicating the nature and full extent of the restriction will be erected on site in due course.

A map showing details of the prohibition is on display in the following office: DfI Roads, Castle Barracks, Enniskillen, BT74 7HN.

NORTHERN IRELAND RURAL DEVELOPMENT PROGRAMME (NIRDP) 2014-2020

Final opportunity to express an interest in the Rural Business Investment Scheme

The Fermanagh and Omagh Local Action Group (LAG) Ltd recently hosted 5 Funding Workshops across the District Council area for the Rural Business Investment Scheme. The Scheme is designed to support the development of a strong and diverse rural economy, investing in new business development and the expansion of existing enterprises to create a balanced and forward looking rural economy. The primary objective of the Scheme is job creation.

Due to the level of interest, the LAG will be hosting one further MANDATORY Funding Workshop in the Bawnacre Centre, Irvinestown at 7.00pm on Monday 4 March 2019.

Tea/Coffee will be available from 7.00pm with the Workshop commencing at 7.30pm sharp. If you are interested in applying for funding under the Rural Business Investment Scheme then attendance at a workshop is the only entry point. Please note that attendance also includes the requirement to complete an Expression of Interest form on the night (outlining brief details on the proposed project that you are seeking funding for including anticipated costs). Failure of the business owner if a sole trader, one of the partners if operating a business partnership, or one of the Directors if operating a legal entity registered with Companies House to attend will result in you being ineligible to apply under this call for applications.

For further details about the Funding Workshop or the Programme please contact Fermanagh and Omagh Local Action Group (LAG) Ltd, 16 High Street, Omagh, Co Tyrone, BT78 1BQ Tel: 028 8225 0202.

PLEASE NOTE: This is a competitive programme. Attendance at a Mandatory Funding Workshop or receipt of an invitation to submit an application for financial assistance having attended a Funding Workshop DOES NOT indicate that your application/the project will be awarded financial assistance.

Annex 4G – Reg 17 Availability of Representations – Public Notices

Public Notice
**Mid Ulster District Council Local
 Development Plan 2030 - Draft Plan Strategy**
**Public Consultation on Site Specific
 Policy Representations**

**The Planning (Local Development Plan) Regulations
 (Northern Ireland) 2015**

In accordance with Regulation 17 of the Planning (Local Development Plan) Regulations (Northern Ireland) 2015, notice is hereby given that Mid Ulster District Council is publishing the representations received during the statutory public consultation period for the Mid Ulster District Council Local Development Plan 2030- Draft Plan Strategy.

Availability of Representations

The representations will be available for inspection from Friday 14 June 2019 until 5pm on Friday 9 August 2019 at the three principal council offices at: Burn Road, Cookstown, BT80 8DT; Circular Road, Dungannon, BT71 6DT; and, Ballyronan Road, Magherafelt, BT45 6EN, during the hours 9am-5pm Monday – Friday.

The representations will also be published on the Mid Ulster District Council website from Friday 14 June 2019 at: www.midulstercouncil.org/planning/Mid-Ulster-Development-Plan

How to respond

In accordance with Regulation 18 of the Planning (Local Development Plan) Regulations (Northern Ireland) 2015, any person may make representations about a site specific policy representation (referred to as counter representations). Counter representations must not propose any changes to the development plan document.

Any counter representation should clearly state the reference number of the representation to which it relates.

A counter representation form will be available to download from our council website at: www.midulstercouncil.org/planning/Mid-Ulster-Development-Plan

Counter representations can be submitted by email to: DevelopmentPlan@midulstercouncil.org or in writing to the following postal address: Development Plan Team, Planning Department, Mid Ulster District Council, 50 Ballyronan Road, Magherafelt, BT45 6EN

Guidance on what constitutes a counter representation can be obtained from the three principal council offices, and from the council website at the address detailed above.

Please be aware that the name and address on your counter representation will be published on our website when the counter representations are made available for public inspection. Personal data such as signatures, telephone numbers and personal email addresses will be redacted when they are published on our website. When counter representations are made available for inspection, they will also be available in hard copy at each of our three principal offices.

All counter representations must be received no later than 5pm on Friday 9th August 2019.

PUBLIC NOTICES

Public Notice

Mid Ulster District Council Local Development Plan 2030 - Draft Plan Strategy Public Consultation on Site Specific Policy Representations

The Planning (Local Development Plan) Regulations (Northern Ireland) 2015

In accordance with Regulation 17 of the Planning (Local Development Plan) Regulations (Northern Ireland) 2015, notice is hereby given that Mid Ulster District Council is publishing the representations received during the statutory public consultation period for the Mid Ulster District Council Local Development Plan 2030 - Draft Plan Strategy.

Availability of Representations

The representations will be available for inspection from Friday 14 June 2019 until 5pm on Friday 9 August 2019 at the three principal council offices at Burn Road, Cookstown, BT80 9DT; Circular Road, Danganore, BT71 6DT; and, Ballynnon Road, Magherafelt, BT45 6EN, during the hours 9am-5pm Monday - Friday.

The representations will also be published on the Mid Ulster District Council website from Friday 14 June 2019 at: www.midulstercouncil.org/planning/mid-ulster-development-plan

How to respond
 In accordance with Regulation 18 of the Planning (Local Development Plan) Regulations (Northern Ireland) 2015, any person may make representations about a site specific policy representation (referred to as counter representations). Counter representations must not propose any changes to the development plan document.

Any counter representation should clearly state the reference number of the representation to which it relates.

A counter representation form will be available to download from our council website at: www.midulstercouncil.org/planning/mid-ulster-development-plan

Counter representations can be submitted by email to: DevelopmentPlan@midulstercouncil.org or in writing to the following postal address: Development Plan Team, Planning Department, Mid Ulster District Council, 59 Ballynnon Road, Magherafelt, BT45 6EN

Guidance on what constitutes a counter representation can be obtained from the three principal council offices, and from the council website at the address detailed above.

Please be aware that the name and address on your counter representation will be published on our website when the counter representations are made available for public inspection. Personal data such as signatures, telephone numbers and personal email addresses will be redacted when they are published on our website.

When counter representations are made available for inspection, they will also be available in hard copy at each of our three principal offices.

All counter representations must be received no later than 5pm on Friday 9th August 2019.

Garden Fair at Springhill

COME and explore all things "green" at Springhill Garden Fair, the perfect opportunity to come and celebrate nature at its best. Springhill House, which is cared for by the National Trust, is located in Moyne more just ten minutes from Cookstown and Magherafelt town centres.

Visitors will have the chance to enjoy guided Ranger tours of the estate, learn about the history of the gardens, as well as spot some of the native species of trees, plants and wildlife along the way.

This year we celebrate 10 years of community allotments at Springhill so come along and meet our fabulous 'allotmenters', have a chat and enjoy the friendly atmosphere of our spectacular community allotments. Kids can get their hands dirty in the 'Plant it, grow it, and eat it' activity. Head Gardener Warren will be holding his ever-popular workshops on propagation and micro-greens, plus he's the person who can answer any questions regarding the impressive display of roses which thrive in the walled Dutch garden. Mid Ulster Beekeepers will be in attendance with their display of the beeswax products, bread crumbs and local honey...all this and live music too!

Springhill shop offers a wide variety of essential garden needs. Browse the selection of new gardening tools and decorations to spruce up your outdoor spaces! To mark Father's day, take part in the 'Daddy's Wellie Winging' competition! See if you can top the leader board and have what it takes to be crowned the ultimate 'King of the Garden'. Relax in the Barn Café with some homemade cakes and treats and try our homemade cordials. A dynamic group of friendly staff are always nearby to assist, inform and make visits as pleasant and enjoyable as possible.

Nearby, the shaded, secluded second hand book shop, hosts a quiet escape to browse a wide selection of texts. Our experienced volunteers are well equipped to help source the best gardening books on sale. House tours will be available in what's been described as "one of the prettiest houses in Ulster." Enjoy an interactive and telling tour of the lives of the family with ten generations of tales to enthral you, as well as numerous portraits and furniture to admire.

Make the most of your day and spend a fun day out with the National Trust by also visiting Wellbrook Beating Mill which is a short 15 minute drive away. This rural beauty spot boasts an insight into life in Mid Ulster from years gone by. Bring the kids to Wellbrook this summer so they can explore the discovery zone...their friends can come too as Kids Go Free all year at Wellbrook!

ADVERTISING TERMS AND CONDITIONS

All advertisements are accepted subject to the following conditions. The right to decline any copy or artwork is without giving any reason reserved. No responsibility is accepted for damage to or loss of artwork. Copy or artwork via e-mail must be in pdf or eps file format and must be pre-booked with the Advertising Department, telephone 028 8772 2271, to secure an allocated time of receipt. The publisher shall not accept liability for any variation in the reproduction of colours. Unbooked small communications may not be accepted. The publisher shall not be liable for any loss or damage occasioned by any total or partial failure (however caused) of publication or distribution of any newspaper or edition in which any advertisement is scheduled to appear. In the event of any error, misprint or omission in the printing of an advertisement or part of an advertisement the publisher will either re-insert the advertisement or relevant part of the advertisement as the case may be or make a reasonable refund or adjustment to the cost. No re-insertion, refund or adjustment will be made where the error, misprint or omission does not materially detract from the advertisement. In no circumstances shall the total liability of the publisher for any error, misprint or omission exceed the amount of a full refund of any price paid to the publisher for the particular advertisement in connection with which liability arose or to the cost of a further or corrective advertisement of a type and standard reasonably comparable to that in connection with which liability arose. No guarantee of special position can be given. The cancellation period for an advertisement varies according to the publication. The advertiser should refer to the relevant rate card. The advertiser may cancel an advertisement provided that notice in writing is received by Alpha within the relevant cancellation period. Please send notice of your intention to cancel the advertisement to the advertising department where you made your booking. Cancellation will only be effective on confirmation of receipt of your notice. Late cancellation fee may apply. While every effort will be made to supply proofs, if requested, no guarantee can be given. The advertiser is responsible for ensuring that an advertisement in no way contravenes the Trade Descriptions Act 1968. For full details of terms and conditions visit online at www.isternet.co.uk or contact this office.

RE-ADVERTISEMENT

Re-consultation on Mid Ulster District Council Local Development Plan 2030 - Draft Plan Strategy

The Planning Act (Northern Ireland) 2011

The Planning (Local Development Plan) Regulations (Northern Ireland) 2015

In accordance with Regulation 15 of The Planning (Local Development Plan) Regulations (Northern Ireland) 2015, notice is hereby given that Mid Ulster District Council will commence a re-consultation process on the Local Development Plan 2030 - Draft Plan Strategy at 10am on 25th March 2020 for a period of 8-weeks closing at 5pm on 21st May 2020.

The Council has identified a procedural error in relation to the original consultation and therefore, the Council is now re-consulting on the Local Development Plan 2030 - Draft Plan Strategy in order to ensure a compliant consultation process.

The Draft Plan Strategy sets out the Council's vision for the Mid Ulster District up to 2030 and the objectives, spatial planning framework and policies to deliver that vision.

The Local Development Plan 2030 - Draft Plan Strategy is accompanied by a Sustainability Appraisal incorporating Strategic Environmental Assessment Report (SA/SEA Report), Equality Impact Screening Report and Rural Needs Impact Assessment, Habitats Regulations Assessment, as well as other supporting documents.

Availability of Documents

The Draft Plan Strategy, SA/SEA Report, Equality Impact Screening Report, Rural Needs Impact Assessment, Habitats Regulations Assessment and other supporting documents will be available for inspection from 10am on 25th March 2020 until 5pm on 21st May 2020 at the 3 principal council offices:

- Cookstown Office**, Burn Road, Cookstown, BT80 8DT
- Dungannon Office**, Circular Road, Dungannon, BT71 6DT
- Magherafelt Office**, Ballyronan Road, BT45 6EN

Opening Hours: Mon - Fri 9am to 5pm
Tel: 03000 132 132

The Draft Plan Strategy, SA/SEA Report, Equality Impact Screening Report, Rural Needs Impact Assessment Report, Habitats Regulations Assessment and other supporting documents are available on the Mid Ulster District Council website at www.midulstercouncil.org/planning/Mid-Ulster-Development-Plan

Hard copies of the Draft Plan Strategy can be obtained from each

of the 3 council offices upon request.

How to make a Representation

Online:

- Utilising our online Representation Form (Survey Monkey) www.midulstercouncil.org/planning/mid-ulster-development-plan
- By downloading a Representation Form at the above website address.

By mail:

- Email us at: DevelopmentPlan@midulstercouncil.org
- In writing to the following postal address: Development Plan Team, Planning Department, Mid Ulster District Council, 50 Ballyronan Road, Magherafelt, BT45 6EN

When making your representation you are encouraged to use the Representation Form.

Please be aware that the name and address on your representation will be published on our website when the representations are made available for public inspection. Personal data such as signatures, telephone numbers and personal email addresses will be redacted when they are published on our website. When representations are made available for inspection your representation will be also be available in hard copy for public inspection at each of our 3 principal offices.

[Please note if you have previously made a representation in relation to the Draft Plan Strategy, the Council will write to you separately.]

Timescale to make a Representation

The re-consultation period commences at 10am on 25th March 2020 for a period of 8-weeks closing at 5pm on 21st May 2020.

Public Exhibitions and Drop-in Events

As part of this re-consultation, the Council are undertaking a series of public exhibitions and drop-in events where council planning officers will be available to answer questions. These are to be held across the District as detailed below:

Location	Time	Date
Cookstown - The Burnavon Arts Centre	3pm - 7pm	Wednesday 25th March 2020
Cookstown - The Burnavon Arts Centre	3pm - 7pm	Thursday 26th March 2020

RE-ADVERTISEMENT

Re-consultation on Mid Ulster District Council Local Development Plan 2030 - Draft Plan Strategy

The Planning Act (Northern Ireland) 2011

The Planning (Local Development Plan) Regulations (Northern Ireland) 2015

In accordance with Regulation 15 of The Planning (Local Development Plan) Regulations (Northern Ireland) 2015, notice is hereby given that Mid Ulster District Council will commence a re-consultation process on the Local Development Plan 2030 - Draft Plan Strategy at 10am on 25th March 2020 for a period of 8-weeks closing at 5pm on 21st May 2020.

The Council has identified a procedural error in relation to the original consultation and therefore, the Council is now re-consulting on the Local Development Plan 2030 - Draft Plan Strategy in order to ensure a compliant consultation process.

The Draft Plan Strategy sets out the Council's vision for the Mid Ulster District up to 2030 and the objectives, spatial planning framework and policies to deliver that vision.

The Local Development Plan 2030 - Draft Plan Strategy is accompanied by a Sustainability Appraisal incorporating Strategic Environmental Assessment Report (SA/SEA Report), Equality Impact Screening Report and Rural Needs Impact Assessment, Habitats Regulations Assessment, as well as other supporting documents.

Availability of Documents

The Draft Plan Strategy, SA/SEA Report, Equality Impact Screening Report, Rural Needs Impact Assessment, Habitats Regulations Assessment and other supporting documents will be available for inspection from 10am on 25th March 2020 until 5pm on 21st May 2020 at the 3 principal council offices:

Cookstown Office, Burn Road, Cookstown, BT80 8DT
Dungannon Office, Circular Road, Dungannon, BT71 6DT
Magherafelt Office, Ballyronan Road, BT45 6EN

Opening Hours: Mon - Fri 9am to 5pm
 Tel: 03000 132 132

The Draft Plan Strategy, SA/SEA Report, Equality Impact Screening Report, Rural Needs Impact Assessment Report, Habitats Regulations Assessment and other supporting documents are available on the Mid Ulster District Council website at www.midulstercouncil.org/planning/Mid-Ulster-Development-Plan

Hard copies of the Draft Plan Strategy can be obtained from each of the 3 council offices upon request.

Waste Collection Policy Public Consultation

Mid Ulster District Council's revised Waste Collection Policy is open for public consultation.

The policy details all aspects of the Council's waste collection services, many of which are well-established and will be familiar to local residents and businesses.

There are, however, a number of new provisions in the policy regarding the collection of second brown bins, the provision of litter bins and skip containers.

To view the revised policy and respond to the consultation, visit www.midulstercouncil.org/wastecollectionpolicy.

Alternatively contact Environmental Services on 03000 132 132, E: environmentalservices@midulstercouncil.org.

The consultation closes on Friday 29 May 2020.

RE-ADVERTISEMENT

Re-consultation on Mid Ulster District Council Local Development Plan 2030 - Draft Plan Strategy

The Planning Act (Northern Ireland) 2011

The Planning (Local Development Plan) Regulations (Northern Ireland) 2015

In accordance with Regulation 15 of The Planning (Local Development Plan) Regulations (Northern Ireland) 2015, notice is hereby given that Mid Ulster District Council will commence a re-consultation process on the Local Development Plan 2030 - Draft Plan Strategy at 10am on 25th March 2020 for a period of 8-weeks closing at 5pm on 21st May 2020.

The Council has identified a procedural error in relation to the original consultation and therefore, the Council is now re-consulting on the Local Development Plan 2030 - Draft Plan Strategy in order to ensure a compliant consultation process.

The Draft Plan Strategy sets out the Council's vision for the Mid Ulster District up to 2030 and the objectives, spatial planning framework and policies to deliver that vision.

The Local Development Plan 2030 - Draft Plan Strategy is accompanied by a Sustainability Appraisal incorporating Strategic Environmental Assessment Report (SA/SEA Report), Equality Impact Screening Report and Rural Needs Impact Assessment, Habitats Regulations Assessment, as well as other supporting documents.

Availability of Documents

The Draft Plan Strategy, SA/SEA Report, Equality Impact Screening Report, Rural Needs Impact Assessment, Habitats Regulations Assessment and other supporting documents will be available for inspection from 10am on 25th March 2020 until 5pm on 21st May 2020 at the 3 principal council offices:

Cookstown Office, Burn Road, Cookstown, BT80 8DT
Dungannon Office, Circular Road, Dungannon, BT71 6DT
Magherafelt Office, Ballyronan Road, BT45 6EN

Opening Hours: Mon - Fri 9am to 5pm
 Tel: 03000 132 132

The Draft Plan Strategy, SA/SEA Report, Equality Impact Screening Report, Rural Needs Impact Assessment Report, Habitats Regulations Assessment and other supporting documents are available on the Mid Ulster District Council website at www.midulstercouncil.org/planning/Mid-Ulster-Development-Plan

Hard copies of the Draft Plan Strategy can be obtained from each of the 3 council offices upon request.

How to make a Representation

Online:

- Utilising our online Representation Form (Survey Monkey) at: www.midulstercouncil.org/planning/mid-ulster-development-plan
- By downloading a Representation Form at the above website address.

By mail:

- Email us at: DevelopmentPlan@midulstercouncil.org
- In writing to the following postal address: Development Plan Team, Planning Department, Mid Ulster District Council, 50 Ballyronan Road, Magherafelt, BT45 6EN

When making your representation you are encouraged to use the Representation Form.

Please be aware that the name and address on your representation will be published on our website when the representations are made available for public inspection. Personal data such as signatures, telephone numbers and personal email addresses will be redacted when they are published on our website. When representations are made available for inspection, your representation will be also available in hard copy for public inspection at each of our 3 principal offices.

[Please note if you have previously made a representation in relation to the Draft Plan Strategy, the Council will write to you separately.]

Timescale to make a Representation

The re-consultation period commences at 10am on 25th March 2020 for a period of 8-weeks closing at 5pm on 21st May 2020.

Public Exhibitions and Drop-In Events

As part of this re-consultation, the Council are undertaking a series of public exhibitions and drop-in events where council planning officers will be available to answer questions. These are to be held across the District as detailed below:

Waste Collection Policy Public Consultation

Mid Ulster District Council's revised Waste Collection Policy is open for public consultation.

The policy details all aspects of the Council's waste collection services, many of which are well-established and will be familiar to local residents and businesses.

There are, however, a number of new provisions in the policy regarding the collection of second brown bins, the provision of litter bins and skip containers.

To view the revised policy and respond to the consultation, visit www.midulstercouncil.org/wastecollectionpolicy.

Alternatively contact Environmental Services on 03000 132 132, E: environmentalservices@midulstercouncil.org.

The consultation closes on **Friday 29 May 2020**.

Telephone 03000 132 132
www.midulstercouncil.org

Consultation on 2020-21 to 2021-22 Performance Improvement Objectives

Mid Ulster District Council is seeking feedback on its proposed 2020-21 to 2021-22 Performance Improvement Objectives, set in accordance with the Local Government Act (NI) 2014. We want to deliver the best possible services to everyone who uses them, to read the objectives and give your feedback you can:

- Find out more information and complete a survey at: www.midulstercouncil.org/improvementobjectives.
- You can request a copy of this survey by e-mailing: info@midulstercouncil.org or by telephone 03000132132

Responses to be received by **12 noon on Friday the 1st of May 2020**.

RE-ADVERTISEMENT

Re-consultation on Sustainability Appraisal incorporating a Strategic Environmental Assessment (SA/SEA) Environmental Report of Mid Ulster District Council Local Development Plan 2030 - Draft Plan Strategy

The Planning Act (Northern Ireland) 2011
The Environmental Assessment of Plans and Programmes Regulations (Northern Ireland) 2004

In accordance with the provisions of Regulation 12 of The Environmental Assessment of Plans and Programmes Regulations (Northern Ireland) 2004, notice is hereby given that Mid Ulster District Council will commence re-consultation on the Sustainability Appraisal, incorporating a Strategic Environmental Assessment (SA/SEA Report) Environmental Report, of the Mid Ulster District Council Local Development Plan 2030 - Draft Plan Strategy at 10am on 25th March 2020 for a period of 8-weeks, closing at 5pm on 21st May 2020.

The Council has identified a procedural error in relation to the original consultation on the Local Development Plan 2030 - Draft Plan Strategy and therefore the Council is re-consulting on the Local Development Plan 2030 - Draft Plan Strategy in order to ensure a compliant consultation process. In parallel the Council is also re-consulting on the Sustainability Appraisal, incorporating a Strategic Environmental Assessment (SA/SEA Report) Environmental Report, of the Mid Ulster District Council Local Development Plan 2030 - Draft Plan Strategy

Under the provisions of Section 8 of the Planning Act (Northern Ireland) 2011 and Regulation 11 of The Environmental Assessment of Plans and Programmes Regulations (Northern Ireland) 2004, the SA/SEA Report has been prepared to accompany the Local Development Plan 2030 - Draft Plan Strategy.

Availability of Documents

The SA/SEA Report will be available for inspection from 10am on 25th March 2020 until 5pm on 21st May 2020 at the 3 principal council offices:

Cookstown Office, Burn Road, Cookstown, BT80 8DT
Dungannon Office, Circular Road, Dungannon, BT71 6DT
Magherafelt Office, Ballyronan Road, BT45 6EN

Opening Hours: Mon - Fri 9am to 5pm
Tel: 03000 132 132

The Local Development Plan 2030 - Draft Plan Strategy is also accompanied by an Equality Impact Screening

Report, Rural Needs Impact Assessment Report, Habitats Regulations Assessment and other supporting documents. All supporting documents, including the SA/SEA Report will also be available on the Mid Ulster District Council website at www.midulstercouncil.org/planning/Mid-Ulster-Development-Plan

Hard copies of the SA/SEA Environmental Report can be obtained from the Planning Department upon request (Tel: 03000 132 132).

Expressions of Opinion

Expressions of Opinion on the SA/SEA Report are invited and can be made in the following way:

- Email us at: DevelopmentPlan@midulstercouncil.org
- In writing to the following postal address: Development Plan Team, Planning Department, Mid Ulster District Council, 50 Ballyronan Road, Magherafelt, BT45 6EN

Please be aware that your expression of opinion submission will be published on our website when the representations to the Local Development Plan 2030 - Draft Plan Strategy are made available for public inspection. Your name and address will be published when they are published on our website however personal data such as signatures, telephone numbers and personal email addresses will be redacted when they are published. When representations to the Draft Plan Strategy are made available for inspection, your expression of opinion will be also be available in hard copy for public inspection at each of our 3 principal offices.

[Please note if you have previously made a representation to the Sustainability Appraisal incorporating a Strategic Environmental Assessment (SA/SEA) Environmental Report, the Council will write to you separately.]

Timescale

The re-consultation period for the SA/SEA Report commences at 10am on 25th March 2020 for a period of 8-weeks closing at 5pm on 21st May 2020.

RE-ADVERTISEMENT

Re-consultation on Mid Ulster District Council Local Development Plan 2030 - Draft Plan Strategy

The Planning Act (Northern Ireland) 2011
 The Planning (Local Development Plan) Regulations (Northern Ireland) 2015

In accordance with Regulation 15 of The Planning (Local Development Plan) Regulations (Northern Ireland) 2015, notice is hereby given that Mid Ulster District Council will commence a re-consultation process on the Local Development Plan 2030 - Draft Plan Strategy at 10am on 25th March 2020 for a period of 8-weeks closing at 5pm on 21st May 2020.

The Council has identified a procedural error in relation to the original consultation and therefore, the Council is now re-consulting on the Local Development Plan 2030 - Draft Plan Strategy in order to ensure a compliant consultation process.

The Draft Plan Strategy sets out the Council's vision for the Mid Ulster District up to 2030 and the objectives, spatial planning framework and policies to deliver that vision.

The Local Development Plan 2030 - Draft Plan Strategy is accompanied by a Sustainability Appraisal incorporating Strategic Environmental Assessment Report (SA/SEA Report), Equality Impact Screening Report and Rural Needs Impact Assessment, Habitats Regulations Assessment, as well as other supporting documents.

Availability of Documents

The Draft Plan Strategy, SA/SEA Report, Equality Impact Screening Report, Rural Needs Impact Assessment, Habitats Regulations Assessment and other supporting documents will be available for inspection from 10am on 25th March 2020 until 5pm on 21st May 2020 at the 3 principal council offices:

Cookstown Office, Burn Road, Cookstown, BT80 8DT
Dungannon Office, Circular Road, Dungannon, BT71 6DT
Magherafelt Office, Ballyronan Road, BT45 6EN

Opening Hours: Mon - Fri 9am to 5pm
 Tel: 03000 132 132

The Draft Plan Strategy, SA/SEA Report, Equality Impact Screening Report, Rural Needs Impact Assessment Report, Habitats Regulations Assessment and other supporting documents are available on the Mid Ulster District Council website at www.midulstercouncil.org/planning/Mid-Ulster-Development-Plan

Hard copies of the Draft Plan Strategy can be obtained from each of the 3 council offices upon request.
 How to make a Representation

- Online:**
- Utilising our online Representation Form (Survey Monkey) at: www.midulstercouncil.org/planning/mid-ulster-development-plan
 - By downloading a Representation Form at the above website address.

By mail:

- Email us at: DevelopmentPlan@midulstercouncil.org
- In writing to the following postal address: Development Plan Team, Planning Department, Mid Ulster District Council, 50 Ballyronan Road, Magherafelt, BT45 6EN

When making your representation you are encouraged to use the Representation Form.

Please be aware that the name and address on your representation will be published on our website when the representations are made available for public inspection. Personal data such as signatures, telephone numbers and personal email addresses will be redacted when they are published on our website. When representations are made available for inspection, your representation will be also available in hard copy for public inspection at each of our 3 principal offices.

[Please note if you have previously made a representation in relation to the Draft Plan Strategy, the Council will write to you separately.]

Timescale to make a Representation

The re-consultation period commences at 10am on 25th March 2020 for a period of 8-weeks closing at 5pm on 21st May 2020.

Public Exhibitions and Drop-In Events

As part of this re-consultation, the Council are undertaking a series of public exhibitions and drop-in events where council planning officers will be available to answer questions. These are to be held across the District as detailed below:

Waste Collection Policy Public Consultation

Mid Ulster District Council's revised Waste Collection Policy is open for public consultation.

The policy details all aspects of the Council's waste collection services, many of which are well-established and will be familiar to local residents and businesses.

There are, however, a number of new provisions in the policy regarding the collection of second brown bins, the provision of litter bins and skip containers.

To view the revised policy and respond to the consultation, visit www.midulstercouncil.org/wastecollectionpolicy.

Alternatively contact Environmental Services on 03000 132 132, E: environmentalservices@midulstercouncil.org.

The consultation closes on **Friday 29 May 2020**.

Consultation on 2020-21 to 2021-22 Performance Improvement Objectives

Mid Ulster District Council is seeking feedback on its proposed 2020-21 to 2021-22 Performance Improvement Objectives, set in accordance with the Local Government Act (NI) 2014. We want to deliver the best possible services to everyone who uses them, to read the objectives and give your feedback you can:

- Find out more information and complete a survey at: www.midulstercouncil.org/improvementobjectives.
- You can request a copy of this survey by e-mailing: info@midulstercouncil.org or by telephone 03000132132

Responses to be received by **12 noon on Friday the 1st of May 2020**.

RE-ADVERTISEMENT

Re-consultation on Mid Ulster District Council Local Development Plan 2030 - Draft Plan Strategy

The Planning Act (Northern Ireland) 2011

The Planning (Local Development Plan) Regulations (Northern Ireland) 2015

In accordance with Regulation 15 of The Planning (Local Development Plan) Regulations (Northern Ireland) 2015, notice is hereby given that Mid Ulster District Council will commence a re-consultation process on the Local Development Plan 2030 - Draft Plan Strategy at 10am on 25th March 2020 for a period of 8-weeks closing at 5pm on 21st May 2020.

The Council has identified a procedural error in relation to the original consultation and therefore, the Council is now re-consulting on the Local Development Plan 2030 - Draft Plan Strategy in order to ensure a compliant consultation process.

The Draft Plan Strategy sets out the Council's vision for the Mid Ulster District up to 2030 and the objectives, spatial planning framework and policies to deliver that vision.

The Local Development Plan 2030 - Draft Plan Strategy is accompanied by a Sustainability Appraisal incorporating Strategic Environmental Assessment Report (SA/SEA Report), Equality Impact Screening Report and Rural Needs Impact Assessment, Habitats Regulations Assessment, as well as other supporting documents.

Availability of Documents

The Draft Plan Strategy, SA/SEA Report, Equality Impact Screening Report, Rural Needs Impact Assessment, Habitats Regulations Assessment and other supporting documents will be available for inspection from 10am on 25th March 2020 until 5pm on 21st May 2020 at the 3 principal council offices:

Cookstown Office, Burn Road, Cookstown, BT80 8DT
Dungannon Office, Circular Road, Dungannon, BT71 6DT
Magherafelt Office, Ballyronan Road, BT45 6EN

Opening Hours: Mon - Fri 9am to 5pm
Tel: 03000 132 132

The Draft Plan Strategy, SA/SEA Report, Equality Impact Screening Report, Rural Needs Impact Assessment Report, Habitats Regulations Assessment and other supporting documents are available on the Mid Ulster District Council website at www.midulstercouncil.org/planning/Mid-Ulster-Development-Plan

Hard copies of the Draft Plan Strategy can be obtained from each

of the 3 council offices upon request.

How to make a Representation

Online:

- Utilising our online Representation Form (Survey Monkey) at: www.midulstercouncil.org/planning/mid-ulster-development-plan

- By downloading a Representation Form at the above website address.

By mail:

- Email us at: DevelopmentPlan@midulstercouncil.org
- In writing to the following postal address: Development Plan Team, Planning Department, Mid Ulster District Council, 50 Ballyronan Road, Magherafelt, BT45 6EN

When making your representation you are encouraged to use the Representation Form.

Please be aware that the name and address on your representation will be published on our website when the representations are made available for public inspection. Personal data such as signatures, telephone numbers and personal email addresses will be redacted when they are published on our website. When representations are made available for inspection, your representation will be also available in hard copy for public inspection at each of our 3 principal offices.

[Please note if you have previously made a representation in relation to the Draft Plan Strategy, the Council will write to you separately.]

Timescale to make a Representation

The re-consultation period commences at 10am on 25th March 2020 for a period of 8-weeks closing at 5pm on 21st May 2020.

Public Exhibitions and Drop-In Events

As part of this re-consultation, the Council are undertaking a series of public exhibitions and drop-in events where council planning officers will be available to answer questions. These are to be held across the District as detailed below:

Annex 4J – Closing date of closing date of DPS Re-consultation Period – Public Notices

Public Notice

**Extension to the Closing Date of the Re-Consultation on Mid Ulster District Council Local Development Plan 2030 – Draft Plan Strategy
The Planning Act (Northern Ireland) 2011
The Planning (Local Development Plan) Regulations (Northern Ireland) 2015**

Re-consultation on the Draft Plan Strategy commenced at 10am on 25th March 2020. In light of the issues being faced with COVID19 Notice was previously given that the council would be extending the closing date of the re-consultation. Notice is hereby given that the re-consultation period will close at 5pm on 24th September 2020.

The Draft Plan Strategy sets out the Council's vision for the Mid Ulster District up to 2030 and the objectives, spatial planning framework and policies to deliver that vision.

The Local Development Plan 2030 – Draft Plan Strategy is accompanied by a Sustainability Appraisal incorporating Strategic Environmental Assessment Report (SA/SEA Report), Equality Impact Screening Report and Rural Needs Impact Assessment, Habitats Regulations Assessment, as well as other background supporting evidence.

Availability of Documents

The Draft Plan Strategy, SA/SEA Report, Equality Impact Screening Report, Rural Needs Impact Assessment, Habitats Regulations Assessment and other relevant documents will be available for inspection by appointment at the 3 principal council offices. An appointment can be made by contacting the Planning Department directly at the telephone number below:

Cookstown Office Burn Road, Cookstown BT80 8DT	Dungannon Office Circular Road, Dungannon BT71 6DT	Magherafelt Office Ballyronan Road, Magherafelt, BT45 6EN
--	--	---

Opening Hours: Mon – Fri 9am to 5pm

Tel – 03000 132 132

The Draft Plan Strategy, SA/SEA Report, Equality Impact Screening Report, Rural Needs Impact Assessment Report, Habitats Regulations Assessment and all background supporting evidence are available on the Mid Ulster District Council website at www.midulstercouncil.org/lddraftplanstrategy

Hard copies of the Draft Plan Strategy can be obtained from the Planning Department upon request (Tel: 03000 132 132).

How to make a Representation

Online:

- Utilising our online Representation Form (Survey Monkey) at: www.midulstercouncil.org/lddraftplanstrategy
- By downloading a Representation Form at the above website address.

By email:

- Email us at: DevelopmentPlan@midulstercouncil.org
- In writing to the following postal address: Development Plan Team, Planning Department, Mid Ulster District Council, 50 Ballyronan Road, Magherafelt, BT45 6EN

When making your representation you are encouraged to use the Representation Form.

Please be aware that the name and address on your representation will be published on our website when the representations are made available for public inspection. Personal data such as signatures, telephone numbers and personal email addresses will be redacted when they are published on our website. When representations are made available for inspection, your representation will be also be available in hard copy for public inspection at each of our 3 principal offices.

Timescale to make a Representation

The re-consultation period closes at 5pm on 24th September 2020.

Public Exhibitions and Drop-In Events

In line with public health regulations and guidance and as a response to COVID-19, planned exhibitions and drop-in sessions are no longer taking place. Instead, during the extended re-consultation period an appointment may be made to speak to or meet with a Planning Officer by contacting us at the telephone number above where you can ask questions in the same manner as you would at a public meeting or exhibition.

The information that would have been on display at public exhibitions will be available for viewing by appointment only and a Planning officer will be available during that appointment from 29th July to 18th September at the location, days and times outlined below.

Location	Days	Time
Magherafelt Office, Ballyronan Road, Magherafelt	Monday – Fridays and Tuesdays	9am – 5pm 5pm – 8pm
Dungannon Office, Circular Road, Dungannon	Thursdays	2pm – 8pm

If you are intending to come to the office to view the information, it is essential that you make an appointment in advance, so that we can ensure that your request can be safely facilitated.

On request, we will make the information that would have been on display at the public exhibition available as a printed document which we can post or email to you. Additionally, we will also place the exhibition display information on our council website for viewing.

NEWS AS IT
HAPPENS

Public Notice
MID ULSTER DISTRICT COUNCIL LOCAL DEVELOPMENT PLAN 2020 - DRAFT PLAN STRATEGY
PUBLIC CONSULTATION ON SITE SPECIFIC POLICY REPRESENTATIONS
THE PLANNING (LOCAL DEVELOPMENT PLAN) REGULATIONS (NORTHERN IRELAND) 2015

In accordance with Regulation 17 of the Planning (Local Development Plan) Regulations (Northern Ireland) 2015, notice is hereby given that Mid Ulster District Council is publishing the representations received during the statutory public consultation and reconconsultation periods for the Mid Ulster District Council Local Development Plan 2020 - Draft Plan Strategy.

The consultation period for any counter representations to be made will commence on Thursday 22nd October 2020 and end at 5pm on Friday 12th December 2020.

Availability of Representations

The representations will be available for inspection by appointment from Wednesday 21st October 2020 at the three principal council offices at: Burn Road, Cookstown, BT80 8DJ; Circular Road, Dungannon, BT71 6DT; and, Ballyroan Road, Magherafelt, BT45 6DJ, during the hours 9am - 5pm Monday - Friday. Telephone 03000 132 132 for an appointment. Social distancing measures will apply to anyone visiting these offices.

The representations will also be available to view on the Mid Ulster District Council website from Wednesday 21st October 2020 at: www.midulstercouncil.org/ldp-dps-representations

How to Respond

In accordance with Regulation 18 of the Planning (Local Development Plan) Regulations (Northern Ireland) 2015, any person may make representations about a site specific policy representation (referred to as counter representations). Counter representations must not propose any changes to the development plan document.

Any counter representation should clearly state the reference number of the representation to which it relates.

A counter representation form will be available to download from our council website at: www.midulstercouncil.org/ldp-coenter-representations

Counter representations can be made during the period Thursday 22nd October to 5pm Friday 18th December 2020 by the following means: email to: DevelopmentPlan@midulstercouncil.org; or in writing to the following postal address: Development Plan Team, Planning Department, Mid Ulster District Council, 50 Ballyroan Road, Magherafelt, BT45 6DJ

Please note that as the Council has undergone a reconconsultation exercise on the Draft Plan Strategy, then if you previously made a counter representation during the original counter representation period (14th June 2019 to 9th August 2019) the Council will write to you separately. Any person who has made a previous counter representation is advised to examine the representations now being made available.

Guidance on what constitutes a counter representation can be obtained from the three principal offices, and from the Council's website at the address detailed above.

Please be aware that the name and address on your counter representation will be published on our website when the counter representations are made available for public inspection. Personal data such as signatures, telephone numbers and personal email addresses will be redacted when they are published on our website.

When counter representations are made available for inspection, they will also be available in hard copy at each of our three principal offices.

All counter representations must be received between the period Thursday 22nd October 2020 and no later than 5pm on Friday 12th December 2020.

Telephone 03000 132 132
www.midulstercouncil.org

Planning Applications

Full details of the following planning applications including plans, maps and drawings are available to view on the Mid Ulster District Council website www.planningapp.com or at the Council Planning Office by contacting 03000 132 132. Written representations should be submitted within the next 14 days. Please note the application number in any correspondence and refer to all representations made, including objections, will be posted on the Mid Ulster District Council website.

Public Notice**MID ULSTER DISTRICT COUNCIL LOCAL DEVELOPMENT PLAN
2020 - DRAFT PLAN STRATEGY****PUBLIC CONSULTATION ON SITE SPECIFIC POLICY REPRESENTATIONS
THE PLANNING (LOCAL DEVELOPMENT PLAN) REGULATIONS
(NORTHERN IRELAND) 2015**

In accordance with Regulation 17 of the Planning (Local Development Plan) Regulations (Northern Ireland) 2015, notice is hereby given that Mid Ulster District Council is publishing the representations received during the statutory public consultation and reconsideration periods for the Mid Ulster District Council Local Development Plan 2020 - Draft Plan Strategy.

The consultation period for any counter representations to be made will commence on Thursday 22nd October 2020 and end at 5pm on Friday 12th December 2020.

Availability of Representations

The representations will be available for inspection by appointment from Wednesday 21st October 2020 at the three principal council offices at Burn Road, Cookstown, BT60 8DT; Circular Road, Dungannon, BT71 6DT; and Ballyronan Road, Magherafelt, BT45 6EN, during the hours 9am - 5pm Monday - Friday. Telephone 03000 132 132 for an appointment. Social distancing measures will apply to anyone visiting these offices.

The representations will also be available to view on the Mid Ulster District Council website from Wednesday 21st October 2020 at:
www.midulstercouncil.org/ldp-dpp-representations

How to Respond

In accordance with Regulation 18 of the Planning (Local Development Plan) Regulations (Northern Ireland) 2015, any person may make representations about a site specific policy representation (referred to as counter representations). Counter representations must not propose any changes to the development plan document.

Any counter representation should clearly state the reference number of the representation to which it relates.

A counter representation form will be available to download from our council website at: www.midulstercouncil.org/ldp-counter-representations

Counter representations can be made during the period Thursday 22nd October to 5pm Friday 12th December 2020 by the following means: email to: DevelopmentPlan@midulstercouncil.org or in writing to the following postal address: Development Plan Team, Planning Department, Mid Ulster District Council, 50 Ballyronan Road, Magherafelt, BT45 6EN

Please note that as the Council has undergone a reconsideration exercise on the Draft Plan Strategy, then if you previously made a counter representation during the original counter representation period (14th June 2019 to 9th August 2019) the Council will write to you separately. Any person who has made a previous counter representation is advised to examine the representations now being made available.

Guidance on what constitutes a counter representation can be obtained from the three principal offices, and from the Council's website at the address detailed above.

Please be aware that the name and address on your counter representation will be published on our website when the counter representations are made available for public inspection. Personal data such as signatures, telephone numbers and personal email addresses will be redacted when they are published on our website.

When counter representations are made available for inspection, they will also be available in hard copy at each of our three principal offices.

All counter representations must be received between the period Thursday 22nd October 2020 and no later than 5pm on Friday 12th December 2020.

Any counter representation should clearly state the reference number of the representation to which it relates.

A counter representation form will be available to download from our council website at:

www.midulstercouncil.org/ldp-counter-representations

Counter representations can be made during the period Thursday 22nd October to 5pm Friday 18th December 2020 by the following means; email to: DevelopmentPlan@midulstercouncil.org; or in writing to the following postal address: Development Plan Team, Planning Department, Mid Ulster District Council, 50 Ballyronan Road, Magherafelt, BT45 6EN

Please note that as the Council has undergone a reconsultation exercise on the Draft Plan Strategy, then if you previously made a counter representation during the original counter representation period (14th June 2019 to 9th August 2019) the Council will write to you separately. Any person who has made a previous counter representation is advised to examine the representations now being made available.

Guidance on what constitutes a counter representation can be obtained from the three principal offices, and from the Council's website at the address detailed above.

Please be aware that the name and address on your counter representation will be published on our website when the counter representations are made available for public inspection. Personal data such as signatures, telephone

numbers and personal email addresses will be redacted when they are published on our website.

When counter representations are made available for inspection, they will also be available in hard copy at each of our three principal offices.

All counter representations must be received between the period Thursday 22nd October 2020 and no later than 5pm on Friday 18th December 2020.

All content is available under the [Open Government Licence v3.0](#), except where otherwise stated. However, please note that this licence does not cover the re-use of personal data. If you are interested in linking to this website please read our [Linking Policy](#).

Annex 4L – Reg 8 – Revised Timetable (2020) – Public Notices

Public Announcement

Mid Ulster District Council Revised Local Development Plan Timetable
Planning (Local Development Plan) Regulations
(Northern Ireland) 2015 (Regulation 8)

In accordance with Regulation 8 of the Planning (Local Development Plan) Regulations (Northern Ireland) 2015 Mid Ulster District Council wish to announce publication of a revised Timetable (August 2020) for the preparation of the Mid Ulster District Council Local Development Plan (LDP). The Timetable was agreed by the Department on the 23rd November 2020.

The revised LDP Timetable is now available for inspection at:

Cookstown Office Burn Road, Cookstown BT80 8DT	Dungannon Office Circular Road, Dungannon BT71 6DT	Magherafelt Office Ballyronan Road, Magherafelt, BT45 6EH
--	--	---

Opening Hours: Mon - Fri 9am to 5pm
 Tel: 03000 132 132
 Email: planning@midulstercouncil.org

The revised Timetable is also available online at the Mid Ulster District Council website at the following link:
www.midulstercouncil.org/developmentplantimetable

The Timetable sets out Mid Ulster District Council's revised programme for the production of its local development plan (LDP) and includes details of the key stages in process.
