

Equality & Good Relations Screening Report

Introduction

Mid Ulster District Council has a statutory duty to screen its policies, procedures, practices/decisions. This Policy Screening Form and Report assists Council Departments to consider the likely equality and good relations impacts of the aforementioned, if any, placed upon our ratepayers, citizens, service users, staff and visitors to the district.

Section 1 – Policy scoping

This asks the Policy Author to provide details on the policy, procedure, practice and/or decision being screened and what available evidence you have gathered to help make an assessment of the likely impact on equality of opportunity and good relations. Reference to policy within this document refers to either of the aforementioned (policy, procedure, practice, and/ or decision).

Section 2 – Screening questions

This asks about the extent of the likely impact of the policy on groups of people within each of the Section 75 categories. Details of the groups consulted and the level of assessment of the likely impact. This includes consideration of multiple identity and issues.

Section 3 – Screening decision

This guides the Council to reach a screening decision as to whether or not there is a need to carry out an equality impact assessment (EQIA), or introduce measures to mitigate the likely impact, or the introduction of an alternative policy to better promote equality of opportunity.

Section 4 – Monitoring

This provides guidance to the Council on monitoring for adverse impact and broader monitoring.

Section 5 – Approval and authorisation

This verifies the Council's approval of a screening decision by a senior manager responsible for the policy.

Appendix A Screening Process

Section 1 Policy Scoping & Information

The first stage of the screening process involves scoping the policy under consideration which sets the context and confirms the aims and objectives for the policy being screened. Scoping the policy helps to identify constraints as well as opportunities and will help the policy author to work through the screening process on a step by step basis.

Needs, experiences and priorities

Taking into account the information referred to above, what are the different needs, experiences and priorities of each of the following categories, in relation to the particular policy/decision? Specify details for each of the Section 75 categories

Section 75 category	Details of needs/experiences/priorities
Religious belief	The project is intended to enhance commercial premises and generate economic growth for the benefit of everyone irrespective of their religious beliefs.

Political opinion	The project is intended to enhance commercial premises and generate economic growth for the benefit of everyone irrespective of their religious beliefs
Racial group	The project is intended to enhance commercial premises and generate economic growth for the benefit of everyone irrespective of racial group. Details of the scheme can be translated upon request for whom English is not their first language.
Age	The project is intended to enhance commercial premises, and provide a service for the benefit of everyone, which will be reflected in relation to accessibility requirements. Older people who are service users/potential service users tend to have greater need for physical accessibility to be considered. Older people who have difficulty travelling need/prefer to have services in their local area.
Marital status	The project is intended to enhance commercial premises, and provide a service for the benefit of everyone irrespective of marital status.
Sexual orientation	The project is intended to enhance commercial premises, and provide a service for the benefit of everyone irrespective of sexual orientation.
Men and women generally	The project is intended to enhance commercial premises and generate economic growth for the benefit of everyone irrespective if they are male or female. Applications will be open to male and female.
Disability	The project is intended to enhance commercial premises and generate economic growth for the benefit of everyone irrespective of their status within this Section 75 category. People with disabilities have greater difficulty accessing business premises than those without disability and specific access needs vary according to the disability and degree of disability.
Dependants	The project is intended to enhance commercial premises and generate economic growth for the benefit of everyone irrespective if they have dependents. People with dependants,

	for example, parents with buggies or carers of disabled people, may experience difficulties accessing business premises.

Section 2 – Screening Questions

In making a decision as to carry out an Equality Impact Assessment (EQIA), the Council should consider its answers to the questions 1- 3 detailed below.

If the Council's conclusion is **none** in respect of all of the Section 75 equality of opportunity categories, then the Council may decide to screen the policy out. If a policy is 'screened out' as having no relevance to equality of opportunity, the Council should give details of the reasons for the decision taken.

If the Council's conclusion is **major** in respect of one or more of the Section 75 equality of opportunity, then consideration should be given to subjecting the policy to the equality impact assessment procedure.

If the Council's conclusion is **minor** in respect of one or more of the Section 75 equality categories, then consideration should still be given to proceeding with an equality impact assessment, or to:

- measures to mitigate the adverse impact; or
- the introduction of an alternative policy to better promote equality of opportunity.

In favour of a 'major' impact

- a) The policy is significant in terms of its strategic importance;
- b) Potential equality impacts are unknown, because, for example, there is insufficient data upon which to make an assessment or because they are complex, and it would be appropriate to conduct an equality impact assessment in order to better assess them;
- c) Potential equality impacts are likely to be adverse or are likely to be experienced disproportionately by groups of people including those who are marginalised or disadvantaged;
- d) Further assessment offers a valuable way to examine the evidence and develop recommendations in respect of a policy about which there are concerns amongst affected individuals and representative groups, for example in respect of multiple identities;
- e) The policy is likely to be challenged by way of judicial review;
- f) The policy is significant in terms of expenditure.

In favour of 'minor' impact

- a) The policy is not unlawfully discriminatory and any residual potential impacts on people are judged to be negligible;

- b) The policy, or certain proposals within it, are potentially unlawfully discriminatory, but this possibility can readily and easily be eliminated by making appropriate changes to the policy or by adopting appropriate mitigating measures;
- c) Any asymmetrical equality impacts caused by the policy are intentional because they are specifically designed to promote equality of opportunity for particular groups of disadvantaged people;
- d) By amending the policy there are better opportunities to better promote equality of opportunity.

In favour of none

- a) The policy has no relevance to equality of opportunity.
- b) The policy is purely technical in nature and will have no bearing in terms of its likely impact on equality of opportunity for people within the equality categories.

Screening questions

1. What is the likely impact on equality of opportunity for those affected by this policy, for each of the Section 75 equality categories (minor/ major/ none)		
Section 75 category	Details of policy impact	Level of impact? minor/major/none
Religious belief	The project is intended to enhance commercial premises and generate economic growth for the benefit of everyone irrespective of their religious beliefs.	None
Political opinion	The project is intended to enhance commercial premises and generate economic growth for the benefit of everyone irrespective of their political belief.	None
Racial group	The project is intended to enhance commercial premises and generate economic growth for the benefit of everyone irrespective of their racial group.	None
Age	The scheme will encourage better use of the business premises for all age groups. The new designs put in place will potentially offer increased accessible space that will be beneficial to both younger and older people, externally and internally. Older people and young people who don't have transport may	Minor – Positive

	benefit if this scheme means that local services are enhanced or sustained so they don't have to travel outside their local area.	
Marital status	The project is intended to enhance commercial premises and generate economic growth for the benefit of everyone irrespective of their marital status.	None
Sexual orientation	The project is intended to enhance commercial premises and generate economic growth for the benefit of everyone irrespective of their sexual orientation.	None
Men and women generally	The scheme will encourage businesses to invest in their commercial premises, which in turn will continue to deliver a service to local communities. By commercial premises maintaining a presence in rural communities women will have a closer proximity to services.	Minor - Positive
Disability	The scheme will encourage better use of the business premises for all age groups. The new designs put in place will potentially offer increased accessible space, beneficial to people with disabilities, who have additional accessibility needs.	Minor – Positive
Dependants	The scheme will be a positive to those with dependents - services will be maintained and enhanced; designs which will improve accessibility and internal reconfiguration will result in increased accessible space for those with dependants.	Minor – Positive

2. Are there opportunities to better promote equality of opportunity for people within Section 75 equality categories? (Yes/ No)		
Section 75 category	If Yes, provide details	If No, provide reasons

Religious belief		No , this project will enhance commercial premises and generate economic growth regardless of s75 grouping.
Political opinion		No , this project will enhance commercial premises and generate economic growth regardless of s75 grouping.

3. Are there opportunities without prejudice, to the equality of opportunity duty, to better promote good relations between Section 75 equality categories, through tackling prejudice and/ or promoting understanding? (Yes/ No)		
	No	x
	Yes	
If yes, please detail the opportunities below:		

If yes is concluded to Question 3, then the policy will be referred to the Council's Good Relations Working Group for consideration. The Group will consider the potential opportunities and assess if and how the overall impact of a decision/policy can better promote good relations.

Additional Considerations - Multiple identity

Generally speaking, people can fall into more than one Section 75 category. Taking this into consideration, are there any potential impacts of the policy/decision on people with multiple identities? <i>(For example; disabled minority ethnic people; disabled women; young Protestant men; and young lesbians, gay and bisexual people).</i>
N/A
Provide details of data on the impact of the policy on people with multiple identities. Specify relevant Section 75 categories concerned.

Mitigation

When it is concluded that the likely impact is 'minor' and an equality impact assessment is not to be conducted, you may consider mitigation to lessen the severity of any equality impact, or the introduction of an alternative policy to better promote equality of opportunity.

Can the policy/decision be amended or changed or an alternative policy introduced to better promote equality of opportunity?

If so, give the reasons to support your decision, together with the proposed changes/amendments or alternative policy:

Mitigation will not be required because a minor positive has been identified.

Timetabling and prioritising

If the policy has been screened in for equality impact assessment, please answer the below to determine its priority for timetabling the equality impact assessment.

- On a scale of 1-3 (1 being lowest priority and 3 being highest), assess the policy in terms of its priority for equality impact assessment.

Priority criterion	Rating (1-3)
Effect on equality of opportunity	
Social need	
Effect on people's daily lives	
Relevance to a Council's functions	

Note: The Total Rating Score should be used to prioritise the policy in rank order with other policies screened in for equality impact assessment. This list of priorities will assist the Council in timetabling. Details of the Council's Equality Impact Assessment Timetable should be included in the Screening Reports.

- **Is the policy affected by timetables established by other relevant public authorities?**

Yes	
No	x

Section 5 – Monitoring

Effective monitoring will help identify any future adverse impact arising from the policy which may lead the Council to conduct an equality impact assessment, as well as help with future planning and policy development. Please detail proposed monitoring arrangements below:

The project development and roll out is based on the previous schemes delivered and lessons learnt. This scheme will be monitored from initiation to completion with indicators identified at project initiation. Monitoring details will be presented to Development Committee on a timely basis.

S75 monitoring will be completed on items such as:

- Applicant Gender
- Applicant Commercial Premise Location
- Property Accessible before and/after works
- Age

If deemed necessary a monitoring form will be created and issued to applicants for completion with due regard to S75 Groupings

Through delivery of the scheme, scheme uptake will be S75 monitored on such items as highlighted above.
